Four-Dimensionalism: An Ontology of Persistence and Time ...

In philosophy, four-dimensionalism (also known as the doctrine of temporal parts) is the ontological position that an object's persistence through time is like its extension through space. Thus, an object that exists in time has temporal parts in the various subregions of the total region of time it occupies, just like an object that exists in a region of space has at least one part in every ...

The first presents the "Four-Dimensionalism" picture, and motivates it by showing its ability to handle certain conceptual problems. The second could stand alone, and is a defense of the "B-theory" of time, which Sider assumes for the remainder of the book. The third attempts to state exactly what the Three/Four-

Second: 'four-dimensionalism' is sometimes used as an umbrella term for perdurance theory and stage theory, and 'three-dimensionalism' as a name for endurance theory. This is because perduring objects (and sums of stages) are four-dimensional, whereas enduring objects are three-dimensional, wholly present at each moment.
