### Mixing and Mastering in the Box: The Guide to Making Great ...

There is a lot of crossover in the tools used by mixing and mastering engineers, with a couple key exceptions. Let's start the DAW. At the most basic level, mastering is about improving a mixed-down stereo file. Just about any DAW that hosts plug-ins and has good editing options is then appropriate for mastering.

### What Is the Difference Between Mixing and Mastering?

We can describe mastering as the final process in audio and music production. In this stage, we optimize the track's mix and final volume to get a professional result. Mastering can improve the quality of a music production and get it ready for commercial distribution. This could be done for CD, TV, the Internet, video games, etc.
