"The authors carefully considered how to thoughtfully and meaningfully integrate data analytics into the financial accounting course, and are pleased to provide the following data analytics resources. **Data Analytics and Decision-Making** The text provides numerous discussions on how decision-makers are increasingly relying on data analytics to make decisions using accounting information. Accounting software systems collect vast amounts of data about a company's economic events as well as its suppliers and customers. Business decision-makers take advantage of this wealth of data by using data analytics to gain insights and therefore make more informed business decisions. Data analytics involves analyzing data, often employing both software and statistics, to draw inferences. As both data access and analytical software improve, the use of data analytics to support decisions is becoming increasingly common at virtually all types of companies"--

A prerequisite for good entrepreneurial management is an enterprising attitude on the part of the people involved. Productivity of an organization can only be improved with proper management. The influences of family, social institutions, governance and leadership also play a significant role in the management of an organization. Common managerial challenges such as competition, resource scarcity, shortage of power and capital, technology upgradation and cost of production require the attention of policy makers. Creating and developing an entrepreneurial mindset in people, would help an organization face all challenges to enhancing the life of a product in the marketplace. To motivate people and achieve growth, leaders are required to navigate both internal and external conflicts. Consequently, the role of entrepreneurial leadership and management becomes important for students as well as entrepreneurs. All these issues are dealt with in this volume on entrepreneurial management consisting of 14 papers, written by management professionals, faculty, research scholars, consultants and administrators.
