When a spell thrusts her great-aunt Sarah Hutchinson forward from the Salem witch trials of 1692 and lands her in Hazel's bookstore, everything Hazel thought she knew about herself changes. Complicating matters, Raven Dare, a supernatural hunter, informs her that they've all been summoned by the Queen Witch, Morgan le Fay. Twenty-Five Ghost Stories BY W. BOB HOLLAND This collection of ghost stories owes its publication to an interest that I have long felt in the supernatural and in works of the imagination. As a child I was deeply concerned in tales of spooks, haunted houses, wraiths and specters and stories of weird experiences, clanking chains, ghostly sights and gruesome sounds always held me spellbound and breathless. Experiences in editorial offices taught me that I was not alone in liking stories of mystery. The desire to know something of that existence that is veiled by Death is equally potent in old age and in youth, and men, women and children like to be thrilled and to have a "creepy" feeling along the spinal column as the result of reading of a visitor from beyond the grave. This volume contains the most famous of the weird stories of Edgar Allan Poe, that master of this form of literature. "The Black Cat" contains all the needed element of mystery and supernatural, and yet the feline acts in a natural manner all of the time, and the story is quite possibly true. It is only in the manner of its telling that the tale becomes one that fittingly finds its place in this collection. Guy de Maupassant, the clever Frenchman, is also represented by two effective bits of work, and other less widely known writers have also contributed stories that are worth reading, and when once read will be remembered. There is not a story among the twenty-five that is not worthy of close reading. There has recently been a revival in interest in ghost stories. Many of the high-class magazines have within a few months printed stories with supernatural incidents,

and writers whose names are known to all who read have turned their attention to this form of literature. Whether or not the reader believe in ghosts, he cannot fail to be interested in this little book. Without venturing to express a positive opinion either way, I will only say with Hamlet: "There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy." child: The women in her family, once possessed of great magical abilities to remake lives and stave off death itself, were forced to flee their Russian home for America in order to escape the fearful men who sought to destroy them. Such has it always been, Ruby's been told, for powerful women. Today, these stories seem no more real to Ruby than folktales, except for the smallest bit of power left in their blood: when each of them comes of age, she will have a vision of who she will be when she dies—a destiny as inescapable as it is inevitable. Ruby is no exception, and neither is her mother, although she ran from her fate years ago, abandoning Ruby and her sisters. It's a fool's errand, because they all know the truth: there is no escaping one's Time. Until Ruby's great-aunt Polina passes away, and, for the first time, a Chernyavsky's death does not match her vision. Suddenly, things Ruby never thought she'd be allowed to hope for—life, love, time—seem possible. But as she and her cousin Cece begin to dig into the family's history to find out whether they, too, can change their fates, they learn that nothing comes without a cost. Especially not hope.

Experiences of hearing the voice of God (or angels, demons, or other spiritual beings) have generally been understood either as religious experiences or else as a feature of mental illness. Some critics of traditional religious faith have dismissed the visions and voices attributed to biblical

characters and saints as evidence of mental disorder. However, it is now known that many ordinary people, with no other evidence of mental disorder, also hear voices and that these voices not infrequently include spiritual or religious content. Psychological and interdisciplinary research has shed a revealing light on these experiences in recent years, so that we now know much more about the phenomenon of "hearing voices" than ever before. The present work considers biblical, historical, and scientific accounts of spiritual and mystical experiences of voice hearing in the Christian tradition in order to explore how some voices may be understood theologically as revelatory. It is proposed that in the incarnation, Christian faith finds both an understanding of what it is to be fully human (a theological anthropology), and God's perfect self-disclosure (revelation). Within such an understanding, revelatory voices represent a key point of interpersonal encounter between human beings and God.

But Harry owes Moran a personal debt, so when he demands her aid she can hardly refuse. It turns out that the brilliant black sheep of New York Society is part of a secret club at Columbia College whose members have started dying in bizarre ways that may not be accidents.
