The focus of Working Group 3.7 is on ITEM: Information Technology in Educational Management (for more information, please visit our website <http://item.wceruw.org/>), and the theme of its 2008 conference was on the Evolution of Information Technology in Educational Management. Our Working Group started its activities (officially we were not an IFIP Working Group at that time) in 1994 in Israel, so it made sense to look at how ITEM has evolved over the years and to reflect on what its future may be. The conference took place in Darwin (northern Australia) which even during the Australian winter is a very pleasant location for having a conference. The town of Darwin was given its name by the Captain of the Beagle (the ship on which Darwin travelled when he made the investigations on which he based his Theory of Evolution) who came to the area and named the town after the giant of science he admired.

This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.
