Fourteen-year-old Lizzie is adopted, but it is something she is not comfortable discussing with others, although she wants to, until a tragic accident makes her realize that it is not something to be ashamed of.

Essays on British writers of fantasy and science fiction during a time when science, technology and industrialization made increasingly impressive inroads from the Enlightenment to World War I. A gradual emphasis on social improvement, including literature, involved efforts to increase literacy through expanding material to read. During this period, publication of newspapers, penny dreadfuls and dime novels lead to pulp magazines and other popular periodicals. This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into

English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in *The Juggler of Notre Dame* in the twentieth century and its place in mass culture today. Volume 3: *The American Middle Ages* hinges upon two figures influenced by the juggler: Henry Adams, scion of Presidents and distinguished cultural historian whose works contributed to the rise of medievalism in America during the Gilded Age, and Ralph Adams Cram, the architect whose vision of Gothic accounts directly or indirectly for the campuses of West Point, Princeton, Yale, Chicago, Notre Dame, and many other universities across America. *The Juggler of Notre Dame and the Medievalizing of Modernity* is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its (post)modern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies,

medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

??E-Commerce Strategy: Text and Cases provides the fundamental literature required for graduate students and practitioners to understand electronic commerce. Each chapter provides clearly designed learning objectives and review questions to highlight the major topics and goals. This book covers many of the new innovations and technologies that have been established for e-commerce site development. Unlike similar books, topics such as e-channel adoption, factors affecting e-commerce adoption, and strategy design are reviewed in greater depth. Additionally, the book examines areas not normally covered like open source, online research, and peer-to-peer systems. E-Commerce Strategy: Text and Cases is divided into two parts. Part 1 examines the evolution of e-commerce, analyzes different sectors such as B2B and m-Commerce, and explores the challenges they face. Case studies of well known companies reinforce the concepts learned to demonstrate both successes and failures in the field. Part 2 deals with developing strategies in e-Commerce and looks at future trends including Web 2.0. Overall, the useful guidelines provided should prove valuable to students and researchers in the field.

"How Mindfulness Lost Its Mind chronicles the promising rise of mindfulness and

its troubling corruption. Joiner gives mindfulness its full due, both as an interesting and useful philosophical vantage point in itself, and as an empirically supported means to address various life challenges. He then charts contemporary societal trends towards individual narcissism that have intertwined with and co-opted the mindfulness movement. The book examines the dispiriting consequences for many sectors of society, ponders ways to mitigate if not undo them, and considers what if anything can be salvaged from the original, useful concept"--

The WealthTech Book is essential reading for investment and fund managers, asset allocators, family offices, hedge, venture

capital and private equity funds and entrepreneurs and start-ups.

This first of three volumes starts with a short introduction to historical metrology as a scientific discipline and goes on with an anthology of ancient and modern measurement systems of all kind, scientific measures, units of time, weights, currencies etc. It concludes with an exhaustive list of references. Units of measurement are of vital importance in every civilization through history. Since the early ages, man has through necessity devised various measures to assist him in everyday life. They have enabled and continue to enable us to trade in commonly and equitably understood amounts, and to investigate, understand, and control the chemical, physical, and biological processes of the natural world. The essence of the work is an alphabetically ordered, comprehensive list of measurement nomenclature, units and scales. It provides an understanding of almost all quantitative expressions observed in all imaginable situations, including spelling variants and the abbreviations and symbols for units, and various acronyms used in metrology. It will be of use not only to historians of science and technology, but also to economic and social historians and should be in every major academic and national library as standard reference work on the topic.

IF YOU NEED HEALING Oral Roberts is setting a pattern in these times of

confusion for a strong, dynamic faith in God. In the presence of Oral Roberts the confusion disappears, faith is restored and we are healed, but whether we hear him in his great tent, the auditorium, or by Radio, there are intervals between meetings or broadcasts when he is not available to us personally. Brother Roberts has written this book—putting into it the very heart of his healing ministry—so that those who cannot come into his presence when trouble besets them, can read and find deliverance. Here for your daily guidance Oral Roberts has WRITTEN A BOOK FOR YOU, and proves for you in his own words that faith in God is power. As you read you will learn how to use the power of your own faith for healing, for comfort, for guidance of your daily life and to receive the good things in life that God intends those who believe to have. 6. How to overcome fear and frustration
7. How to write your own ticket with God.

