### Ethno Marine Archaeology

Ethnoarchaeology. Ethnography started as a part of anthropology. However, recently maritime archaeologists use this method in their research in order to document the remaining maritime traditions which could be used as a link for better understanding of ancient maritime cultures. Ethnography investigations could lead to have an end-product of a full recording of these boats in its own geographical and social context and to preserve this endangered traditions for future generations.

### Ethnoarchaeology | Definition of Ethnoarchaeology at ...

Ethnoarchaeology is the ethnographic study of peoples for archaeological reasons, usually through the study of the material remains of a society (see David & Kramer 2001). Ethnoarchaeology aids archaeologists in reconstructing ancient lifeways by studying the material and non-material traditions of modern societies.

### Ethnoarchaeology - Wikipedia

They are nevertheless only a small sample of the many sorts of ethnoarchaeology being carried out today throughout the world. The applications are as varied as the problems addressed. While Ethnoarchaeology may not be new, it now wears contemporary garb, reflecting current concerns in archaeological research.

### Expedition Magazine - Penn Museum

Ethnoarchaeology is a research technique in archaeology that uses present-day ethnographic information to inform remains of sites. Applied first in the late 19th century and at its height in the 1980s and 1990s, the practice has decreased in the 21st century. The problem is what it's always been: the application of oranges (living cultures) to apples (ancient past).

### Ethnoarchaeology - Cultural Anthropology & Archaeology

Ethnoarchaeology is the ethnographic learning of people for archaeological reasons, generally focusing on the fabric remains rather than its ethnicity. It is the use of ethologic information from active cluster as an analogy for understanding people of the past. Ethnoarchaeology was entirely developed only over the past 20-25 years.
