'Before biography was fashionable, Antonia Fraser made the past popular' Guardian 'As a pure storyteller, Antonia Fraser has few equals' Sunday Times CAROLINE NORTON, a nineteenth-century heroine who wanted justice for women. Poet, pamphleteer and artist's muse, Caroline Norton dazzled nineteenth-century society with her vivacity and intelligence. After her marriage in 1828 to the MP George Norton, she continued to attract friends and admirers to her salon in Westminster, which included the young Disraeli. Most prominent among her admirers was the widowed Prime Minister, Lord Melbourne. Racked with jealousy, George Norton took the Prime Minister to court, suing him for damages on account of his 'Criminal Conversation' (adultery) with Caroline. A dramatic trial followed. Despite the unexpected and sensational result - acquittal - Norton legally denied Caroline access to her three children under seven. He also claimed her income as an author for himself, since the copyrights of a married woman belonged to her husband. Yet Caroline refused to despair. Beset by the personal cruelties perpetrated by her husband and a society whose rules were set against her, she chose to fight, not surrender. She channelled her energies in an area of much-needed reform: the rights of a married woman and specifically those of a mother. Over the next few years she campaigned tirelessly, achieving her first landmark victory with the Infant Custody Act of 1839. Provisions which are now taken for granted, such as the right of a mother to have access to her own children, owe much to Caroline, who was determined to secure justice for women at all levels of society from the privileged to the dispossessed. Award-winning historian Antonia Fraser brilliantly portrays a woman, at once courageous and compassionate, who refused to be curbed by the personal and political constraints of her time.

Behind the fashionable bars and clubs of Soho lies a fascinating history of criminal activity, featuring some of London's most notorious gangsters. From the razor gangs of the 1920s to the post-war gangleaders Billy Hill and Jack Spot; from the pre-war French pimps and the Messina brothers to the Albanian gangs, through to the thriving Soho of today, the area has been a Mecca for thieves, conmen, drug dealers, notorious pimps and crooked lawyers. James Morton vividly portrays the crimes and criminals that have given Soho its infamous reputation, including the vicious Kray-Richardson gang, a Second World War Jack the Ripper, the shooting in the streets of Soho of gangster Jack Spot and the gangland murder of boxer Freddie Mills. This book focuses on the law of commercial contracts as constructed by the U.S. and UK legal systems. Leading scholars from both sides of the Atlantic provide works of original scholarship focusing on current debates and trends from the two dominant common law systems. The chapters approach the subject areas from a variety of perspectives - doctrinal analysis, law and economic analysis, and social-legal studies, as well as other theoretical perspectives. The book covers the major themes that underlie the key debates relating to commercial contract law: role of consent; normative theories of contract law; contract design and good faith; implied terms and interpretation; policing contract behavior; misrepresentation, breach, and remedies; and the regional and international harmonization of contract law. Contributors provide insights on the many commonalities, but more interestingly, on the key divergences of the United States and United Kingdom's approaches to numerous areas of contract law. Such a comparative analysis provides a basis for future developments and improvements of commercial contract law in both countries, as well as other countries that are members of the common law systems. At the same time, insights gathered here should also be of interest to scholars and practitioners of the civil law tradition.

The story of Catholic Emancipation begins with the violent Anti-Catholic Gordon Riots in 1780, fuelled by the reduction in Penal Laws against the Roman Catholics harking back to the sixteenth century. Some fifty years later, the passing of the Emancipation Bill was hailed as a 'bloodless revolution'. Had the Irish Catholics been a 'millstone', as described by an English aristocrat, or were they the prime movers? While the English Catholic aristocracy and the Irish peasants and merchants approached the Catholic Question in very different ways, they manifestly shared the same objective. Antonia Fraser brings colour and humour to the vivid drama with its huge cast of characters: George III, who opposed Emancipation on the basis of the Coronation Oath; his son, the indulgent Prince of Wales, who was enamoured with the Catholic Maria Fitzherbert before the voluptuous Lady Conyngham; Wellington and the 'born Tory' Peel vying for leadership; 'roaring' Lord Winchilsea; the heroic Daniel O'Connell. Expertly written and deftly argued, *The King and Catholics* is also a distant mirror of our times, reflecting the political issues arising from religious intolerance.
