Business aviation is the use of any 'general aviation' aircraft for a business purpose. The Federal Aviation Administration defines general aviation as all flights that are not conducted by the military or the scheduled airlines. As such, business aviation is a part of general aviation that focuses on the business use of airplanes and helicopters.

What is Business Aviation? | NBAA - National Business Aviation Association

The critical links between training, maintenance, and readiness cannot be emphasized enough. This TC serves as the primary reference for effectively training aviation maintainers. It is intended to complement TC 3-04.11, and does not relieve or reduce any requirements of the Commander's Aviation Training and Standardization Program.
