A Dragon Shifter Novel There are secrets that the humans must never find out. Secrets that would bring about the demise of the dragon species. The dragons have something that the humans want and would fight to get. Their weakness to silver is the one area that humans have exploited in the past, almost bringing the dragon species to their knees. New information has come to light proving that this affliction is an allergy. One that can potentially be beaten. Dr. Louise Parry is a top specialist in her field. She is also kind and compassionate, someone the dragons can trust. She is tasked with finding a cure. A job she does not take lightly. Thankfully, she has very little dealings with the bad-tempered king. There is something about him that has her heart beating faster and a flame of awareness igniting inside her. She can't understand why, since he's rude and abrasive. Granite wants a cure found. The sooner the better. He keeps a close eye on the whole project and moreover, on the little human spearheading the whole thing. Trust is not something that comes easily to him. If she thinks he'll allow himself to become blinded by her sweet demeanor and kissable lips, she's got another thing coming. Touching the female is off limits. Against every rule in the book. It's strictly forbidden. The Story Contains strong sexual themes/language and is not intended for readers under the age of 18.

Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon

or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

A neat chaos, an illusion where the main puppets are these seven billion people who populate the Earth, secretly guided by a small society named the Circle. This is Claire Baudin's world. The Baudins are one of the thirteen families that create the Circle, having a word to say in the way that the economy, politics or any development on the globe works or ever did. The Circle has always existed, like an image of God himself in the world; nobody knows how it started, not even Claire; everything is uncertain, covered in mystery. And just like the Circle, the Baudins have given generations after generations of men and women who have commanded over time the start of all the wars, the crisis, the historical periods. Everything was and still is their creation and they have obeyed the Circle's rule. Until now. Claire is an independent, twenty one year old girl who has just spread her wings and detached herself from her family, taking her sister with her and moving to the mansion bought for her by her grandfather. She, unlike all her whole family, is not ready to embrace the rules of her society. The way the world has been ruled without anyone knowing or approving it, the secrecy, the

hunger which was placed in some parts of the globe, while others have been fed with gold, everything is repulsive for her; but most of all, she hates the idea of being forced to marry someone from her group just so that the legacy could continue its destiny only inside the Circle. She hates the thought of creating a marriage based on interests and not on true love, a frequent thing among all the thirteen families. She is almost sure she is going to be an abstinent, this is the only possibility she sees so she can get a part of the freedom she mostly desires. Until she meets Antoine. He is a normal boy, hired by the Circle, who has the ambition of becoming a great doctor in attempt to find a cure for his ill mother. She hasn't noticed him until one day when she decides to be nice to him for the secret purpose of defying the Circle just a little bit more. But what will happen when he will intrude on her life and affect her judgment?

invaders. Yet the reach of the eagle banners was long and the highlanders turned to the Goddess for protection. However, the sacred groves felt silent and grim as Avalon faded away. Once sad, pealing bells began to sound strangely comforting while the high walls of monasteries offered an alluring barrier from violence. Caught in the middle of this centuries-old war, a young High Priestess might be Avalon's last chance. Wise beyond her years and powerful like no other Priestess in her lifetime, Rowen had served the Goddess faithfully, forsaking her family and the company of her soulmate. When the Lady of the Lake asks for another sacrifice, it might be one too many for her scarred heart. How could she obey the Goddess without betraying Caddaric? Could she trust Eochaid, who embodied everything she despised and hated? Would she be able to fulfill her duties without losing her soul? Caddaric had been Rowen's companion in countless lives; but, now, they existed in different realms. Beautiful Rowen lived in the mortal world while sweet Caddaric remained in the sacred isle of Avalon, watching over her. Could he step aside to allow another man - a flesh and blood man - to become her protector? Eochaid had sworn to protect the Old Ways. The rude warrior never quite understood his faith yet his loyal heart belonged to the Goddess. A gorgeous, fiery High Priestess was not in his plans. He would risk his life to protect Rowen; but, would the Goddess safeguard his heart? Could he defend the bewitching maiden from himself? When stakes were so high that a simple mistake could cost their very world, a priestess, a Druid, and a warrior must learn to trust one another and the mysterious ways of the Goddess. Their success would save Avalon. Their failure would tear the island from the human realm forever, condemning it to oblivion. Failure was not an option. This is a standalone, historical/paranormal romance. Its mature themes - sexual violence, religion, and pagan rituals - might not be appropriate for audiences under 18.

How I Beat Multiple Sclerosis” is the story of one woman's thirty year battle with multiple sclerosis and what she did to reclaim her life when she realized she would need an assisted living facility within a few years. The book contains detailed descriptions of what worked and what did not, where she got the help she needed (and how the reader can locate these resources within his/her own community), and the logic behind the non-conventional therapies. “Fighting the Dragon” is a narrative of courage—courage driven by desperation, a story written by a patient who decided, when her neurologist told her, “You will never walk normally again,” that she would dance. "Fighting the Dragon" is also a book the MS patient can take to his/her physician . . . it contains well-researched, easy-to-follow guidelines for what to do and how. The information is also applicable to a wide range of other autoimmune conditions, cancers, and AIDS. * * * * * Excerpt: . . . if your car kept breaking down and the mechanic you took it to kept doing the same thing to fix it—but it did not stay fixed, you would question the mechanic's competence. Maybe the mechanic pulled out a technical manual. “See. I fixed it exactly as the manual said. This is the industry-approved way to solve this problem.” When the car broke down again a week later, would you be satisfied? Probably not. You might decide it is time to replace the car. But that might be too expensive. So, what to do? If you were smart, you would probably try to find a new mechanic. You might ask your friends who they would recommend. You might search on the Internet to see if other people had the same experience with their cars . . . and what caused the problem. You might telephone some repair shops to get some idea of what they thought the problem might be. If you found a new mechanic and that mechanic looked over the car and said, “I have a solution that is not in any industry-approved repair manuals, but it is safe and it works,”—would you walk away and go back to the first mechanic who never got it right? Why is your health worth any less than your car?
