Faculties, publications and doctoral theses in departments or divisions of chemistry, chemical engineering, biochemistry and pharmaceutical and/or medicinal chemistry at universities in the United States and Canada.

A directory to the universities of the Commonwealth and the handbook of their association.

Every entry follows a standard pattern: after the address and telephone number of the institution there is a brief description of its history and financial support, followed by the names of the senior staff, total number of staff, the institution's structure and services,

its main research programmes and a list of its publications. For this new edition a subject index has been added, allowing the reader to identify centres of research activity on individual construction topics throughout the world. The world-wide investment in construction industry research is enormous. This unique directory is a guidebook to that investment which will enable its readers to isolate sources of advice on practical problems, information on national standards and requirements and potential research collaborators.
