Enemies become lovers in a divided Scotland in this “marvelous tale” of history and passion (Diana Gabaldon). From birth, Catriona Campbell and Alasdair Og MacDonald are enemies—for he is the second son of her clan’s most powerful foe. Yet from the moment they meet, they know they will lie in each other’s arms someday. Their love, though centuries forbidden, comes at the most dangerous of times, as they become pawns of war . . . and of history. For rebellion has been stirring, and under the orders of King William III, a bloody price will be paid at Glencoe . . . This “stirring” love story set against the backdrop of a notorious massacre is “well worth a Highland journey” (Kirkus Reviews).

“Roberson’s world of 17th-century Scotland is atmospherically real.” —Publishers Weekly

Bigmamma Didn't Shop at Woolworth's. Not just because things cost more there than from the hawker who drove through the Candy Hill neighborhood from time to time, but because in the 1950s black shoppers were not very welcome in white Texas towns like Bryan. Sunny Nash was Bigmamma's granddaughter, and through her young eyes she saw not only the indignities and economic hardships her family and friends suffered - unpaved roads, mosquito-infested drainage ditches and outdoor toilets, back stairs to balcony seating in the movies - but also the love and warmth of everyday life in the segregated neighborhood. In the tradition of To Kill a Mockingbird, yet more stirring because of its real-life perspective, she tells her story of a time before the civil rights movement of the 1960s with immediacy and poignancy.

Classic Books Library presents this brand new edition of the short story, "An Occurrence at Owl Creek Bridge" (1890) by Ambrose Bierce. In this text Bierce creatively uses both structure and content to explore the concept of time, from present to past, and reflecting its transitional and illusive qualities. The story is one of Bierce's most popular and acclaimed works, alongside "The Devil's Dictionary" (1911). Bierce (1842-c. 1914) was an American writer, journalist and Civil War veteran associated with the realism literary movement. His writing is noted for its cynical, brooding tones and structural precision.

Clan, King and Covenant explores the turbulent history of the Highlands during the seventeenth century. The signing of the National Covenant in 1638 first challenged the powers of Charles I in Scotland, but it was only when Alisdair MacDonald joined Montrose in raising the Royalist clans that the country erupted into civil war. Central to the conflict was the ancient enmity between the MacDonalds and the Campbells, Earls of Argyll, as clan Donald attempted to reclaim their ancestral lands in Argyll. There followed a whirlwind year of spectacular victories for Montrose in the name of the King as the Highland clans emerged upon the national stage, before his campaign subsided into eventual defeat. However it was only after the Restoration of Charles II that a bitter and protracted struggle broke out between Church and Crown, after Bishops were reappointed to the national Church. Political and religious tensions mounted with the accession of James VII of Scotland (James II of England) as a Catholic king ruling over a predominantly Presbyterian people. It reached a climax in the outbreak of the Highland War, when Viscount Dundee won a devastating victory at Killiecrankie on behalf of James VII over the Presbyterian forces of Lowland Scotland, but at the cost of his own life. Subsequently the Crown imposed an uneasy peace upon the Highlands, after the cold-blooded plotting of 'murder under trust' culminated in the Glencoe Massacre. Condoned by William of Orange, few events in the blood-stained history of the Highland clans have quite the dreadful resonance of this act, carried out cynically as a matter of public policy.
