

Canterbury Tales Unit 1 Test Answers

Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

Simon Armitage's "compulsively readable, energetic, free-flowing, high-spirited version" (Edward Hirsch, *The New York Times*) of *Sir Gawain and the Green Knight* offers "a brilliantly well-tuned modern score for one of the finest surviving examples of Middle English poetry" (*Poetry Review*) that "recreates the original's gnarled, hypnotic muscle, its tableaux and landscapes, and its weird, unsettling drama" (Mark Ford, *the Financial Times*). This edition, revised by Armitage with advice from scholars Alfred David and James Simpson, also offers a new introduction by the translator.

Part Twelve In the list of scholarly problems it presents, *The Squire's Tale* ranks among the highest in *The Canterbury Tales*. Being incomplete and coming to a halt on a baffling note-was it in fact evolving into a tale of incest?-the tale has undergone the most remarkable shift in critic acceptance of any of Chaucer's works. This tale of oriental wonder, with its strong base in magic, excited the admiration of Chaucer's contemporaries and inspired Spenser's imitative speculation and Milton's famous desire that the old poet be summoned up to finish his task. It retained for the eighteenth and most of the nineteenth centuries its Gothic fascination, being ranked with the very best of Chaucer's work. In the second half of

the twentieth century, it has been seen from a number of provocative perspectives. Is it a parody of the long Eastern romance? Is it a satire on the values of an aristocracy whose time is past? Is it a rhetorical joke on Chaucer's part, extending the character of the young Squire into an earnest and somewhat naïve competition with his father, the Knight? The concerns of contemporary scholarship reveal as much about the critical temper of the time as about the work itself. On its own merits *The Squire's Tale* compels our attention as an example of Chaucer's wide-ranging and sometimes inscrutable genius. It provides us with an exotic literary type not otherwise represented in the *Tales*. It reverberates, in its discussion of 'gentillesse' with other such discussions in Chaucer's poetry; it demonstrates, in its use of the love-vision and the complaint, the experimental ways in which Chaucer handles the conventions of French poetry. Perhaps most fascinating is the range of Chaucer's mind revealed by the casual uses of the science of his time: its knowledge of meteorology, optics, glass and metal work, astrology, and astronomy. The tale offers yet one more example of Chaucer's genius at work, speaking to us in a voice that is at once suggestive, provocative, and mystifying as always.

Botswana village tales about subjects such as the breakdown of family life and the position of women in this society. This brisk retelling of *Le Morte D'Arthur* highlights the narrative drive, humor, and poignancy of Sir Thomas Malory's original while updating his fifteenth-century English and selectively pruning over-elaborate passages that can try the patience of modern readers. The result is an adaptation that readers can enjoy as a fresh approach to Malory's sprawling masterpiece. The book's most famous episodes--the sword in the stone, the cataclysmic final battle--are all here, while lesser-known key episodes stand forth with new brightness and clarity. The text is accompanied
