the medicines, supplements and foods people rely on for their health. The quality standards we develop help manufacturers deliver on their promises of safe products, while building confidence among healthcare practitioners, patients and consumers.

### **U.S. Pharmacopeia**

However, because the United States Pharmacopeia/National Formulary (USP/NF) is a drug compendium officially recognized in the United States, reviewers have been reluctant to accept BP, EP, or JP quality standards as part of the drug application review process, even when the standards in the BP, EP, or JP are equivalent to or better than the corresponding USP/NF standards.

Carbopol® 980 NF polymer meets the limits cited in the current edition of the following monographs: • United States Pharmacopeia/National Formulary (USP/NF) monograph for Carbomer Homopolymer Type C • European Pharmacopeia (Ph. Eur.) monograph for Carbomers

### **Carbopol 980 NF Polymer -- Product Specifications**

The results suggest that the solution is slightly hyperosmotic since the osmolality of blood ranges between 285 and 310 mOsmol per kg. However, the solution is found to be hypo-osmotic and has an experimentally determined osmolality of 255 mOsmol per kg. 1 The example illustrates that osmolarity values calculated theoretically from the concentration of a solution should be interpreted ...
