During the dark days of World War II, forty-one individuals from Ganson Street in the industrialized Western New York city of North Tonawanda left all that was dear to battle the domination of the Axis forces. The Ganson Street Tigers bonded on the streets of an immigrant neighborhood during the Great Depression and their camaraderie was cemented forever on the ball diamonds and sandlots of their youth. This is their story, from the heart of Little Italy to the raging battlefields

I wish someone else had written this book, but no one has. It may be ironic that I entered the public schools as a teacher and a coach in the same year (1959) that C. P. Snow wrote *The Two Cultures*. I certainly did not perceive the two roles as

being in conflict, nor did I see them in that sense for much of the twenty-five years I served as high school principal. As a coach, I won a state championship (1961 Massachusetts High School Ice Hockey Championship); and as a principal, I was named Administrator of the Year (1971–72) by the National Association of School Counselors. During my time in the public schools, I did many of the things I will argue in this book should not be done. —From the author's preface

In the past there have been a series of attacks on white and Asian women in a local neighborhood, and the police was under pressure to solve the cases. Tyrone Briggs was charged with aggravated assault in the crimes. Tyrone Briggs was a 19 year old high school basketball star who, at the time of the crimes, was living in the Yesler Terrace. Since the attacks had all happened in the same area, during the same early morning hours, they were considered the work of a serial attacker. Because of the close proximity of the attacks to the hospital, they became known jointly as the "Harborview Rape Case." Harborview Medical Center was next to a public housing project "The Yesler Terrace" run by the city. Tyrone Briggs had lived in Yesler Terrace with his parents, brothers, and sister for about a dozen years and was living there at the time of the attacks. Hundreds of young black men lived there, and the police were picking up those between the

ages of fourteen and thirty for questioning. A police stakeout was conducted in the neighborhood to try to catch the assailant during this time. The general description given by the witnesses (most of whom were the victims of the assaults) at the time of the attacks describe a man who did not fit the descriptions of Tyrone Briggs, and the police officers had no reason to detain him. When the trial began the prosecutor seemed adamant that Tyrone Briggs was the attacker of those women. The frustrating injustice of the whole case made the Briggs family blood boil. Joanne Spencer couldn't imagine how it felt to be Tyrone Briggs, star high school basketball player now locked up in prison for something he didn't do.

This book gives biblical guidance on playing, watching, and discussing sports in a God-glorifying manner, helping believers grow in both their love for God and their passion for holiness. Scripture calls Christians to do everything for the glory of God. That means every thought, every word, and every deed are to be done in a way that brings pleasure and honor to him. Believe it or not, this includes playing, watching, and talking sports! But most of us fail to recognize how sports fit into the big picture of a God-glorifying life, unable to imagine that the God who created the universe might actually care about Little League games and Monday Night Football. So how do we play, watch, and talk sports for God's glory? *Game Day for the Glory of God* seeks to answer that question from a biblical perspective. Sports fan Stephen Altrogge aims to help readers enjoy sports as a gift from God and to see sports as a means of growing in godliness.

Despite a global recession, Englishman Adam Goldstein felt 2008 was the perfect time to invest in his lifelong passion. So he sold his flat and left his job and girlfriend in London for American football. Goldstein's goal was to achieve what no other fan of American football has accomplished: to attend one live National Football League (NFL) game at every NFL stadium during the regular season, plus those played in London and Canada. He traveled over 65,000 miles to watch forty football games in eighteen weeks and to experience and understand the phenomenal appeal of that classic American pastime, the tailgate party. He drove from stadium to stadium, tailgate to tailgate, sometimes eight hundred miles a day, digesting everything that American football could serve up. He met players and extreme fans alike and was party to surreal pregame rituals while absorbing the rich cultural differences of each part of the country.

During his football odyssey—a grueling yet rewarding quest—he compared sports traditions and fandom in the United Kingdom and the United States. In the process of football self-discovery, Goldstein often found himself embraced by NFL fans across the continent, as if he had the key that unlocked the very meaning of life. *Tailgate to Heaven* is a humorous, moving, and inspiring story about how nothing closes a culture gap like love of a sport—and the camaraderie that comes with it.

Tall, powerful athletes surge toward the goal in the last seconds of a fiercely fought game, providing excitement to an arena full of basketball fans. Increasingly, challenging games like this are being played by women's college teams. With the passage of Title IX and the success of the WNBA (Women's National Basketball League), women's college teams have received more support and attention both from academic institutions and basketball fans. One of the primary reasons for the growing interest in women's college basketball is the dedication of the women who coach these student athletes to personal and athletic success. Women currently coach nearly 65 percent of the women's basketball teams in all divisions of the NCAA. Their commitment to their sport and to their athletes has resulted in a game and a generation of athletes unlike any other. This analysis of the role of women coaches in college basketball provides a detailed history of women's involvement in college sports, as well as insights into the work of the great women coaches of the past and present, all highlighted through interviews with some of the most important women coaches of today.

