The personal development group is a feature of many counselling and psychotherapy trainings. How does it facilitate personal development? Could it be more effective? Looking from the perspective of the student, this book offers an insight into the workings of the group and the communications that take place within it. The complex relationship between group and individual is explored in the wider context of culture and society. Through examples and exercises, readers can learn about themselves as they learn about the group processes that they are experiencing. Chris Rose charts the course of a PD group through various stages, dealing with fundamental themes such as conflict, authority, resistance and difference. The task is always to keep in focus both the individual experience and the group process. This dual perspective provides group members with important resources to understand and make better use of their own PD group. The elusive task of personal development is vital to the formation of competent counsellors and psychotherapists. Any course that has a PD group will benefit from the understandings that the book can offer, irrespective of theoretical model. This book encourages students to engage with their own

development in a pro-active and informed manner. It invites them to challenge attitudes and assumptions in a thoughtful self-reflexive style. This book also provides an introduction to group work that will be valuable for those who are no longer students but are curious about what happens in groups. Whatever the stage of development, there is material to engage and stimulate the reader.

Good counseling skills are the key to effective helping relationships. *Introduction to Counseling Skills, Second Edition* is designed to help readers acquire and develop these skills, using an easy, three-stage model. Drawing on many years experience as a counselor, trainer and writer, Richard Nelson-Jones describes in detail each stage in the helping process and gives examples to show how the skills work in practice. The examples also demonstrate the variety of contexts in which counseling skills are commonly used, as well as the diversity of issues and problems they can help to address. The book covers: what counselling skills are; how to conduct sessions; ways to clarify and expand your understanding; how to improve your listening skills; and ethical skills.

"For anyone in a caring, facilitative or managing role, *Counselling Skills* provides a uniquely comprehensive, accessible and practical guide to interpersonal helping. It introduces a way of working that is both focused and personalised: tailored to an

The Helping Relationship is a book for learning and teaching basic philosophy, helping skills, and processes that are essential grounding for most professions and for all human-contact occupations. The Helping Relationship presents and illustrates skills in the order in which they are used in the helping process. The primary emphasis in the helping process is to promote self-help, such as coping competence, to solve one's own problems and draw on one's own inner strengths. For social workers, counselors, business managers, nurses and anyone involved in the helping professions.

Are your students looking to use counselling skills to enhance their existing helping role? Are they taking the first steps towards becoming a professional counsellor? roles, showing what it means to work safely and ethically. Part 2: Counselling Studies will help them take their understanding further by considering in detail important theories and professional issues, preparing them to work as a professional counsellor. Part 3: Counselling Study Skills will offer practical advice and hints and tips to help them make the best start on their counselling portfolio, including journal and essay writing skills, research skills and how to get inspired and overcome blocks to learning. The new edition now includes a more detailed discussion of key theories, has a new chapter on self care, and is fully up to date with the occupational and professional standards and ethical frameworks. Packed full of practical activities and written in a supportive conversational style, this book is essential reading for anyone wanting to learn counselling skills or embarking on their first stage of training to be a counsellor.

The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants (SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. The MNH Counselling Handbook is chiefly designed to be used by groups of SAs with the help of a facilitator. It can also be used by individual SAs who can get together with colleagues

for discussions and activities where needed. It relies on a self-directed learning approach, allowing SAs to work at their own pace, drawing on their past counselling experience. The way it is used will be determined by each country's context, and the SAs preference. The MNH Counselling Handbook is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined. Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labour; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure the local relevance of information. There is a

The skilled helper model of counselling is hugely influential in the helping professions. Egan's Skilled Helper Model brings a number of new and challenging perspectives to bear on Egan's work and makes a major contribution to the development of this problem-management and opportunity-development approach to helping. Val Wosket draws on over twenty years experience of counselling, training and supervising to provide a clear exposition of the model and situate it in contemporary counselling practice. Numerous case studies are provided throughout, along with contributions from experienced practitioners, illustrating how the model can be applied in a variety of clinical settings and with a range of counselling issues. Egan's Skilled Helper Model builds on and extends the aims of Egan's original work, covering key topics, including:

- Developing a client-responsive approach that places the therapeutic relationship at the heart of the model
- Applying the skilled helper model in research, training and supervision
- Translating the model into more accessible and adaptable language

This book provides an invaluable resource for trainees, trainers, supervisors and experienced practitioners wishing to update their knowledge of the model. It will also be of great interest to anyone in the helping

underpin good social work practice. Questions and activities for self development are linked to the practices discussed. This new edition of *Counselling Skills in Social Work Practice* has been thoroughly revised to reflect the National Occupational Standards for social work which identify the importance of communication skills and a developmental understanding of people in their social contexts. The chapters are linked to the six key roles for social work practice. This book builds on the strengths of the first edition, as well as addressing the challenges of practice in relevant legislative and policy contexts. The book includes:

- Evidence of how the competencies which underpin counselling practice are directly transferable to effective social work practice
- Practical advice on communication skills
- Examples of how to build effective working relationships; a whole chapter is now devoted to the specific skills required for working within inter-agency and multi-disciplinary teams

This book is key reading on the subject of ethical and effective social work for those teaching, studying or practising in the field.

