

Blood Of The Daleks Doctor Who

No summer can ever quite be as glorious as the ones you remember from when you were young, when a sunny afternoon seemed to last forever and all there was to do was ride your bike, eat ice-lollies and play with Lego. Tom Braudy is enjoying just such an afternoon when the TARDIS lands in his Nan's living room and interrupts her in the middle of the snooker.

People of Red Rocket Rising, my fellow citizens. Our long night is over. I've been contacted by a benevolent people. They too have known great trials, but they have overcome them and made it their mission to help others do the same. They have offered us refuge, and passage to the nearest human worlds. They have the resources, and the patience and compassion, to evacuate every one of us. My fellow citizens, my friends, rescue is at hand!

The Doctor, Romana, and K-9 are hoping for a holiday in London in the sweltering summer of 1930. But the TARDIS is warning of time pollution. And that's not the only problem. What connects the isolated Sussex resort of Nutchurch with the secret society run by the eccentric Percy Closed? Why has millionaire Hepworth Stackhouse dismissed his staff and hired assassin Julia Orlostro? And what is the truth behind the infernal vapour known only as Zodaal? With the heat building, the Doctor and his friends set out to solve the mysteries. An adventure set in 1930s London, featuring the Fourth Doctor as played by Tom Baker and his companions Romana and K-9.

London, 1851. Scene of the Great Exhibition of the Works of Industry of All Nations. Scene also of a plot to un-seat the government, de-throne the monarch and start a republic.

Hurrah! The deadly Daleks are back! Yes, those loveable tinpot tyrants have another plan to invade our world. Maybe this time because they want to drill to the Earth's core. Or maybe because they just feel like it. And when those pesky pepperpots are in town, there is one thing you can be sure of. There will be non-stop high octane mayhem in store. And plenty of exterminations! But never fear. The Doctor is on hand to sort them out. Defender of the Earth, saviour of us all. With his beautiful assistant, Evelyn Smythe, by his side, he will fight once again to uphold the beliefs of the English Empire. All hail the glorious English Empire! Beware the hands that heal. The Doctor and Peri land on the planet Necros to visit the funerary home Tranquil Repose – where the dead are interred and the near-dead placed in suspended animation until such time as their conditions can be cured. But the Great Healer of Tranquil Repose is far from benign. Under his command, Daleks guard the catacombs where sickening experiments are conducted on human bodies. The new life he offers the dying comes at a terrible cost – and the Doctor and Peri are being lured into a trap that will change them forever. At last, the only classic-era Doctor Who adventure never to be novelised is here, and by the author of the original script, Eric Saward.

After a last, futile fight-back against the Daleks, Lucie, Susan and Alex are

heading home to England in the desperate hope of saving the Doctor's life. But the true, terrible nature of the Daleks' plan is beginning to emerge and the Monk has blood on his hands. To defeat the Daleks, it can only be a struggle, to the death.

In a twist of fate, the Tenth Doctor and the Thirteenth Doctor were brought together to face off against their deadly enemies. Unfortunately, the universe doesn't quite like the idea of a Time Lord meeting up with their past or future self – the consequences of such a paradox could cause a reality-altering shift that destroys the entire universe! Lucky for them it all worked out, until the Tenth Doctor was pulled into an impossible Time Vortex...

Self-exiled to a new universe, separated from his TARDIS, opposed and manipulated by the Divergence and their agent the Kro'ka, the Doctor has been struggling to work out the nature of the cosmic game in which he's an unwilling pawn. Now, at last, he has a chance to find the answer and regain the TARDIS!

Produced by arrangement with BBC television, this first-ever series of original Doctor Who novels will continue where the 1989 TV series left off.

"In the days when the Time Lords were young, their war with the Vampires cost trillions of lives on countless worlds. Now the Vampires have been sighted again, in San Francisco. Some want to coexist with humans, using genetic engineering in a macabre experiment to find a new source of blood. But some would rather go out in a blaze of glory -- and UNIT's attempts to contain them could provoke another devastating war. The Doctor strikes a dangerous bargain, but even he might not be able to keep the city from getting caught in the crossfire. While he finds himself caught in a web of old feuds and high-tech schemes, his new companion Sam finds out just how deadly travelling with the Doctor can be."--Page 4 of cover.