This Little Black Book is your companion for Lent. It's an old-fashioned "vade mecum" (pronounced vahday maykum). That's Latin for "travel with me" and was used to describe a book that was a constant companion – perhaps a

condensed book of prayers for traveling priests, or a handbook for quick reference – something you could take with you anywhere.

In *South Africa at War*, the first carefully documented survey and analysis of the policies and actions of the government of South Africa under P.W. Botha, Richard Leonard shows that the enduring effect of the attempt to preserve apartheid has been to increase the militarization of the country. He traces the travail of the African National Congress and shows that black resistance to apartheid has gone from peaceful protest to militant confrontation. He documents South African military and financial involvement in the conflicts in Namibia, Angola, and Zimbabwe and evaluates the societal stresses induced by the need to maintain and expand the armed forces. There is a searching presentation of the "propaganda war" undertaken by the government in an effort to influence attitudes toward South Africa and an analysis of the "total strategy" that guides the Botha government in the coordination and implementation of its policies. This book is a textbook for Urban/Community Forestry courses and a handbook for Shade Tree Commissions, tree wardens, State and National Forestry Services, and professional societies. It is the most complete text in this field because it addresses both culture and management, and the chapters have been written by experts who are active practitioners. The book provides observations

and examples relevant to every urban center in the U.S. and elsewhere. Exhibition catalogue. 104 p. 116 color ill., including photos of the artists. Catalogue of 278 works exhibited (sculptures, carvings and assemblages in mixed media). Preface by Gerald W. Adelman and Robert G. Donnelley; introduction by D. Scott Atkinson; "Adhocism in the Post-Mainstream Era: Thoughts on Recycling, Redemption, and the Reconfiguration of the Current Art World" and essays on each of the artists by Tom Patterson; artists' biographies. *Black and Brown in Los Angeles* is a timely and wide-ranging, interdisciplinary foray into the complicated world of multiethnic Los Angeles. The first book to focus exclusively on the range of relationships and interactions between Latinas/os and African Americans in one of the most diverse cities in the United States, the book delivers supporting evidence that Los Angeles is a key place to study racial politics while also providing the basis for broader discussions of multiethnic America. Students, faculty, and interested readers will gain an understanding of the different forms of cultural borrowing and exchange that have shaped a terrain through which African Americans and Latinas/os cross paths, intersect, move in parallel tracks, and engage with a whole range of aspects of urban living. Tensions and shared intimacies are recurrent themes that emerge as the contributors seek to integrate artistic and cultural constructs with politics

and economics in their goal of extending simple paradigms of conflict, cooperation, or coalition. The book features essays by historians, economists, and cultural and ethnic studies scholars, alongside contributions by photographers and journalists working in Los Angeles.

"By the founder of the first organization in the US committed to freeing the wrongly imprisoned, a riveting story of devotion, sacrifice, and vindication Jim McCloskey was at a midlife crossroads when he met the man who would transform his life. A former management consultant, McCloskey had grown disenchanted with the business world; he enrolled at Princeton Theological Seminary at the age of 37. His first assignment found him a chaplain at Trenton State Prison in 1980, where he ministered to some of the most violent offenders in the state. Among them was Jorge de los Santos, a heroin addict who'd been convicted of murder years earlier. De los Santos swore to McCloskey that he was innocent--and over time, McCloskey came to believe him. With no legal or investigative training to speak of, McCloskey threw himself into the man's case. Two years later, he successfully effected his exoneration. McCloskey found his calling. He would go on to establish Centurian Ministries, the first group in America devoted to overturning wrongful convictions. Together with a team of forensic experts, lawyers, and volunteers--through tireless investigation and an

unflagging dedication to justice--Centurion has freed 63 prisoners and counting, When Truth Is All You Have is McCloskey's inspirational story as well as those of the unjustly imprisoned for whom he has advocated. Spanning the nation, it is a chronicle of faith and doubt; of triumphant success and shattering failure. It candidly exposes a life of searching and struggle, uplifted by McCloskey's certainty that he had found what he was put on earth to do. Filled with generosity, humor, and compassion, it is the account of a man who has redeemed innumerable lives--and incited a movement--with nothing more than his unshakeable belief in the truth"--

Noted for its practical, accessible approach to senior and graduate-level engineering mechanics, Plates and Shells: Theory and Analysis is a long-time bestselling text on the subjects of elasticity and stress analysis. Many new examples and applications are included to review and support key foundational concepts. Advanced methods are discussed and analyzed, accompanied by illustrations. Problems are carefully arranged from the basic to the more challenging level. Computer/numerical approaches (Finite Difference, Finite Element, MATLAB) are introduced, and MATLAB code for selected illustrative problems and a case study is included.

