Journal Impact Factors

The higher the Impact Factor, the better the journal. The 2.88 means that on average, any article published in that journal will be cited 2.88 times. You would have to compare this journal to journals in the same field to determine how it compares.

What is considered a good impact factor? - Ask the ...

The Journal Impact Factor should be used with informed peer review. In the case of academic evaluation for tenure, it is sometimes inappropriate to use the impact of the source journal to estimate the expected frequency of a recently published article. Again, the Journal Impact Factor should be used with informed peer review.
