She is the daughter of a Japanese Samurai, swept forward 300 years by an unexplained wormhole. He is a maverick scientist, determined to solve the riddle of her journey through time. Together they must prevent a catastrophe that threatens to destroy everything that ever was or ever will be. Tokyo-based physicist Peter Walker attempts to prove himself and his radical theories correct by detecting wormholes he predicts will be created by the Large Hadron Collider at CERN in Geneva. But instead of making an incredible scientific breakthrough he discovers Nene, a Kimono-clad Japanese woman trapped in a deep, dark mountain cave, weakened from thirst and hunger, and unable to recall how she came to be there. Recognizing that something, somewhere - and somewhen- has gone disastrously wrong, Peter is determined to unravel the mystery of her journey forward 300 years in time, yet finds himself entranced by Nene's beauty and struggles to maintain his objectivity - until an unstable wormhole interrupts their short time together. Realizing that only he can prevent the annihilation of everything that ever was or will be, Peter chases through past, present and future to once again rescue Nene and destroy the out-of-control wormhole generator before all is lost. *Causality Paradox: When the future becomes the past, the past becomes the future, and the present does not exist.* Creation and Controllability of Stable Einstein-Rosen Bridges. From the award-winning author of If Nobody Speaks of Remarkable Things. Reservoir 13 tells the story of many lives haunted by one family's loss.

Do you feel like you struggle to make time for everything? We are living in a time-poor society, working more than ever and with less time for ourselves and family. The pressures and stress of the obligations we feel we have, often leave us without time to do everything that we would like to. More critically, we lack the time to reflect, review our lives and consider our direction. Time to contemplate if the decisions we are making are going to lead us to a life of purpose or an old age filled with regret. Time for Anything is based on 5 years of research by Craig D Robinson.

Using the techniques in this book, Craig went from working in an entry level position to, in just four years: start 2 companies, recharge with 12 weeks holiday a year, start a family, grow and sell his startups and retire at the age of 34. This book shows you how you too can have time for it all.

This original account is based on the author's experiences with incarcerated girls participating in *Girl Time*, a program created by a theatre company that conducts playwriting and performance workshops in youth detention centers. In addition to examining the lives of these and other formerly incarcerated girls, *Girl Time* shares the stories of educators who dare to teach children who have been "thrown away" by their schools and society. The girls, primarily African American teens, write their own plays, learn ensemble-building techniques, explore societal themes, and engage in self analysis as they prepare for a final performance. The book describes some of the girls and their experiences in the

program, examines the implications of the school-to-prison pipeline, and offers ways for young girls to avoid incarceration. Readers will learn how the lived experiences of incarcerated girls can inform their teaching in public school classrooms and the teaching of literacy as a civil and human right. “Winn brings to mind theories of play and performance that rarely enter the professional preparation for teachers at the secondary level.” —Shirley Brice Heath, Stanford University “In the brilliant hands of Maisha T. Winn, *Girl Time* harvests seeds and stories about girls living in juvenile settings. . . . Penned in the ink of love, awe, despair, and dignity, the volume swings between documentary and possibility.” —From the Afterword by Michelle Fine, Graduate Center, CUNY
