In the 1920s, the richest people per capita in the world were members of the Osage Indian nation in Oklahoma. After oil was discovered beneath their land, they rode in chauffeured automobiles, built mansions and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. As the death toll climbed, the FBI took up the case. But the bureau badly bungled the investigation. In desperation, its young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to unravel the mystery. Excerpt from The History of Kennington and Its Neighbourhood: With Chapters on Cricket, Past and Present It is probable that there was a vast bay here, which ex tended as far as the hills of Camberwell and Clapham, and doubtless at high tide the gulls and wading birds disported themselves over the sites of our present houses, whilst at low tide, great stretches of ?at smooth land appeared. At a much earlier date still ocean waves beat upon the edges of the high ground. I have in my possession a piece Of veritable old sea beach, a mass of pebbles immersed in sand. This was dug up out Of a deep cutting made between Heme Hill and Norwood. Probably the Romans set to work to drain these acres and bring them into cultivation but names which still exist, such as Lambeth Marsh, show the state of the land up to much later days. Cricket is a game steeped in history and tradition. But it is also one of the most exciting, and rapidly changing, sports in the world. New, fast-paced, forms of the game such as the IPL have attracted a younger fan base, and sponsorship deals and increased media coverage mean that top cricket players are some of the best-known, highly paid, sports stars on the planet. Generation Cricket celebrates the rejuvenation of the game, giving readers a sense of the drama, action and skill involved in playing the game. Generation Cricket: Global Cricket looks at the game in all its many forms, from T20 and test matches to One Day Internationals, Kwik Cricket and even beach cricket. The book explains how cricket has evolved from a game for the elite to one that is played by millions of people, in many different ways, all over the world. It also focuses on some of the most famous competitions in cricket, from the IPL and Twenty20 World Cup to the Ashes and the ICC World Cup and Women's World Cup. All of the ten current Test Nations are detailed, along with their rivalries and some of their most impressive recent performances. Star Player features provide information about the men and women at the top of the sport both now and in the past, including Sachin Tendulkar, Ellyse Perry, Kieron Pollard, Virat Kohli, Kumar Sangakkara and Sir Donald Bradman. A comprehensive guide to the many competitions, leagues and teams in the world of cricket, Generation Cricket: Global Cricket is ideal for cricket lovers aged 9 and above, either for project work or simply as a great leisure read.

Acclaimed as a magisterial, classic work, A Social History of English Cricket is an encyclopaedic survey of the game, from its humble origins all the way to modern floodlit finishes. But it is also the story of English culture, mirrored in a sport that has always been a complex repository of our manners, hierarchies and politics. Derek Birley's survey of the impact on cricket of two world wars, Empire and 'the English caste system', will, contends Ian Wooldridge, 'teach an intelligent child of twelve more about their heritage than he or she will ever pick up at school.' In just under 400 pages Birley takes us through a rich historical tapestry: how the game was snatched from rustic obscurity by gentlemanly gamblers; became the height of late eighteenth century metropolitan fashion; was turned into both symbol and synonym for British imperialism; and its more recent struggle to dislodge the discomfiting social values preserved in the game from its imperial heyday. Superbly witty and humorous, peopled by larger-than-life characters from Denis Compton to Ian Botham, and wholly forswearing nostalgia, A Social History of English Cricket is a tour-de-force by one of the great writers on cricket.

Cricket's greatest legends. Sport's fiercest rivalry. Wisden's fakest diaries. CrickiLeaks

charges headlong onto the players' balcony and imagines 40 cricketing diaries of rare wit and invention, along with the illustrated book covers they might have inspired. Featuring spoof journal entries drawn from throughout Ashes history, CrickiLeaks reveals for the first time the innermost thoughts of the greatest cricketers of the last 129 years. And Mitchell Johnson. CrickiLeaks includes imagined diaries from players on the most recent tour (Andrew Strauss, Ricky Ponting), diaries from the all-time greats (Shane Warne, Freddie Flintoff, Sir Ian Botham, Geoffrey Boycott, Donald Bradman, W.G. Grace), as well as contributions from less obvious personalities. An irreverent and entertaining collection of Ashes diaries, CrickiLeaks finally lays to rest some of cricket's greatest mysteries: - What exactly was going through Gattling's mind as he faced the ball of the century? - Why did Ricky Ponting lose his rag with Ronald McDonald? - What really went on between Douglas Jardine and Daphne the Koala in Adelaide Zoo? A riotous and uniquely scurrilous addition to any cricket-lover's library.

