The purpose of an air brake system on heavy duty vehicles is to convert air pressure to mechanical energy to activate the foundation brakes. Federal Motor Vehicle Safety Standard 121 dictates how this is to be done for over-the-road vehicles. The purpose of this book is to help you construct Meritor WABCO Truck and Tractor air systems.

and connectivity of commercial vehicles. From concepts to finished products and beyond, WABCO has been developing innovative systems to make vehicles safer and easier to control since 1869.

WABCO Truck Parts - Parts Wabco

Air brake valves are effective because of pressure differential. Having two forces exerting the same pressure from different directions on an object will not allow that object to move. However, by increasing the amount of pressure on one side we increase the force on that side causing the object to move in the opposite direction.

With the introduction of spring brakes, anti-compounding and 121 air brake systems, because a valve is leaking air out of its exhaust, does not mean the valve is at fault. If a spring brake is leaking from the the spring brake to the service brake side, that air will travel back up the service line and out the exhaust of the ...
