A spy on the run ... Treva MacDougall is running for her life. Not just hers, but those of her clansmen. Fleeing the hangman's noose, she must reach her rebel cousin in Scotland in time to warn him of an ambush by the Crown. Finagling her way aboard a pirate ship running contraband wasn't difficult, but ignoring the intense temptation she feels toward the ship's captain is verra difficult. She can't allow herself to have feelings for any man, but maybe just one night of sinful pleasure... A pirate caught in the middle Coire Fletcher doesn't trust women. None of them, but especially the dark haired, moss-eyed lass whose pretty lies got her onto his ship and her sharp wit and undying spirit is getting under his skin. He knows she's lying--after all, she is a female--but by damned his growing attraction to her is as troubling as a Caribbean hurricane. He won't be fooled again by a woman, not even one he can't stop thinking about. He'll deliver his smuggled goods and Treva at the next port, then sail away. Or so he thinks... Chased by the British Navy and vengeful enemy pirates alike, Coire and Treva must leave past injustices behind and learn to trust each other...or neither may see another sunrise.

This publication addresses the vulnerability of radioactive material during transport. Given the international concern over acts of nuclear terrorism, it is imperative to have a well defined plan for the security of sensitive materials during their transport. The present publication provides guidance on implementing, maintaining or enhancing a State's nuclear security regime to protect radioactive material in transport against theft, sabotage or other malicious acts. It will be of use to regulators and to operating personnel engaged in the transport of such material.

A biography of the All-Star guard and member of the United States basketball team that won a gold medal at the 1996 summer Olympics.

A collection of new and selected poems by American poet Judy Grahn, written between 1966 and 2006.

Here, in one volume, are two remarkable novels by the chief spokesman of the so-called "new novel" which has caused such discussion and aroused such controversy. "Jealousy," said the New York Times Book Review "is a technical masterpiece, impeccably contrived." "It is an exhilarating challenge," said the San Francisco Chronicle. The Times Literary Supplement of London called Robbe-Grillet an "incomparable artist" and the Guardian termed Jealousy "an extraordinary book." In his native France, leading critic Maurice Nadeau wrote in France-Observateur that "In the Labyrinth is better than an excellent novel: it is a great work of literature," and fellow novelist and critic Claude Roy

judged the same work Robbe-Grillet's "best book," while here in America the "Parade of Books" column called In the Labyrinth "a highly emotional experience for the reader" and went on to predict: "Robbe-Grillet will take his place in world literature as a successor of Balzac and Proust." This volume, which offers incisive essays on Robbe-Grillet by Professor Bruce Morrissette of the University of Chicago and by French critics Roland Barthes and Anne Minor, also contains a helpful bibliography of writings by and about the author.

Argues that failures in structural engineering are not necessarily due to the physical design of the structures, but instead a misunderstanding of how cultural and socioeconomic constraints would affect the structures.

A rival wolf pack puts more pressure on the Rusakova family by making a bold move against Jessie in hopes of pushing Pietr beyond the cure. Realizing the impact of Pietr's change, Alexi rushes to find a permanent solution to the life sentence lycanthropy brings in hopes of also remedying an unexpected side-effect that may finally destroy the relationship between Pietr and Jessie. Unsatisfied with his role in the pack, Gabriel is determined to be rid of Pietr permanently. Meanwhile, at Junction High, the company's meddling with the school food may have stopped but it doesn't mean things have gotten easier--it is still high school. With the enrollment of the rest of the pack's pups, new bonds are made and tested. But Dmitri's influence is far-reaching and even pacifist Gareth must make a dark decision or risk the destruction of everything he holds dear.

Making Sense of Your World offers a basic, accessible introduction to biblical worldview that covers all of these aspects of world-view thinking. Part One compares the basic worldviews, Part Two contrasts (and seeks to defend) the biblical worldview with the others, and Part Three constructs a biblical worldview in four key areas. This book is an overview; the Christian thinker is invited to continue his or her study through the recommended readings at the end of each chapter--an ongoing task Paul labels the 'renewing' of our minds (Romans 12:2).

This paper reviews economic developments in Georgia during 1990–96. Following the implementation of tight financial policies and the liberalization of prices, trade, and the exchange system, growth resumed in 1995 and accelerated in 1996, against the background of a stable exchange rate and declining inflation. At the same time structural reform continued to advance, laying the ground for increased private sector activity and sustained growth in the medium term. Following the introduction of the lari in October 1995, a gradual remonetization of the economy took place, and gross

international reserves were replenished.

As diverse as people appear to be, all of our genes and brains are nearly identical. In *Me, Myself, and Why*, Jennifer Ouellette dives into the miniscule ranges of variation to understand just what sets us apart. She draws on cutting-edge research in genetics, neuroscience, and psychology-enlivened as always with her signature sense of humor-to explore the mysteries of human identity and behavior. Readers follow her own surprising journey of self-discovery as she has her genome sequenced, her brain mapped, her personality typed, and even samples a popular hallucinogen. Bringing together everything from Mendel's famous pea plant experiments and mutations in *The X-Men* to our taste for cilantro and our relationships with virtual avatars, Ouellette takes us on an endlessly thrilling and illuminating trip into the science of ourselves

Ayden: I may want to keep running from my nightmares, but I no longer have a choice. My past is catching up with me and fast. I rely on one person to keep me from crumbling—my best friend, Lyric Scott. She's what keeps me together. But I worry I'll end up ruining her life. Lyric: I feel helpless watching my best friend's world get turned upside down. But I do my best to remain positive and upbeat. My band gets their very first gig, and even with everything going on, my relationship with Ayden starts to heat up. But when danger enters his life again, I'm not sure if I'll be able to help him.
