With the work of reporters under fire worldwide, this year's anthology of National Magazine Award finalists and winners is a timely reminder of the power of journalism. The pieces included here explore the fault lines in American society. Shane Bauer's visceral "My Four Months as a Private Prison Guard" (Mother Jones) and Sarah Stillman's depiction of the havoc wreaked on young people's lives when they are put on sex-offender registries (The New Yorker) examine controversial criminal-justice practices. And responses to the shocks of the recent election include Matt Taibbi's irreverent dispatches from the campaign trail (Rolling Stone), George Saunders's transfixing account of Trump's rallies (The New Yorker), and Andrew Sullivan's fears for the future of democracy (New York). In other considerations of the political scene, Jeffrey Goldberg talks through Obama's foreign-policy legacy with the former president (The Atlantic), and Gabriel Sherman analyzes how Roger Ailes's fall sheds light on conservative media (New York). Linking personal stories to the course of history, Nikole Hannah-Jones looks for a school for her daughter in a rapidly changing, racially divided Brooklyn (New York Times Magazine), and Pamela Colloff explores how the 1966 University of Texas Tower mass shooting changed the course of one survivor's life (Texas Monthly). A selection of Rebecca Solnit's Harper's commentary ranges from a writer on death row to the isolation at the heart of conservatism. Becca Rothfeld ponders women waiting on love from the Odyssey to Tinder (Hedgehog Review). Siddhartha Mukherjee depicts the art and agony of oncology (New York Times Magazine). David Quammen ventures to Yellowstone to consider the future of wild places (National Geographic), and Mac McClelland follows a deranged expedition to Cuba in search of the ivory-billed woodpecker (Audubon). The collection concludes with Zandria Robinson's eloquent portrait of her father as reflected in the music he loved (Oxford American). This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

'Everything everybody does is so - I don't know - not wrong, or even mean, or even stupid necessarily. But just so tiny and meaningless and - sad-making. And the worst part is, if you go bohemian or something crazy like that, you're conforming just as much only in a different way.' First published in the New Yorker as two sequential stories, 'Franny' and 'Zooey' offer a dual portrait of the two youngest members of J. D. Salinger's fictional Glass family. Dr. Norman Golb's classic study on the origin of the Dead Sea Scrolls is now available online. Since their earliest discovery in 1947, the Scrolls have been the object of fascination and extreme controversy. Challenging traditional dogma, Golb has been the leading proponent of the view that the Scrolls cannot be the work of a small, desert-dwelling fringe sect, as various earlier scholars had claimed, but are in all likelihood the remains of libraries of various Jewish groups, smuggled out of Jerusalem and hidden in desert caves during the Roman siege of 70 A. D. Contributing to the enduring debate sparked by the book's original publication in

1995, this digital edition contains additional material reporting on new developments that have led a series of major Israeli and European archaeologists to support Golb's basic conclusions. In its second half, the book offers a detailed analysis of the workings of the scholarly monopoly that controlled the Scrolls for many years, and discusses Golb's role in the struggle to make the texts available to the public. Pleading for an end to academic politics and a commitment to the search for truth in scrolls scholarship, *Who Wrote the Dead Sea Scrolls?* sets a new standard for studies in intertestamental history "This book is 'must reading'.... It demonstrates how a particular interpretation of an ancient site and particular readings of ancient documents became a straitjacket for subsequent discussion of what is arguably the most widely publicized set of discoveries in the history of biblical archaeology...." Dr. Gregory T. Armstrong, 'Church History' Golb "gives us much more than just a fresh and convincing interpretation of the origin and significance of the Qumran Scrolls. His book is also... a fascinating case-study of how an idee fixe, for which there is no real historical justification, has for over 40 years dominated an elite coterie of scholars controlling the Scrolls...." Under summer skies, New York Times bestselling author Sherryl Woods evokes family, friendship and heartfelt emotion The surprising and compelling story of two rival geniuses in an all-out race to decode one of the world's most famous documents—the Rosetta Stone—and their twenty-year-long battle to solve the mystery of ancient Egypt's hieroglyphs. The Rosetta Stone is one of the most famous objects in the world, attracting millions of visitors to the British museum ever year, and yet most people don't really know what it is. Discovered in a pile of rubble in 1799, this slab of stone proved to be the key to unlocking a lost language that baffled scholars for centuries. Carved in ancient Egypt, the Rosetta Stone carried the same message in different languages—in Greek using Greek letters, and in Egyptian using picture-writing called hieroglyphs. Until its discovery, no one in the world knew how to read the hieroglyphs that covered every temple and text and statue in Egypt. Dominating the world for thirty centuries, ancient Egypt was the mightiest empire the world had ever known, yet everything about it—the pyramids, mummies, the Sphinx—was shrouded in mystery. Whoever was able to decipher the Rosetta Stone, and learn how to read hieroglyphs, would

solve that mystery and fling open a door that had been locked for two thousand years. Two brilliant rivals set out to win that prize. One was English, the other French, at a time when England and France were enemies and the world's two great superpowers. The Writing of the Gods chronicles this high-stakes intellectual race in which the winner would win glory for both himself and his nation. A riveting portrait of empires both ancient and modern, this is an unparalleled look at the culture and history of ancient Egypt and a fascinating, fast-paced story of human folly and discovery unlike any other.