Renowned for exploring the social implications of modern technology, Howard

Rheingold has been dubbed by MIT "the first citizen of the Internet." In this collection of funny, prescient, thought-provoking essays, originally published during the 1970s and 1980s, he offers a glimpse into the changes wrought during that explosive period. From the effects of the graphic user interface (GUI) not only on how we work but how we think, to "technarchist" movements that presaged both the hacker mentality and the anarchist idealism of Burning Man today, to a ground-floor view of the very earliest of what Rheingold was the first to dub virtual communities, his Excursions run the gamut from the silly to the profound. These essays remain fascinating, amusing, and relevant. "Most of my work in recent decades," Rheingold says, "has focused on the consequences of digital media and networked publics. Before the digital wave came along, I wrote about a more diverse range of subjects: What causes anger? What's it like to be in a car crash? What's insect sex like? Do invisible airborne chemicals affect behavior? Can we control our dreams? How will people get high in the future? Will money evolve into new forms? In the second decade of the twenty-first century, these short pieces re-present my explorations during my think about anything years to a wider public who may be familiar with my work on digital culture."

These original essays follow the socio-historical evolution of virility, as opposed

to masculinity, to unsettle popular accounts of politics and culture. A major contribution to the nascent field of masculinity studies, this history consults painting, sculpture, literature, philosophy, film, and cultural and sociological critique. With the twentieth century delivering one blow after another to hegemonic virility, this book also explores where manliness might be headed next.

* 6 Cartoon Adventure Serials including a previously unpublished 40 page story * 3 illustrated letters from the artist * Includes a selection of illustrations done for Robert Harrison's magazines (Wink, Titter, Flirt, etc.) in the late 1940s * 31 watercolor illustrations from original artwork This is the Second Edition (Revised and Enlarged) of a work that was originally published in 1974, and sold over 26,000 copies in the US alone. It was translated into French, German and Italian, and was also made into a movie, *The Perils of Gwendoline* (1984, directed by Just Jaeckin). This revised edition was published on December 9, 1999, the birthday of 'John Willie', as well as the twenty-fifth anniversary of the publication of the first edition. It's been expanded to 368 pages, which includes a wealth of previously unpublished and uncollected work by the artist. New to this edition are black and white reproductions of drawings and paintings (circa 1935-50), most from original artwork and never previously published, as well as an equal number of full-color pages also previously unpublished. The biographical introduction has been expanded to include much new information about J.W. including photographs.

Forced Womanhood A History of Virility European Perspectives: A Series in Social Thought and

This book presents the aims, methods and outcomes of an innovative wide-ranging exploration of public attitudes to heritage, conducted in 2015-16 across Lincolnshire, England's second-largest county. As policy and practice evolve, this research will remain valuable as a snapshot in time of public engagement with heritage.

For years a debate has raged over how to define true masculinity and true femininity. While there is agreement that men and women share equally in the privilege of being made in God's

