Forcing Chess Moves

Look deeper into the position and find forced checkmate in 3 moves. This means three of your moves and two of your opponent's moves. If you look at your forcing options, you'll often be able to spot these longer winning combinations.

Forcing Moves - Chess Lessons - Chess.com

An important principle in chess is the concept of the “forcing move”. A forcing move is one which requires the opponent to reply in a certain way, or which greatly limits the ways in which he can respond. Essentially, a forcing move is either a check, a capture, or a threat. In the case of a check, it...

...

They are the essence of tactical chess; they allow you to dictate your opponent's moves and thus control how the board will look two or three or more moves from now. Other types of moves may be "forcing" as well, mind you: any threat you make against your opponent—for example, a simple threat to take one of his pieces on your next move—may force him to reply in a certain way.

Forcing Chess Moves - Schachversand Niggemann

Forcing Chess Moves explains eloquently that this advice is along the right lines but distorted because finding the most forcing move is not always as simple as checking out Qxh7+. Sometimes the most forcing move is not a capture or a check, but a surprising way to make a threat - even a quiet move." -- Jennifer Shahade, Former US Women Champion

Forcing Chess Moves: The Key to Better Calculation: Hertan ...

Etymology. The word comes from German Zug 'move' + Zwang 'compulsion', so that Zugzwang means 'being forced to make a move'. Originally the term was used interchangeably with the term zugpflicht 'obligation to make a move' as a general game rule. Games like chess and checkers have "zugzwang" (or "zugpflicht"): a player must always make a move on their turn even if this is to their disadvantage.

Zugzwang - Wikipedia

The reason that looking at forcing moves first is important is because of some mathematics. On the first move in chess, White has 20 total possibilities for positions (16 pawn moves and 4 knight moves). Then after Black makes his first move (he has the same 20 options), there are 400 possible chess positions after the first move made by White ...
