The redesigned AP Art History Framework contains a challenging list of 250 required works of art. The units on Africa, West and Central Asia, South, East, and Southeast Asia, the Pacific, and Global Contemporary pose a particular problem. Existing textbooks and review books provide limited coverage that includes either short paragraphs or a list of bullet points. In addition, many AP Art History courses must rush to cover these works of art. Beyond the European Tradition with Global Contemporary is designed to provide concise, clear, and interesting narratives for each of the 84 works in Content Areas 6 - 10. Each narrative begins with a quarter page picture of the required image. The essay then describes the work's form, function, context, and content. In addition, each narrative concludes with a Making Connection feature linking the work to other required works. For example, the Making Connections feature for *Travelers among Mountains and Streams* compares Fan Kuan's use of shifting perspective with Bruegel's use of linear perspective in *Hunters in the Snow*. The volume concludes with 80 realistic multiple-choice practice questions testing key points about the works covered in this volume. A distinctive glossary provides concise definitions along with relevant examples from the required list of 250 works.

"Readers curious about the making of Renaissance art, its cast of characters and political intrigue, will find much to relish in these pages." —Wall Street Journal

Giorgio Vasari (1511–1574) was a man of many talents—a sculptor, painter, architect, writer, and scholar—but he is best known for *Lives of the Artists*, which singlehandedly established the canon of Italian Renaissance art. Before Vasari's extraordinary book, art was considered a technical skill, and artists were mere decorators and craftsmen. It was through Vasari's visionary writings that Raphael, Leonardo, and Michelangelo came to be regarded as great masters of life as well as art, their creative genius celebrated as a divine gift. Lauded by Sarah Bakewell as "insightful, gripping, and thoroughly enjoyable," *The Collector of Lives* reveals how one Renaissance scholar completely redefined how we look at art.

Charles Dew's *Apostles of Disunion* has established itself as a modern classic and an indispensable account of the Southern states' secession from the Union. Addressing topics still hotly debated among historians and the public at large more than a century and a half after the Civil War, the book offers a compelling and clearly substantiated argument that slavery and race were at the heart of our great national crisis. The fifteen years since the original publication of *Apostles of Disunion* have seen an intensification of debates surrounding the Confederate flag and Civil War monuments. In a powerful new afterword to this anniversary edition, Dew situates the book in relation to these recent controversies and factors in the role of vast financial interests tied to the internal slave trade in pushing Virginia and other upper South states toward secession and war.

When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. "You know something!" I would say if it could hear me. "Now tell it to us in language we can understand!" Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, *From Dissertation to Book* reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add "author" to their curriculum vitae.

'A stimulating, elegant yet pugnacious essay'—Observer In this highly acclaimed seminal work, Edward Said surveys the history and nature of Western attitudes towards the East, considering Orientalism as a powerful European ideological creation—a way for writers, philosophers and colonial administrators to deal with the 'otherness' of Eastern culture, customs and beliefs. He traces this view through the writings of Homer, Nerval and Flaubert, Disraeli and Kipling, whose imaginative depictions have greatly contributed to the West's romantic and exotic picture of the Orient. In the Afterword, Said examines the effect of continuing Western imperialism.

Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.