Late in the afternoon of Sunday, 3 October 1993, 140 elite US soldiers abseiled from helicopters into a teeming market neighbourhood in the heart of the city of Mogadishu, Somalia. Instead, they were pinned down through a long and terrible night in a hostile city, fighting for their lives against thousands of heavily armed Somalis. When the unit was rescued the following morning, 18 American soldiers were dead and more than 70 badly injured. The Somali toll was far worse - more than 500 killed and over 1000 injured. ‘Enlightening, compassionate, superb’ John le Carré A visionary life and times of Joseph Conrad, and of our global world, from one of the best historians writing today.

Abducted by slave traders from her home in Ruthenia – modern-day Ukraine – around 1515, Roxelana was brought to Istanbul and trained in the palace harem as a concubine for Sultan Suleyman the Magnificent, ruler of the Ottoman Empire and one of the world’s most powerful men. Suleyman became besotted with Roxelana and foreswore all other concubines, freeing and marrying her. The bold and canny Roxelana became a shrewd diplomat and philanthropist, helping Suleyman keep pace with a changing world in which women – Isabella of Hungary, Catherine de Medici – were increasingly close to power. Until now Roxelana has been seen by historians as a seductress who brought ruin to the empire, but in *Empress of the East*, acclaimed historian Leslie Peirce reveals with panache the compelling story of an elusive woman who transformed the Ottoman harem into an institution of imperial rule.

Between the Civil War and World War I, the Maine coast drew thousands of summer visitors ever year. By the 1880s, some of the more affluent visitors decided to build their own cottages. From 1885 to 1905, *Scientific American Building Monthly* published floor plans, photographs, and descriptions of hun-dreds of homes, to inspire architects, builders, and clients. Fifty of those featured homes were in Maine, and historian Earle Shettleworth and architect Christopher Glass have tracked them down to share them with a contemporary audience.

As the owner of one of the world's most elaborate sea glass collections, Mary Beth Beuke gets to talk about these prized ocean gems on a daily basis. Unfortunately, with each passing day, sea glass becomes more and more difficult to find, making the hunt more of a challenge to the seeker—especially one with limited experience in sea glass hunting. There are several reasons why the hunt is so important to the sea glass seeker. Some find their Zen moments in the solitude and beauty of the hunt. Some collect to add color to their life. The history, mystery, and discovery of sea glass are also strong forces that draw collectors to shorelines around the world, looking for these pieces of physically and chemically weathered frosted glass. Whatever your reason for wanting to learn about and start your own collection of sea glass, the window for doing so is closing as pieces are becoming more elusive due to a growth in sea glass popularity and a decrease in recent glass bottle production. In *The Ultimate Guide to Sea Glass*, Beuke provides information that will help first-time seekers start new collections and veteran hunters learn more about their current sets. Beuke shares her experiences in gathering her own collection via photographs of vibrant and rare pieces, as well.

Chained up in the hold of a French warship, Lusignan’s only hope of escape rests with his captor - Captain Paul. A man with a mysterious past, Captain Paul is transporting Lusignan to exile in the West Indies. Little does he know that his mission is a sham. His prisoner is an innocent man, framed because he fell in love with a Count's daughter. Once the truth is revealed, Paul and Lusignan return to France,

determined to seek justice. Inspired by the real life of American Revolutionary War hero John Paul Jones, "Captain Paul" is a rollicking melodrama, packed with action and romance. A fine precursor to Dumas' later classics, it's especially recommended for fans of naval adventures, like C.S. Forester's "Hornblower" series. Alexandre Dumas (1802 - 1870) was a hugely popular 19th Century French writer. Born of mixed French and Haitian heritage, Dumas first rose to prominence in Paris as a playwright, but later gained international fame with his historical fiction. Often co-authored with other writers, these stories wove together swashbuckling adventure, romance, and real events from France's past. Among the best known are "The Three Musketeers", and its sequels "Twenty Years After", and "Le Vicomte de Bragelonne: Ten Years Later". Set across four decades, this trilogy follows the rise of the dashing D'Artagnan—from hot-headed soldier to trusted captain under Louis XIV. Dumas' other novels include "The Count of Monte Cristo" and "The Black Tulip". His works have been adapted into more than 200 movies, including The Man in the Iron Mask starring Leonardo DiCaprio.

This classic reprint was originally produced by Arthur M. Plato, being one of his, Dime Pocket Publications. It was created during the time of the Pan-American Exposition, the World's Fair held in Buffalo, New York. It's an excellent encyclopedic piece of Americana, and was packed with curious information on several subjects, for many of the theatre goers who were filling time, awaiting the start of the play.

'An ode to the ocean, and the generations of women drawn to the waves or left waiting on the shore' Guardian In Salt On Your Tongue, Charlotte Runcie explores what the sea means to us, and particularly what it has meant to women through the ages. In mesmerising prose, she explores how the sea has inspired, fascinated and terrified us, and how she herself fell in love with the deep blue. This book is a walk on the beach with Turner, with Shakespeare, with the Romantic Poets and shanty-singers. It's an ode to our oceans – to the sailors who brave their treacherous waters, to the women who lost their loved ones to the waves, to the creatures that dwell in their depths, to beachcombers, swimmers, seabirds and mermaids. Navigating through ancient Greek myths, poetry, shipwrecks and Scottish folktales, Salt On Your Tongue is about how the wild untameable waves can help us understand what it means to be human.
