The best advice I can offer would be to start with a general study guide (I found Rich's CD study notes on arefourm's ftp site to be the most helpful) for an overall understanding of the information. After you get though that, fill in the details with AHPP, flashcards, SH lectures, web searches of topics you don't understand, etc. Refer back to the NCARB exam guide frequently, making ...

Notes to the table above. 1. HVAC equipment operated at higher air speeds than those for which it was designed loses efficiency and for filters, will begin to bypass rather than remove particles from building air.. 2. Bypass air is used in some heat pump systems to control system performance and economy by sending some air around rather than through the cooling or evaporator coil.

An ebook (short for electronic book), also known as an e-book or eBook, is a book publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices. Although sometimes defined as "an electronic version of a printed book", some e-books exist without a printed equivalent.