Offering the first empirically driven assessment of the development, marketisation, regulation and use of online gambling organisations and their products, this book explores the relationship between online gambling and crime. It draws upon quantitative and qualitative data, including textual and visual analyses of e-gambling advertising and the records of player-protection and standards organisations, together with a virtual ethnography of online gambling subcultures, to examine the ways in which gambling and crime have been approached in practice by gamers, regulatory agencies and online gambling organisations. Building upon contemporary criminological theory, it develops an understanding of online gambling as an arena in which risks and rewards are carefully constructed and through which players navigate, employing their own agency to engage with the very real possibility of victimisation. With attention to the manner in which online gambling can be a source of criminal activity, not only on the part of players, but also criminal entrepreneurs and legitimate gambling businesses, Online Gambling and Crime discusses developments in criminal law and regulatory frameworks, evaluating past and present policy on online gambling. A rich examination of the prevalence, incidence and experience of a range of criminal activities linked to gambling on the Internet, this book will appeal to scholars and policy makers in the fields of sociology and criminology, law, the study of culture and subculture, risk, health studies and social policy.

'Cricket on the Beach' is Book 1 of the alternative history series Timeline 10/27/62 - Australia. Timeline 10/27/62 is set in a World in which the Cuban Missiles Crisis went wrong and the swinging sixties never happened. The thermonuclear madness might not have reached as far south as Australasia, but in the weeks and months after the Cuban Missiles War many more people might have succumbed to the 'On the Beach' syndrome had it not been for the distraction of a unique sporting odyssey. It happened that on the day the World went mad the England cricket team was in Perth, Western Australia on the opening leg of its campaign to win back The Ashes. Touring under the auspices of the Marylebone Cricket Club - the MCC - and playing international, or 'test' matches as 'England', the tourists under the captaincy of that most quintessentially dashing of batsmen, Edward Ralph 'Ted' Dexter, the eyes of the British and Australian sporting publics were not, on the day of World War III fixed on an island in the Caribbean of which few knew anything, and most cared less, but upon the forthcoming titanic struggle 'down under'. 'Cricket on the Beach' is a CRICKET BOOK; a history of

the last MCC tour to Australia. The tour that began in one world and ended in another. "The word 'Barbados' conjures up two words in most people's minds - beaches and cricket. ... But Barbados is more than a beach and cricket - it is also rich in history."--Back cover.

Blackpool is Britain's favourite seaside resort. Each year millions of visitors come to walk on its three piers, ride donkeys, enjoy shows at the Winter Gardens, scream on the thrilling rides at the Pleasure Beach and ride the lift to the top of the Tower.

Generations of holidaymakers have stayed in its hotels, lodging houses and bed and breakfasts and all have succumbed to its delectable fish and chips. Two centuries of tourism has left behind a rich heritage, but Blackpool has also inherited a legacy of social and economic problems, as well as the need for comprehensive new sea defences to protect the heart of the town. In recent years this has led to the transformation of its seafront and to regeneration programmes to try to improve the town, for its visitors and residents. This book celebrates Blackpool's rich heritage and examines how its colourful past is playing a key part in guaranteeing that it has a bright future.

