Poe's preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe's most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

Apollo 11 astronaut Buzz Aldrin's courageous, candid memoir of his return to Earth after the historic moon landing and his personal struggle with fame and depression. "We landed with all the grace of a freight elevator," Buzz Aldrin relates in the opening passages of Return to Earth, remembering Command Module Columbia's abrupt descent into the gravity of the blue planet. With that splash, Aldrin takes readers on a journey through the human side of the space program, as one of the first two men to land on the moon learns to cope with the pressures of his new public persona. In honest and compelling prose, Aldrin reveals a side of instant fame for which West Point and NASA could never have prepared him. One day a fighter pilot and engineer, the next a cultural hero burdened with the adoration of thousands, Aldrin gives a poignant account of the affair that threatened his marriage, as well as his descent into alcoholism and depression that resulted from trying to be too many things to too many people. He didn't realize that when he landed on his home planet his odyssey had just begun. As Aldrin puts it, "I traveled to the moon, but the most significant voyage of my life began when I returned from where no man had been before." Return to Earth is a powerful and moving memoir that exposes the stresses suffered by those in the Apollo program and the price Buzz Aldrin paid when he became an American icon. Charles Dickens's first published book, Sketches by Boz (1836) heralded an exciting new voice in English literature. This richly varied collection of observation, fancy and fiction shows the London he knew so intimately at its best and worst - its streets, theatres, inns, pawnshops, law courts, prisons, omnibuses and the river Thames - in honest and visionary descriptions of everyday life and people. Through pen portraits that often anticipate characters from his great novels, we see the condemned man in his prison cell, garrulous matrons, vulgar young clerks and Scrooge-like bachelors, while Dickens's powers for social critique are never far from the surface, in unflinching depictions of the vast metropolis's forgotten citizens, from child workers to prostitutes. A startling mixture of humour and pathos, these Sketches reveal

London as wonderful terrain for an extraordinary young writer. Sketches is a remarkable achievement, and looks towards Dickens's giant novels in its profusion of characters, its glimpses of surreal modernity and its limitless fund of pathos and comic invention.

Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*