There were two friends, and together they travelled the cosmos. They thwarted tyrants and defeated monsters, they righted wrongs wherever they went. They explored the distant future and the distant past, new worlds and galaxies, places beyond imagining. But every good story has to come to an end ...

YA. Featuring the eighth Dr Who on an island in the East Indies in a lost city. 11 yrs+ We live forever, barring accidents. Just like everyone else in the universe. The Doctor travels back to the Ancient Days, an era where life flourishes and death is barely known... Then come the Kotturuh – creatures who spread through the cosmos dispensing mortality. They judge each and every species and decree its allotted time to live. For the first time, living things know the fear of ending. And they will go to any lengths to escape this grim new spectre, death. The Doctor is an old hand at cheating death. Now, at last, he can stop it at source. He is coming for the Kotturuh, ready to change everything so that Life wins from the start. Not just the last of the Time Lords. The Time Lord Victorious.

Recuperating after the trauma of his recent regeneration, the Doctor falls foul of a final booby-trap set by his arch-enemy, the Master. When he recovers, the disoriented Doctor looks in a mirror and sees the face of a stranger. He knows only that he is called "the Doctor" -- nothing more. But something deep inside tells him to trust the TARDIS, and his hands move over the controls of their own accord. The TARDIS takes him to a strangely familiar junkyard in late-nineties London, where he is flung into a

confrontation between local drug-dealers and Samantha Jones, a rebellious teenage from Coal Hill School. But the Doctor soon finds the TARDIS transporting him to various other places in order to recover all of his memories -- and that involves seeing seven strangely-familiar faces."--Page 4 of cover.

'One of the oddities of Doctor Who is that you hear so much about what the fans think, and so little from the other 100 percent of the audience (my stats are clinically accurate.) So thank God for a couple who put their love on the line to set the record straight. This is the story of a fan boy who inflicts every episode ever made of Doctor Who on his marriage. Or to put it another way, this is the story of someone with a proper love and understanding of Doctor Who, trying to explain it to her husband.' Steven Moffat Neil loves Sue. He also loves Doctor Who. But can he bring his two great loves together? In January 2011, Neil Perryman set out on an insane quest to make his wife Sue watch every episode of the classic series of Doctor Who from the very beginning. Even the ones that didn't exist any more. And so, over the next two and half years, Sue gamely watched them all. From William Hartnell and Tom Baker to Peter Davison and Paul McGann, the result was a wildly successful and hilariously revealing blog called Adventures with the Wife in Space. But the adventure continues. Here Neil Perryman tells the all too true story of Doctor Who fandom. Funny, honest and surprisingly brave, he also captures perfectly the joys - and fears - of sharing the thing you love with the people you love. Adventures With the Wife in Space is, at its heart, the story of Doctor Who, and its fans, seen through the eyes of two people - one who knows almost nothing about the programme and another who knows way too much. 'This is a very, very funny book; touching too.' Jenny Colgan

In the far future, the Doctor, Rose and Captain Jack find a world on which fiction has been outlawed. A world where it's a crime to tell stories, a crime to lie, a crime to hope, and a crime to dream. But now somebody is challenging the status quo. A pirate TV station urges people to fight back. And the Doctor wants to help until he sees how easily dreams can turn into nightmares. With one of his companions stalked by shadows and the other committed to an asylum, the Doctor is forced to admit that fiction can be dangerous after all. Though perhaps it is not as deadly as the truth. Featuring the Ninth Doctor as played by Christopher Eccleston, together with Rose and Captain Jack as played by Billie Piper and John Barrowman in the hit Doctor Who series from BBC Television.

