Free Innovation lays out the central role that individuals and groups interacting socially, without prices or property, play in exploring the very frontiers of innovation. Innovation is the most important aspect of growth, and Eric von Hippel is one of the handful of scholars in the world who have ever had a genuinely original and fundamental point to make about it.

Free Innovation | The MIT Press

The key question concerns the global historical trends in terrorist innovation, as well as the critical factors responsible for the differences in practices among terrorist organizations. The first part of the book provides an overview of the tactics and technology used by terrorists in the last century and identifies the key trends for the future.

Every now and then you go to a conference and find yourself inspired while listening to a talk. This happened to me recently at the Researcher to Reader Conference held in London in March. The talk was entitled, "The Rise of the User", given by Jan Reichelt. Jan is a co-founder of Mendeley - an innovator. His message in many ways was simple: In every publishing organization you need a rebel.