Abstract: The purpose of this project was to develop an experiment aimed at investigating the acceptability and willingness for consumers to adopt snacks formulated with cricket protein. As chips are commonly well-liked snacks, a commercialized chip product containing cricket protein would be used for the sensory evaluations. Three sensory evaluation tools were created to evaluate the perceptions of the participants: A 9-point hedonic scale test, paired-comparison test, and a Food Action Rating Scale test. A review of literature is included which demonstrates the history of entomophagy and the benefits associated with cricket protein consumption. Furthermore, the researcher provides current food trends of cricket protein. Overall, through extensive research, this project suggests that incorporating cricket protein into commonly well-liked snacks is uncommonly practiced; however, through increasing awareness of its benefits and with more food companies featuring cricket protein in products, perhaps in the near future eating bugs will be more common in Western society.

Australia's original inhabitants are acknowledged as the oldest continuous living civilization known in the world, dating back some forty thousand years. Living in isolation of the rest of the world on their island continent, they evolved a unique culture of harmonious existence based on totally respected, strictly acknowledged territorial boundaries and mutually accepted laws, which were self-regulating. There was no need for governments, armies, police, or jails; and yet they lived a relatively peaceful existence. Anthropological evidence reveals the arrival of international migrants some four thousand years ago. This story explores the distinct possibility that this connection could have led to the introduction of advanced technology that, if adopted and exploited by the locals, would have resulted in a totally different Australia back in 1770 when Captain Cook arrived, intent on claiming this land for his king and country. Maitland sends Cecil along with The Enforcer and Old Faithful down onto the beach to greet the landing party and inform the good captain and his mates that they are not welcome and that perhaps it would be in their best interests to leave. But Cook's not having a bar of it, and, well, rather than spoil a good story . . . nuff said.

Certain Admissions is Australian true crime at its best, and stranger than any crime fiction. It is real-life police procedural, courtroom drama, family saga, investigative journalism, social history, archival treasure hunt - a meditation, too, on how the past shapes the present, and the present the past. On a warm evening in December 1949, two young people met by chance under the clocks at Flinders Street railway station. They decided to have a night on the town. The next morning, one of them, twenty-year-old typist Beth Williams, was found dead on Albert Park Beach. When police arrested the other, Australia was transfixed: twenty-four-year-old John Bryan Kerr was a son of

the establishment, a suave and handsome commercial radio star educated at Scotch College, and Harold Holt's next-door neighbour in Toorak. Police said he had confessed. Kerr denied it steadfastly. There were three dramatic trials attended by enormous crowds, a relentless public campaign proclaiming his innocence involving the first editorials against capital punishment in Australia. For more than a decade Kerr was a Pentridge celebrity, a poster boy for rehabilitation – a fame that burdened him the rest of his life. Then, shortly after his death, another man confessed to having murdered Williams. But could he be believed? 'A work of true detection that not only compels belief in its every detail but has the breathtaking suspense of that very weird and rare form of crime writing that has the truth of a work of art.' Weekend Australian 'Haigh's work is a mesmerising detective story itself . . . [it] finds a new twist in the archives.' The Saturday Paper 'A beautifully written, tirelessly researched and ultimately very compelling and true story . . . Fascinating and tragic.' Herald Sun 'The trial of John Bryan Kerr was the first murder trial that I read about in detail, as a boy of eleven. I longed, even then, to know the whole story. Gideon Haigh's book has made the wait worthwhile.' Gerald Murnane 'In carefully and curiously lifting from the shadow the story of a lost girl and a troubled man, Haigh explores a writer's true territory: the space between what is, and what might be.' Sonya Hartnett 'Gideon Haigh understands the real tragedy of murder - it is never really solved.' P. M. Newton

"Modern sports" were introduced to Asia in the late nineteenth century as an innovation from the West, concurrently with the development of modern society in Asia. This book traces the historical developments of sporting cultures in Asia in specific local contexts – including Singapore, China, Myanmar, Taiwan, the Philippines, and India – and their intersections with larger social developments of colonialism, postcolonialism, nationalism, and the building of modern Asia and its place in a globalized world. The case studies herein present the social history of modern team sports with standardized rules such as basketball and cricket, and less familiar sports such as fives and chinlone, as they vacillate between global and local perspectives. This book also shows that modern sports have had an important influence on the makeup of everyday life in Asia, and the essays here also consider sports' impact on gender, body culture, and celebrity culture, among other concerns. This book painstakingly bridges the gaps between Asian Studies and Sports Studies in a way that reflects the historicity and multiplicity of sports in Asian societies. By adopting multi-disciplinary approaches, this book innovatively offers significant intersection between sociology, cultural studies and Asian studies of sport in Asia. This book was published as a special issue of Sport in Society.

