Double-entry accounting can be easy if it's explained well, and Mastering Book-keeping does just that. Now in its updated 8th edition, this popular book has helped thousands of people to get to grips with book-keeping. It explains the principles and practice of book-keeping sequentially, and includes: - The daybooks and ledger accounts - End of year accounting - Sole proprietorships, limited companies, partnerships and not-for-profit organisations - Using computers for accounting - Accounting for VAT - Progressing to more advanced management accounting - The implications of the Data Protection Act 1998 on book-keepers Plus step-by-step guides to compiling a balance sheet, depreciation, accounting for bad and doubtful debts, and much more. Everything is made clear with easy-to-follow explanations. Typical transactions are illustrated throughout to make the information even easier to understand. This book is suitable for those preparing for the examinations of ICB, AAT, IAB, OCR, AQA and all other courses in book-keeping and accounts.

Reflecting the changes to the AQA AS Accounting specification, this revised second edition includes updated assessment practice questions and IAS terminology throughout to help your students prepare accurately for the exam. Learning Objectives, clearly referenced to the related statements in the AQA specification, let students know exactly what they will need to learn and understand in that topic. Worked Examples show layouts and step-by-step guides for accounting procedures. Study tips provide essential advice on common errors and exam preparation. Summary questions promote independent learning and develop students' exam techniques.

This popular introduction to accounting has been updated to reflect the new AQA and OCR specifications. It tackles this complex and sometimes confusing subject in a straightforward manner, using simple, uncomplicated language throughout. Each chapter consists of clear, useful guidance on the topic, interspersed with numerous exercises, ensuring that users gain practice as they go along and build their confidence in dealing with accounts. Worked examples are provided throughout each chapter so that students can check their technique as they work through exercises. - Written in extremely clear and straightforward language - Author Ian Harrison is Chief Examiner for a major examination board - Filled with exercises to boost confidence in dealing with accounts - Full colour and uncluttered layout - Chapter summaries highlight key points to aid revision - Examination tips are given as chapters progress

FRANK WOOD'S A-level Accounting: GCE Year 2 Alan Sangster This third edition of Frank Wood's A-level Accounting has been completely restructured to take account of the recent changes to the A-level syllabus and of developments in the field. The book builds on a first course in accounting, covering the second level of the A-level syllabus, and includes coverage of the more advanced aspects of company accounting, and the basics of management accounting. As well as providing instruction and practice in the preparation of accounting information, the text stresses the need for students to understand the business reasons behind accounting techniques. A continuing strength of the book is the large amount of question material. Recent past questions from the main examining bodies are included as well as a useful guide to examination techniques at A-level. Key features
*Comprehensive, detailed and thorough coverage of accounting.
*Numerous worked examples, review questions and answers.
*Contains past questions from the GCE boards.
*Answers to approximately half of the review questions are provided at the end of the book.
*Answers to the remaining questions are provided in the free Solutions Ma
