Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A "V" day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily torchores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. "Man," I thought. "If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life?" So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my "RBI"s. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever

the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith.

I get it...you hate your job and your hate your boss. Yah I feel for you. I can almost sense how much you dislike that guy "you know that guy in your office that everybody hates." He is rude and obnoxious crazy annoying and brain-dead. Of course he makes sure to put extra effort to bother you on purpose. How about your boss? In a drone/machine like tone he is ordering you to do this and that. Endless reports, meetings and more meetings and reports. It doesn't seem like it's going anywhere. You can't see promotion or anything of the likes in the horizon. It's just more work and more of the same. Everyone in the office is shaking when the boss comes by. They just gave the pink slip to some guys and gals and you could be next. Well if you are rocking and shaking in you chair in your small comfy "cubichell" please do me a favor and STOP! Instead imagine this: It's a beautiful day the sun is up and always up 365 days a year. You just got really wet an unexpected wave bounced in the stern of your 50 foot sail boat and surprised you pleasantly. Well, it's not a big deal. You are lightly dressed short

File Type PDF Day Trading Forex With S R Zones Forex Trading System

and... and that's it. You are thinking "I'll get a soaking wet wave any time of the day, just keep me in the Caribbean." In fact you are in the Caribbean. Not too far from Richard Branson's island. Your boat is softly gliding in the water. The wind just picked up and you had to do some work. Adjust the sail and reset the autopilot. Well you have to "suffer" a bit you are not exempt from work in the Caribbean. Except is something you love to do, sailing is your hobby and work and fun mix together in an inseparable tread that weaves the fabric of your life. Another boat slides by in the distance. The happy captain is waving friendly. The wind is pressing firmly on the sail and you are getting good speed of 8 knots. The water is crystal clear. You can see the marine life all the way to the bottom of the reef. All kinds of fish are swimming in pools around. You hear a loud noise of something ruddling in the bow. You quickly jump and go to see what the commotion is about. A school of dolphins about 9 of them jumping around the bow and racing with the boat. Well, life can't really get better. You enter the channel and before you know the dock master and his helpers throw a couple half hitched ties and whatever else their magic includes and now you are securely tied up and ready to go. Your first thought is to check your trades. You placed a good trade early in the morning before leaving the island and are expecting big gains for the day. Contrary to what the public believes you know

File Type PDF Day Trading Forex With S R Zones Forex Trading System

that the secrets to good trading on the island is to have a good WiFi. You get in the bar and are served something that comes with small umbrella on top. You know a "painkiller" or the likeness of it. You open your account and I can help, but see a big smile on your face. You are up \$970 for the day. The Bernanke and all to "big heads" on TV did their job well. The crowd was scared the price was pushed your way and you are happy. "A thousand a day keeps the boss away." Well it's time to do it all over again. Place the next winning trade, close the computer and have another one of these little umbrella drinks. I have a confession to make my friend; the second scenario I gave you is my life now. What you are about to find in this book are the highly guarded secrets of the top traders in the world. You can be anything that you want to be in this world. You can even create your own reality. But that involves something called work. That's why I have decided to create your reality for you and bring it in a silver platter in front of you. I have done all the hard work and created a winning system and strategies for you to use and prosper. Do you want to see your new reality? Would you like to even step in to it? You would if you knew what's on the other side. But it takes a step of faith. Push few buttons punch a couple mouse keys and buy this book. See you on the other side.

unsuspecting traders have been burned by aggressive marketing campaigns and gimmicks luring them into unfavorable trading environments. In this book, best-selling trading author Carley Garner covers everything new currency traders need to know to avoid those pitfalls and start earning big profits. Currency Trading begins by demystifying all the essentials, from quotes and calculations to the unique language of Forex trading. Readers learn all they need to know about choosing trading platforms and brokerage firms; working with leverage; controlling transaction costs; managing liquidity, margins, and risks; and much more. Garner thoroughly explains the currency spot market (Forex, a.k.a. FX); currency futures traded on the Chicago Mercantile Exchange (CME) and elsewhere; and currency ETFs. She candidly discusses the advantages and disadvantages of each, cutting through the 'smoke and mirrors' often associated with currency trading. Readers will also find a full section on currency market speculation, including a clear introduction to fundamental and seasonal analysis in currency markets. With her guidance, new currency traders can identify the markets and approaches that best fit their objectives, and avoid the pitfalls that have often victimized their predecessors.

costs, 24-hour accessibility, global players and high degrees of leverage, there are enormous opportunities but also very real potential hazards along the way if you don't know what you're doing. Leverage can work both ways you control large positions, but small moves in your favor can mean big returns on your investment. For these reasons, forex trading deserves its own volume, devoted entirely to SFO (Stocks, Futures, Options) Magazine articles explaining the ins and outs of currency trading. Forex traders don't need to follow hundreds of stocks or commodities to get a flavor for the market just the movements of eight major currencies: the U.S. dollar, Japanese yen, European Union euro, British pound, Canadian dollar, Australian dollar, New Zealand dollar and Swiss franc. Trading a country's currency is like trading the outlook for the country, so it helps to have a bit of fundamental knowledge. But it's also a highly technical form of trading. This book helps you assess how to best synthesize your forex strategies to make the most of market movements. Learn from the top forex trading experts in the world. The key to trading currencies is figuring out what central banks will do before they actually make their moves.

Don't expect yet another proven and revised strategy! You won't find one of the regular forex trading techniques in this book! In this book I will show you the knowledge gained after years of research and study, showing you how - after a

Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.