image, some views of manhood and womanhood blur God-given gender distinctions. Wayne Grudem assembled a team of distinguished writers to show how egalitarian views destroy God's ideal for your relationships, marriage, and life purposes. The contributors to this book include: John Piper, Pastor of Bethlehem Baptist Church, Minneapolis, Minnesota Bruce A. Ware, Senior Associate Dean of the School of Theology and Professor of Christian Theology at The Southern Baptist Theological Seminary Richard W. Hove, Director of Campus Crusade for Christ at Duke University Daniel Doriani, Dean of the Faculty and Professor of New Testament at Covenant Theological Seminary Daniel R. Heimbach, Professor of Christian Ethics at Southeastern Baptist Theological Seminary Peter Jones, Professor of New Testament at Westminster Theological Seminary in California These writers explore key issues, including the interchangeability of male-female roles, the meaning of submission, and the historical novelty of egalitarian interpretations of Scripture. This book will demonstrate how some views of manhood and womanhood tamper with our understanding of God's character and why the extremes of male domination and feminism destroy the beauty of our sexual differences-differences that celebrate the excellence of men and women as God created us. Published in 1997, the bestselling BUFFETTOLOGY was tailored to the conditions of investors in the midst of a long bull market. Now, four years later, that market has seen once hot tech stocks crash and investors scramble to move their assets, or what remains of them, back to the safety of traditional blue chip companies. As peaks turn to troughs, worried investors wonder if there are any constants in today's volatile market. The answer is yes: Warren Buffett's value investing strategies make money. And, as THE NEW BUFFETTOLOGY demonstrates, there is no time to acquire like today's bear market. THE NEW

BUFFETTOLOGY is the first guide to Warren Buffett's strategy for exploiting down stocks - a strategy that has made him the world's second richest person. Designed to teach investors how to decipher and use financial information like Buffett himself, this one-of-a-kind guide walks readers step-by-step through the equations and formulas Buffett uses to determine what to invest in and, just as importantly, when. Authors Mary Buffett and David Clark explore Buffett's recent investments in detail, proving time and time again that his strategy has earned enormous profits at a time when no one expects them - and with almost zero risk to his capital.

A Tribute to the New Jersey - New York Kink Community. Devastated by the death of his love, Lynn, Nicholas turned to the community they had become part of: the kink community. He reconnected with some old friends, and through them, met some new ones. Randee was an in-your-face, self-proclaimed slut, and Cassie was an intriguing, intimidating dominatrix. To Nicholas, they were just his friends. Sometimes sex is just a distraction, but sometimes it can help to heal. For some people, sex is the only way they know how to seek or give comfort. Nicholas found an honesty and acceptance in the fetish community that he did not experience in his vanilla life. After his eye-opening relationship with Lynn, there was no going back. It was time to make new friends. What some people are saying... "I don't even know what to say." - Kevin. "I like to sit on my naked slave and paint on a canvas while he reads your books aloud to me." - Jennifer O'Neal, artist. "I'm your mother. I will never read this book." - my mother

The Korean War has been termed "The Forgotten War" or the "Unknown War." It is a conflict which never assumed the mythic character of the American Civil War or World

War II. However, this book asserts, it would be impossible to understand the Cold War and indeed post 1945 global history without knowledge of the Korean War. Providing a history of the Korean peninsula before the war and including a detailed analysis of the fighting itself, *The Korean War* goes beyond the battlefield to deal with the war in the air, ground attack, and air evacuation. The study also evaluates the contributions of the UN naval forces, the impact of the war on various homefronts and issues such as defectors, opposition to the war, racial segregation and integration, POWs and the media. Recently-released Soviet documents are used to assess the role of China, the Soviet Union, North and South Korea and the allied forces in the conflict. This fascinating work offers a unique analysis of the Korean War and will be invaluable to students of twentieth-century history, particularly those concerned with American and Pacific history.

The raised-arm salute was the most popular symbol of Fascism, Nazism, and related political ideologies in the twentieth century and is said to have derived from an ancient Roman custom. Although modern historians and others employ it as a matter of course, the term "Roman salute" is a misnomer. The true origins of this salute can be traced back to the popular culture of the late nineteenth and early twentieth centuries that dealt with ancient Rome: historical plays and films. The visual culture of stage and screen from the 1890s to the 1920s was chiefly responsible for the wide familiarity of Europeans and Americans with forms of the raised-arm salute and made it readily

available for political purposes. *The Roman Salute: Cinema, History, Ideology* by Martin M. Winkler presents extensive evidence for the modern origin of the raised-arm salute from well before the birth of Fascism and traces its varieties and its dissemination. The continuing presence of certain aspects of Fascism makes an examination of all its facets desirable, especially when the true origins of a symbol as potent as the salute and the history of its dissemination are barely known to classicists and historians of ancient Rome on the one hand, and to scholars of modern European history, on the other. Thus this book will appeal to classicists and historians, including film historians, and will be of interest to readers beyond the academy.
