The fascinating story of a century-old automobile dynasty Fiat is one of the world's largest automakers, but when it made headlines by grabbing control of a bankrupt Chrysler in 2009 it was unknown in the U.S. Fiat's against-all-odds swoop on Chrysler---masterminded by Sergio Marchionne, the Houdini-like manager who saved Fiat from its own near-collapse in 2005 -- has made the automaker one of the most unlikely winners of the financial crisis. *Mondo Agnelli* is a new book that looks at the chain of unpredictable events triggered by the death of Gianni Agnelli in 2003. Gianni, the charismatic, silver-haired power broker and style icon, was the patriarch who had led the company founded by his grandfather in 1899. But Gianni's own son had committed suicide. Without a mature heir, the dynasty and Fiat were rudderless. Backed by Gianni's closest advisors, his serious, shy, and determined grandson John plucked Marchionne from obscurity. Together, they saved the family company and, inadvertently, positioned Fiat as a global trailblazer when the global storm hit. A classic story of ingenuity and hard work, the book portrays a business dynasty that triumphed over adversity and family tragedy because of its own smarts, sweat, and ability to bend the rules. An engaging tale for those interested in the stories behind the economic crash, the book contains never-before reported material about how Fiat succeeded in making Chrysler profitable where both Daimler AG and Cerberus, its previous owners, had failed. A story for a wide audience, from car buffs, business readers, lovers of Italy, and anyone fascinated by the lifestyle of Europe's most glamorous industrial dynasty, this book tells the tale of how Fiat achieved the seemingly impossible -- turning around an American automotive icon everyone else had given up for dead.

Textbook on International Human Rights provides a concise introduction for students new to the subject. Clearly written and broad in scope, this popular text gives a concise introduction to international human rights, including regional systems of protection and the key substantive rights. The author skilfully guides students through the complexities of the subject, making it accessible to those with little or no prior legal knowledge. Key cases and areas of debate are highlighted throughout, and a wealth of references to cases and further readings provided at the end of each chapter. Online Resource Centre This book is accompanied by an Online Resource Centre, which contains links to the full cases referenced at the end of each chapter as well as a list of annotated web links to aid further study.

Aleksandr Orlov has become one of the most loved figures in British culture and his catchphrase - 'Simples!' - can be heard from the playground to the office. Written in his inimitable voice (as dictated to his sidekick Sergei), his autobiography will offer the same humour as his TV ads, giving us the full story of his ancestor's Journey of Courageousness from the Kalahari to Russia, the low-down on his life as entrepreneur and founder of comparethemeerkat.com and his love of grubs and cravats. 'My name is Aleksandr Orlov. I live and make work in Moscow. I have a success business. I have a mansion decorate with many fine things. I have a naturally majestic posture. But I would have none of these things if it were not for my family. This book is dedicated to them. I also wish to inspire next generation of young businesskats. I am hope that this book will show what can come of courage, hard work and a good fur-care regime. I am also hope that with royalties I will be able to re-marble roof on Orlov family mansion'

Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta...." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso...." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere.

Devastante è farlo senza essere di sinistra.

This book presents how Digital Transformation is a requirement to upgrade Latin American universities to a next level in management, lecturing and learning processes and strategies. The book starts with a thorough introduction of the Latin American context addressing the three main topics in the book: Digital Transformation, Higher Education and Artificial Intelligence & Industry 4.0. They will be depicted by region, with a clear distribution between Central America & Mexico, Comunidad Andina (Perú, Colombia, Chile, Ecuador, Bolivia), Mercosur (Argentina, Brasil, Paraguay and Uruguay), and other countries. The book also shows how online learning is a key part of the transformation, with a clear focus on learning management systems, innovation and learning analytics. Further, personalised services for every single profile at the university (students, lecturers, academic managers) are presented to guarantee inclusive education service aggregation for networked campuses. Following, the book addresses strategy and overall services that concentrate on sustainability and revenue models integrated with a strategic planning. Finally a set of chapters will show specific experiences and case studies of direct application of Artificial Intelligence and Technology 4.0, where the readers can learn from and transfer directly into their educational contexts.