A cruise is a complete vacation, so it's important that you choose the one that's right for you. Frommer's Caribbean Cruises & Ports of Call is the most user-friendly, opinionated, and informative guide you can buy before you set sail. Unlike other guides that try to cover cruises around the entire world in one volume, we focus solely on the Caribbean, so we can bring you much more in-depth coverage. Unlike those used in other guides, our rating system is simple. We break down the essential elements of a cruise experience (dining, activities, children's activities, entertainment, service, overall enjoyment, and overall value), and rate them from "poor" to "outstanding." Photos of each ship combine with the text to give a better sense of the very real differences among the various lines. Most important, this is the only cruise guide that provides the real prices people pay for cruises, not just the rack rates. Other guides tell you that a seven-night cruise aboard Royal Caribbean's Brilliance of the Seas costs \$2,099. You can pay that if you want to, but only Frommer's tells you that the same cruise is selling for \$649. We give both the rack rates and the discount price for every cruise in the Caribbean. This feature alone makes Frommer's Caribbean Cruises and Ports of Call by far the most valuable trip-planning book among cruise guides. Our authors, noted cruise experts who've personally checked out every ship sailing the Caribbean, offer candid and unbiased opinions on them all. They are completely up to date, with all the latest developments and the newest ships. You'll also get complete coverage of 35 Caribbean port destinations, with advice on how to spend your limited time ashore.

Deeply personal, always amusing, **YOU ONLY GET ONE INNINGS** is the story of thousands of cricket tragics growing up in the Australian suburbs in the 70s and 80s. As a young boy growing up in the 1970s in the suburbs of Adelaide, Barry Nicholls was negotiating the dreadful haircuts and unrequited infatuations of adolescence, while his heroes, Chappell, Lillee and Thommo, were creating cricket history against Pommie champions like Boycott and Botham. Like thousands of Aussie kids playing cricket at school, in their backyards or on the beach - Barry wanted to be bat like them, bowl like them and play for Australia. But like many boys who dreamed those dreams, he never quite did. But along the way Barry discovered that in the competing, the striving and just having fun with his family, friends and mates - that cricket really can change your life - even if you don't get to play for Australia. A charming coming - of - age memoir set against the Ashes battles of the 70s and 80s that celebrates the eternal wisdom of cricket.

The investigation is fraught, as Milburn is forced to work with Diane Meredith, the sensual policewoman who stalked and harassed him nearly a year earlier. Will he fall for her wiles, again? The passage through a quagmire of suspects and potential motives is signposted by Milburn's enigmatic, surfer friend, Penfold, and a menagerie of bizarre characters. Sex, drugs and professional sport form the backdrop for a tale of human shortcomings when facing everyday temptations.

Butter has been told there are ghosts at the nearby isolated Howlers Beach, but are there? And how can the children Butter plays cricket with on the beach simply vanish? Who are these children and why do they refuse his help? Butter is certain they're hiding a secret and he's determined to uncover it.

Sylvia Beach was intimately acquainted with the expatriate and visiting writers of the Lost Generation, a label that she never accepted. Like moths of great promise, they were drawn to her well-lighted bookstore and warm hearth on the Left Bank.

Shakespeare and Company evokes the zeitgeist of an era through its revealing glimpses of James Joyce, Ernest Hemingway, Scott Fitzgerald, Sherwood Anderson,

Andre Gide, Ezra Pound, Gertrude Stein, Alice B. Toklas, D. H. Lawrence, and others already famous or soon to be. In his introduction to this new edition, James Laughlin recalls his friendship with Sylvia Beach. Like her bookstore, his publishing house, New Directions, is considered a cultural touchstone.