'Toad', the famous character in Kenneth Grahame's *The Wind in the Willows* is in a very depressed state and his good friends Rat, Mole and Badger, are 'worried that he might do something silly'... First they nursed him. Then they encouraged him. Then they told him to pull himself together... Finally, Badger

could stand it no longer. That admirable animal, though long on exhortation, was short on patience. 'Now look here Toad, this can go on no longer', he said sternly. 'There is only one thing left. You must have counselling!' Robert de Board's engaging account of Toad's experience of counselling will capture the imagination of the growing readership of people who are interested in counselling and the counselling process. Written as a real continuation of life on the River Bank, Toad and his friends come to life all over again. Heron, the counsellor, uses the language and ideas of transactional analysis as his counselling method. Through the dialogues which make up the ten sessions, or chapters of the book, Toad learns how to analyse his own feelings and develop his emotional intelligence. He meets his 'rebellious child' and his 'adult' along the way, and by the end of the book, as debonair as ever he was, is setting out on a completely new adventure. As readers learn about Toad, so they can learn about themselves and be encouraged to take the path of psychological growth and development. Best-selling author, Robert de Board says: 'Toad's experiences are based on my own experiences of counselling people over a period of twenty years. Counselling for Toads is really an amalgamation of the many counselling sessions I have held and contains a distillation of the truths I have learnt from practice.'

the first time, whether as a student or as a client, or for the professional counsellor looking for something to recommend to the hesitant, *Counselling for Toads* will appeal to both children and adults of all ages. *Embedding Counselling and Communication Skills* provides step-by-step learning for those looking to gain theoretical and practical understanding of using counselling and communication skills within the helper role and explores how to apply these skills in the context of professional practice. Becky Midwinter and Janie Dickson introduce the reader to a new Relational Skills model which demonstrates the phases of relationship development. The authors show what happens within each phase and identify how and when to use skills appropriately. Learning is brought alive through the use of online unscripted video clip sessions of a real helper/client relationship giving the reader opportunities and encouragement to reflect and evaluate their learning. Written in a clear and accessible teaching style, *Embedding Counselling and Communication Skills* progresses through the 'initial helper' communication skills that are used in every day life, to the more complex and in-depth counselling skills required in a helper relationship. Knowledge of reflective practice, aspects of the relationship and how to manage change ensures the text considers the full range of general and specific skills and abilities required in a helper role situation, whilst the supporting online

Over the past 30 years, Egan's THE SKILLED HELPER has taught thousands of students like you a proven, step-by-step counseling process that leads to increased confidence and competence.

Internationally recognized for its successful problem-management and opportunity development approach to effective helping, the text emphasizes the collaborative nature of the therapist-client relationship and uses a practical, three-stage model that drives client problem-managing and opportunity-developing action. As you read, you'll also gain a feeling for the complexity inherent in any helping relationship. In this tenth edition, Egan now makes use of his version of the "common factors" approach, which gives new meaning and vitality to the book's themes, as well as to the use of the problem-management model to organize and give coherence to those themes. This practical and comprehensive guide is written for counsellor trainers and their trainees, as well as for counsellors already in practice wanting to familiarize themselves with the person-centred approach to counselling. Dave Mearns and Brian Thorne explain the theoretical principles of the person-centred approach by relating these principles to actual practice. Drawing on one particular case-study the two counsellors present an extensive exploration of the core conditions of empathy, acceptance and congruence, and provide a step-by-step account of both the counsellor's and the client's experience of being involved in a trusting, caring relationship characterised by power-sharing and mutuality.

The Therapeutic Use of Self is a ground-breaking examination of the individual therapist's contribution to process and outcome in counselling. Using many powerful case examples and extensive research findings from the author's own work, this book presents the counsellor's evaluation of their own practice as the main vehicle for the development of insight and awareness in to individual 'therapeutic' characteristics. It addresses many of the taboos and infrequently discussed aspects of therapy, such as: \* the value of therapist failure \* breaking the rules of counselling \* working beyond the accepted boundaries of counselling. The Therapeutic Use of Self, will act as a spur to individual counsellors to acknowledge, develop and value their own unique

contribution to the counselling profession.

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.
