Management accounting that creates change resilience and enhances financial strength and profitability It has been one year and three months since WHO recognized the new coronavirus as a pandemic on March 11, 2020. The infection of the new coronavirus has spread all over the world, and the social and economic conditions of the globalized world have been severely damaged, and its vulnerabilities have been highlighted. - Deterioration of break-even point due to decrease in sales - Expanding the gap between management and on-site awareness due to the impact of the COVID-19 - Increasing number of internal frauds, fraudulent accounting of overseas subsidiaries, and inadequate internal control - Roadmap, goal setting and concrete measures for the realization of a carbon-free society Under these circumstances, what is most needed is the ability to respond to change by making use of hypotheses and verifications, in addition to the wisdom accumulated in the past, such as failure experiences and

success experiences. In order to build a corporate structure that responds to change, it is necessary to manage change points by narrowing the pitch rather than managing goals. To that end, it is urgent to align the common operation cycle weekly, chain conventional management indicators (financial indicators and non-financial indicators), and manage the cockpit with the idea of ??the Balanced Scorecard. As an inventory-centric management consultant, I advocate management accounting that can be used as an immediate force by connecting the management team and the field. In particular, as an evangelist of CCC (cash conversion cycle) and IFC (inventory freshness management) based on the latest case studies of more than 100 Japanese, American and European companies, we explain to executives, business managers, practitioners and students in an easy-to-understand manner in this book. In addition to the decarbonized society, this book also mentions food issues, marine plastic issues, and clothing disposal issues as non-financial information. Table of contents Chapter 1 Management Accounting and Corporate value creation index (1) Management Accounting and Financial Accounting (2) Fixed costs, Variable costs and Break-even point management (3) Corporate value management indicators, especially ROE, ROIC and case studies Chapter 2 Working capital and Cash Conversion Cycle (CCC) (1) Positioning of CCC (2) CCC comparison between Japan and U.S. and case

A drifter, published writer, and chronic womanizer: What do these three men have in common? Absolutely nothing...on the surface. But just beneath the surface, one begins to see horrendously striking similarities. Hence, ask oneself the question again. The unnerving answer this time: Absolutely everything. This

suspense drama is a dramatic tale of how despite their differences, this threesome find their lives converging as they struggle to get it together, deciding that some chances are worth taking. Meet financially secure drifter Jimmie Lee White, highly-educated published author Dr. Dee Powell, and womanizing ex-con Andy Smith. From Georgia and Virginia to Arkansas and Florida, this threesome discover the harsh realities of pure coincidence or—better yet—the painful truth that what goes on in the dark will always come to light...eventually. Unlike Gooden-El's intensely-driven debut novel, criminal justice thriller *A Question of Intent*, this novel takes a slower pace with a striking and emotional story that keeps you wondering all the way, almost to the point of perplexity. But when you realize the true plot, you'll find yourself reliving the chapters, pondering how you missed the signs. If you enjoy stories of intrigue and secrecy, *The Threesome* awaits you!

The only road to escape ends at The Wall. In a desolate post-Brexit England, nothing is as it seems. There is no chance, for those who remain in England encased behind The Wall, to live a long and healthy life in the smog drenched, almost abandoned cities. None. Apart from one. Walking North, alone, through a desolate and deserted landscape, on old, cracked roads, long since abandoned, Harra has only two items to guide her. A sheet of paper with a list of instructions to direct her steps to The Wall and an ancient Casio watch to ensure her timely arrival. Yet neither of those can guarantee success, not when the ever-vigilant Border Drones must be avoided to chance the final crossing. And with every step she takes, the Establishment lies begins to unravel, revealing to Harra just how far the Government has gone to ensure its 'truths' are not only never questioned, but that they also come to pass. Harra has a future to gain, and a past to unravel. The Wall both beckons and repels, but there is no other means of escape.
