### Cumulative Impact And Other Disruption Claims In ...

Cumulative Impact and Other Disruption Claims in Construction Cumulative impacts on construction projects remain largely an ill-defined concept. A more thorough understanding of cumulative impacts as defined by the construction industry and courts and boards will aid the contractor in preparing its damages and proving causation.

### Cumulative Impact and Other Disruption Claims in ...

Cumulative impact claims are relatively uncommon and are generally seen only on large and complex projects. Normally when a change is directed on a project, the contractor determines the cost and time impact of the change and submits a change order request to cover the same. But when there are a multitude of changes, the changes may interact with each other to create costs and impacts beyond those attributable to the individual changes.

For the analyst seeking to show the cause-effect linkage in a cumulative impact of changes claim, the task is even more difficult. By an earlier definition, cumulative impact is "exclusive of that local disruption that can be ascribed to a specific change," 1 or stated another way, cumulative impact cannot be ascribed to a specific change.

### Proving the Cause-Effect Linkage

Cumulative impact is the unforeseeable disruption of productivity resulting from the "synergistic" effect of an undifferentiated group of changes. Cumulative impact is referred to as the "ripple effect" of changes on unchanged work that causes a decrease in the productivity and is not analyzed in terms of spatial or temporal relationships.
