"Physical geography deals with the spatial and temporal characteristics and relationships of all phenomena within the physical environment of the earth. A systematic study of physical geography is of immense help in understanding the numerous environmental challenges of the contemporary period. Earth is a place of great physical and cultural diversity, yet people know little about it. The book is aimed to explain the spatial dimensions of the earth's natural systems and their processes. The chapters of this thoroughly revised and updated third edition of the bestselling introductory reader have been organised in a logical sequence well suited to the curriculum of established physical geography courses. The text includes many special features that are intended to enhance and clarify students' understanding and mastery of the material. Throughout, the scientific ideas and processes are explained in a simple manner supported by a range of illustrative material including maps, diagrams and photographs. The book will be an essential resource for students and teachers, and for anyone wishes to acquire more knowledge about the physical aspects and the processes responsible for various orders of the earth."

The term Human Geography has been defined as the 'synthetic study of the relationship between human societies and the environment'. since 1980s, Human Geography widened to become an omnibus term, describing all those parts of geography which are not solely concerned either with the physical environment or with the technical issues dealt with under geography sub-fields such as cartography. The broad sub-fields of human geography are: Cultural Geography, Economic Geography, Historical Geography, Political Geography, Regional Geography, Social Geography,

Agricultural Geography, Industrial Geography, Urban Geography, Transport Geography, Medical Geography and Geography of Gender. The present book has been organized in three parts. The first part deals with the themes and fundamentals of Human Geography, and the spatial distribution and regional trends of world population. Part two analyzes the patterns of unity and diversity, patterns of development and human settlements including the functional organization of rural and urban settlements. Part three presents a concise account of the aboriginals and indigenous peoples termed as the 'first people'. The indigenous peoples are numerous. living in diverse geo-ecological settings. They are strikingly and distinctly diverse in their culture, belief, religion and social and economic organizations. This part of the book systematically describes the salient aspects of the ways of life of some of typical indigenous peoples of the world.

Written in a logical, cogent and convincing style, the principles of brevity and clarity have been followed all through the book.

Combining informative text with a wealth of latest data, maps and illustrations, this attempt offers a comprehensive coverage of almost all the countries of the world in a single volume. It is hoped that this compact, yet wide-ranging, account will be of immense help to the students and teachers alike.

India's struggle for Independence by Bipin Chandra is your go to book for an in-depth and detailed overview on Indian independence movement . Indian freedom struggle is one of the most important parts of its history. A lot has been written and said about it, but there still remains a gap. Rarely do we get to hear accounts of the independence from the entire country and not just one region at one place. This book fits in perfectly in this gap and also provides a narration on the impact this movement had on the people. Bipin Chandra's book is a well-documented history of India's freedom struggle against the British rule. It is one of the most accurate books which have been painstakingly written after thorough research based on legal and valid verbal and written sources. It maps the first war of independence that started with Mangal Pandey's mutiny and witnessed the gallant effort of Sri Rani Laxmi Bai. Many of the pages of this book are dedicated to Mahatma Gandhi's non-cooperation and the civil disobedience movements. It contains detailed description of Subash Chandra Bose's weapon heavy tactics and his charisma. This book includes all the independence movements and fights, irrespective of their size and impact, covering India in its entirety. Although these movements varied in means and ideas, but they shared a common goal of independence. This book contains oral and written narratives from different parts of the country, making this book historically rich and diverse. The book captures the evolution of Indian independence struggle in full detail and leaves no chapter of this story untouched. This book is a good read for the students of Indian modern history

and especially for students who are preparing for UPSC examination and have taken History as their subject. "Human Geography, which now runs into the third edition, is a core textbook for geography students at the university level. It is mainly designed to introduce the discipline to the students in a social science perspective. The book covers the wide canvas of Human Geography covering the cultural, historical, political, regional, social, urban and economic aspects of it. The text has been written in a lucid, cogent and convincing style, documented with interesting maps and diagrams and illustrated with apt and appropriate examples from both developed as well as developing regions of the world. This edition contains a wealth of new material and latest data to ensure that it remains an unparalleled resource for the new generation of students and teachers."