Hulton College in Norfolk is a school dedicated to producing military officers. With the First World War about to start, the boys of the school will soon be on the front line. But no one expects a war – not even Dr John Smith, the college's new house master... The Doctor's friend Benny is enjoying her holiday in the same town. But then she meets a future version of the Doctor, and things start to get dangerous very quickly. With the Doctor she knows gone, and only a suffragette and an elderly rake for company, can Benny fight off a vicious alien attack? And will Dr Smith be able to save the day? An adventure set in Britain on the eve of the First World War, featuring the Seventh Doctor as played by Sylvester McCoy and his companion Bernice Summerfield. This book was the basis for the Tenth Doctor television story Human Nature / The Family of Blood starring David Tennant.

Can the most evil things in the universe be a force for good? Sunlight 349 is one of countless Dalek Foundation worlds, planets created to house billions suffering from

economic hardship. The Doctor arrives at Sunlight 349, suspicious of any world where the Daleks are apparently a force for good – and determined to find out the truth. The Doctor knows they have a far more sinister plan – but how can he convince those who have lived under the benevolence of the Daleks for a generation? But convince them he must, and soon. For on another Foundation planet, archaeologists have unearthed the most dangerous technology in the universe...

This is the last of a two-part story, the first part being Sisters of the Flame. The Doctor and Lucie investigate the leader of the Cult of Morbius, who is laying siege to Gallifrey. The Doctor and Lucie protest as the Sisters force them over to the dispersal chamber. The Doctor insists that because he'd done everything they'd asked of him, the very least they owe him is an explanation. Orthena accepts this and reveals that Zarodnix is the leader of the Cult of Morbius. Lucie confirms that she'd heard this too and the Doctor is surprised to learn that she was briefed by Straxus - but they're both still confused as the Doctor has no idea who Zarodnix is and Lucie doesn't know who Morbius is! Even when the Doctor explains that Morbius was a Time Lord dictator who wanted to take over the Universe, Lucie still can't see what the problem is if he's already dead, but when the Doctor learns that Zarodnix is a rich intergalactic businessman who lives on Karn, the pieces start to fall into place. Haspira believes the Doctor is...

Have you ever even seen a Dalek? Ever fought one? Have you any idea what they are really like? I've been on the front line. I've seen whole planets destroyed. The only good Dalek is a dead Dalek.

Featuring the first Doctor Who and Steven, this novel is set in New York in 1965. It is a

time of conflict between ideologies, races, generations and genders, when crime runs rife and an unpopular war drags on in a distant land. In the midst of this turmoil, people cry out to their gods.

The Doctor and Lucie go glam when the TARDIS makes an unexpected landing in 1974. Slade, The Sweet and Suzi Quatro are Top of the Pops and brother-and-sister duo The Tomorrow Twins will soon be joining them, if starmaking Svengali Arnold Korns has his way. But will their dreams turn to dust at a service station somewhere on the M62, besieged by a pack of alien monsters?

The official miscellany, celebrating 50 years of "Doctor Who," a cult favorite around the world and the longest-running science fiction television show of all time.

The last book about the Daleks came out in 1998. Simon Clark's tale is a genuinely frightening journey and a dark exploration of horrors that would disturb the Daleks themselves. The Daleks in this story are menacing and completely unlike any before them.

"The death of billions is as nothing to us Doctor, if it helps defeat the Daleks." The Great Time War has raged for centuries, ravaging the universe. Scores of human colony planets are now overrun by Dalek occupation forces. A weary, angry Doctor leads a flotilla of Battle TARDISes against the Dalek stronghold but in the midst of the carnage, the Doctor's TARDIS crashes to a planet below: Moldox. As the Doctor is trapped in an apocalyptic landscape, Dalek patrols roam amongst the wreckage, rounding up the remaining civilians. But why haven't the Daleks simply killed the humans? Searching for answers the Doctor meets 'Cinder', a young Dalek hunter. Their struggles to discover the Dalek plan take them from the ruins of Moldox to the halls of Gallifrey, and set in motion a chain of events that will change everything. And everyone. An epic novel of the Great Time War featuring the War Doctor as played by John Hurt.