"It's a new African fictional consomme, sweet like new wine as it were; but full of substance like an old one; having been brewed from an aged palm on an African fertile soil, yet by a sagacious tapper-son in diaspora. A coherent and competent literature for scholars of African cosmology, culture, philosophy, history and traditional religion (ATR) to mention but a few. This text-visual thriller is at one time calm and intense, and at another pathetic, yet didactic to the world in general. A literary masterpiece and a must read for any who would like to emigrate!" Fr. Ositadimma Amakeze (Author of the Lost Carver, Teeth of a Snail) "There is progressive awareness widespread among the Igbos at home and in diaspora concerning the 'Greener Pasture' illusion. Woes of Ikenga presents a window-view to what life in Europe could be like; and at the same time a doorway to liberation for the victims of an "Idealised Treasure Island." John Paul Afuecheta The author tells a thought-provoking story of the struggle for survival and the illusive search for "greener pastures" in a land said to be 'flowing with milk and honey.'" Woes of Ikenga is the story of a young man's quest for success in a foreign land. Unfortunately he proves too indoctrinated in the omenani of his people to fit in and "behave as Romans when in Rome." Amarachukwu Chimeka (SFEP Associate) "This is simply fantastic, narrative, engaging and superlatively tantalizing. In this mind blowing and thrilling stories of war and its challenging circumstances in Africa and the erroneous mindset of certitude of greener pasture; once traveled out to the white man's land, by some Africans, the author has masterfully and courageously stepped towards the shoes of the likes of the Grand Commanders of African literature, Chinualumogu Achebe, Cyprain Ekwensi, Mariama Ba etc. Surely he is a few miles closer to them and will definitely find his voice. The novel is worth anybody's time." ___OGUEGBU,

A volume devoted to Giugiaro and Italdesign could hardly not be included in the Masterpieces of style series. Giugiaro is one of the most prestigious names in the history of automotive design, synonymous with iconic cars such as the Alfa Romeo Giulia Sprint GT and Alfetta, the Volkswagen Golf, the Audi 80, the Fiat Panda, Uno and Punto, the Lancia Delta, Thema and Prisma and the Maserati Bora, Ghibli and Merak, to mention but a few of the most successful designs to carry the Giugiaro name. Born in 1938 at Garessio in the province of Turin, Giugiaro honed his professional skills at Bertone and then at Ghia before setting up on his own when founding Giugiaro Italdesign in 1968. Today the firm is as active as ever and has been responsible for concept cars such as the Caimano, the Iguana and the Canguro, all based on Alfa Romeo mechanicals, and the Asso di Picche and the Quadri on respectively Audi and BMW chassis. This monograph covers this long technical and stylistic history, drawing on a clear, comprehensive text and hundreds of photographs, many of which previously unpublished. The series, includes books on Zagato (2017) Touring (2017), Pininfarina (2018) and, to be published soon, Bertone, Vignale and Ghia.

This offers honest and largely unedited glimpses into the world of social work of 40 years or so ago. Illustrated by the professional practice of one Colin Millwood, an enthusiastic but otherwise green social worker, it coincides with the early beginnings of his arrival at his local Social Services Department.

A visual history of the FIAT 500, the ultimate lifestyle car that has remained a timeless classic and design legend. Considered to be one of the most popular models in automotive history, the FIAT 500 has become a legend over time. Its innovative features, the original and recognizable design of its bodywork, and its versatility have distinguished it as an automotive icon with enduring appeal. FIAT 500: The Design Book is an invitation to embark on a captivating journey through the main milestones of the 500 project: from the first series in the 1960s to the public presentation at the Geneva International Motor Show of the Trepìuno prototype in 2004, of the new 500 and 500C, the 500L through to the 500X. This visually rich and fascinating book explains not only the genesis and "design metamorphosis" of each model, but also their backgrounds, and explores the contributions of the designers who have helped to develop them with innovation and foresight.

This book presents the state of the art and trends in Health Care Telematics, the valuable results of the research and development work carried out by more than 50

projects during the AIM programme 1991-94. Project information regarding the dissemination and validation of the project results is elaborated and in the annex a full list of the participants in each project including contact details can be found. The second part of the book focuses on the shift of paradigm in the Health Care sector within the Information Society. This shift is characterised by a general turn from informatics towards multimedia telematics including the Health Care Telematics. The new Telematics Application Programme under the Fourth Framework Programme for Research and Technological Development is user driven and focuses on the need for industry and users to collaborate and develop common solutions to secure validation and exploitation of the research results. The book gives an insight into the state of the art in a world wide context and helps the reader to understand the trends in Health Telematics. The target groups for reading the book are besides experts, researchers and industry in the area as well as decision makers and potential users of Health Telematics. Covered by Current Contents, Life Sciences (ISI), volume 39, no. 9, Februari 1996, p. 15-18 "The book gives insight into the state of the art in a worldwide context and helps the reader to understand current trends in European health telematics" Health Informatics Europe, volume 4, no. 1, March 1996, p. 14

To control the migration of radioactive and hazardous wastes currently contained underground, barriers made of natural materials and man-made substances are constructed atop, and possibly around, the contaminated area. Barrier Technologies for Environmental Management provides a brief summary of the key issues that arose during the Workshop on Barriers for Long-Term Isolation. Recurring themes from the session include the importance of quality control during installation, followed by periodic inspection, maintenance, and monitoring, and documentation of installation and performance data. The book includes papers by the workshop presenters.

Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!