"The Doctor is repairing the TARDIS systems once again when it is swept up by a garbage ship roving through space, the Quetzal. When another ship approaches and takes the Quetzal by force, the Doctor discovers that he and Sam are not the only unwitting travelers on board -- there is a strangely familiar survival pod in the hold. Delani, the captain of the second ship, orders the pod to be opened. The Doctor is powerless to intervene as Davros is awakened once again. But this is no out-and-out rescue of Davros. Delani and his crew are Thals, the sworn enemies of the Daleks. They intend to use Davros as a means to wipe out the Daleks, finally ridding the universe of the most aggressive, deadly race ever to exist. But the Doctor is still worried. For there is a signal beacon inside the pod, and even now a Dalek ship is closing in."--Page 4 of cover.

His species became extinct decades before the aliens rescued and cloned him, but he still must do everything he can to save them all. Karm must travel back in time, create the most powerful financial empire ever seen on the planet Dyan'ta and assemble a team of experts who must be kept in the dark about his plans for fear of upsetting the timeline. Dr. Jontar Rocker is an up and coming geneticist whose untested and controversial theories on cloning become the lynch pin in Karm's schemes. Maripa, Karm's petite and beautiful surrogate niece, personal secretary, and deadly bodyguard must learn to trust Karm despite his deceptions and secrets. Can the emerging love between Dr. Rocker and Maripa survive the demons and surprises of their own past, as well as Karm's impenetrable air of mystery? Karm and his companions must save the Brin. To do so, they must band together to overcome Brach, the ambitious and obsessed monarch. Determined to take control of Karm's vast industrial empire, Brach joins forces with his conniving brother Pareth, leader of The Faith an ultra-conservative religious order committed to stopping Dr. Rocker and his heretical efforts to develop cloning techniques. Nothing less than survival of their species is at stake.

Lucie Miller's been headhunted to join the staff of Hulbert Logistics, a respectable blue-chip firm in Telford. Great prospects, competitive salary - you don't have to be mad to work here! But wasn't she made for better things, like travelling by TARDIS through time and space? The Doctor, meanwhile, has been fired - into a confrontation with the most terrifying of enemies... The people of the Crooked World lead an idyllic existence. Take Streaky Bacon, for example. This jovial farmer wants nothing more from life than a huge blunderbuss, with which he can blast away at his crop-stealing nemesis. And then there's Angel Falls, a racing driver with a string of victories to her name. Sure, her trusted guardian might occasionally put on a mask and menace her for her prize money, but that's just life, right? And for Jasper the cat, nothing could be more pleasant than a nice, long nap in his kitchen -- so long as that darn mouse doesn't jam his tail into the plug socket again. But somebody is about to shatter all those lives. Somebody is about to change everything -- and it's possible that no one on the Crooked World will ever be happy again. The Doctor's TARDIS is about to arrive. And when it does... That's all folks!

All over the world, people are venting their fury at one another on social media. Dropping their friends, giving vent to their hatred, and everywhere behaving with incredible cruelty. Even Donna has found that her friend Hettie, with her seemingly perfect life and fancy house, has unfriended her. And now, all over the world, internet trolls are dying... As more and more people give in to this wave of bitterness and aggression, it's clear this is no simple case of modern living. This is unkindness as a plague. From the streets of London to the web cafes of South Korea and the deepest darkest forests of Rio, can the Doctor and Donna find the cause of this unhappiness before it's too late? An original novel featuring the Tenth Doctor and Donna, as played by David Tennant and Catherine Tate. The crashed ship. The one Tom Cardwell saw all those years ago. And you borrowed its technology, didn't you? Maybe even found a Dalek or two in the wreckage. Dead, but intact. And you began to turn human beings into creatures like them. You did that? I'm right, aren't I?

Still unable to reach 1930, the TARDIS places the Doctor and Charley into an Edwardian household, in 1906. There they meet the servants of Edward Grove who seems to keep his workers in a constant state of bewilderment and terror. When the scullery maid is found murdered, it falls to the famous amateur sleuth known as the Doctor to solve the mysteries. The only trouble is, the household keep shifting into different moments in time. This story, akin in mood to the popular ITV series Sapphire and Steel, has been written by playwright Robert Shearman, who was responsible for the critically acclaimed The Holy Terror in 2000. This story takes place after the TV movie.