In October 1960, Omaha Central and Creighton Prep met for what many Nebraskans consider the greatest high school football game ever played. Future NFL Hall of Famer Gale Sayers scored seventy points while leading Central's powerful offense through its first four games. Prep's strong defense, on the other hand, allowed only twenty points all season. Legendary coaches patrolled both sidelines, and Prep was aiming for its third straight state championship. The stage was set for a Friday-night showdown. Fifteen thousand fans packed into Omaha's Municipal Stadium to watch the early season championship clash. Stubborn defenses ensured parity. Back and forth the teams battled, mired around the 50-yard line, punt after punt soaring into the sky. With no overtime to settle things and the defenses holding fast, the game ended in a scoreless tie. When both teams won their remaining games, they shared the state title that year. *Scoreless* retells the details of this legendary game, the buildup to it, and the story behind the teams and their renowned coaches and players. lacrosse team to postpone exams to attend the playoffs. The University of Michigan loses \$2.8 million on athletics despite averaging 110,000 fans at each home football game. Schools across the country struggle with the tradeoffs involved with recruiting athletes and updating facilities for dozens of varsity sports. Does increasing intensification of college sports support or detract from higher education's core mission? James Shulman and William Bowen introduce facts into a terrain overrun by emotions and enduring myths. Using the same database that informed *The Shape of the River*, the authors analyze data on 90,000 students who attended thirty selective colleges and universities in the 1950s, 1970s, and 1990s. Drawing also on historical research and new information on giving and spending, the authors demonstrate how athletics influence the class composition and campus ethos of selective schools, as well as the messages that these institutions send to prospective students, their parents, and society at large. Shulman and Bowen show that athletic programs raise even more difficult questions of educational policy for small private colleges and highly selective universities than they do for big-time scholarship-granting schools. They discover that today's athletes, more so than their predecessors, enter college less academically well-prepared and with different goals and values than their classmates--differences that lead to different lives. They reveal that

gender equity efforts have wrought large, sometimes unanticipated changes. And they show that the alumni appetite for winning teams is not--as schools often assume--insatiable. If a culprit emerges, it is the unquestioned spread of a changed athletic culture through the emulation of highly publicized teams by low-profile sports, of men's programs by women's, and of athletic powerhouses by small colleges. Shulman and Bowen celebrate the benefits of collegiate sports, while identifying the subtle ways in which athletic intensification can pull even prestigious institutions from their missions. By examining how athletes and other graduates view The Game of Life--and how colleges shape society's view of what its rules should be--Bowen and Shulman go far beyond sports. They tell us about higher education today: the ways in which colleges set policies, reinforce or neglect their core mission, and send signals about what matters.

Focusing on issues of equity and opportunity in one urban high school, the book reveals how prominent American cultural values--in particular, students', teachers', and administrators' conceptions of educational opportunity--undermined the education that students received.

You remember Wild, the somewhat spiritual memoir about the author's amazing trek and heart-breaking backstory, right? This isn't that. Although there is some wandering around that leads to recovery and redemption. And hiking did happen along the way. This could be A Million Little Pieces, but it's not. This story is actually all true. Might even be Mommy Dearest, but thankfully, it's not even close. For this story is told with heart and sensitivity. In fact, Walker is really about one woman's spiritual journey to open her heart and develop compassion. Through it all, her own gumption would be her steady companion. The title of Walker evolved from a line in a poem: "There is no road, walker, you make the road by walking." This phrase captures the narrative of Jill Loree's life on many levels. From Proverbs and Tiny Songs You walking, your footsteps are the road, and nothing else; there is no road, walker, you make the road by walking. By walking you make the road, and when you look backward, you see the path that you never will step on again. Walker, there is no road, Only wind-trails in the sea. – By Antonio Machado (1875–1939), translated by Robert Bly It starts out with a young girl raised in a singing Lutheran family where things looked good on the

outside. But inside, Jill Loree was struggling. Later, she would “trudge the dreary road of destiny,” as the AA Big Book puts it, getting sober at 26 and picking up only one white chip. That’s not nothing, considering that most of Jill Loree’s childhood memories are infused with her father’s drinking. Her mother, on the other hand, had a controlling, co-dependent streak that wouldn’t end. Sounds dreary indeed, right? In her spiritual memoir however, Jill Loree artfully lifts the story out of the ditch and finds the grace weaving between the lines. Walker also merges in a touch of poetry—her own, her sons’ and even her Dad’s—adding heart, depth and levity to the telling. Her gentle wit and brisk writing pace keeps things moving along. True to the title, there’s no need to sit and stew in misery. Yes, hard things happened along the way, but there was also delight. Jill Loree was a working mom who bumped up against a few bricks but managed to flow around most of them. In the end, her career in advertising and the corporate world would prove both challenging and rewarding; her role as a mother would both exhaust and fulfill her. Practically from the get-go, a spiritual message gets laid down, and it grows sturdier as the journey unfolds. From a youth spent singing in a church choir, through those atheistic years of alcoholism, and onto the great discovery of a transformational path called Pathwork, her spiritual life has been a tenacious wildflower that keeps blooming with each new season, and

thriving. Today, Jill Loree's spiritual path is filled with the light of Christ, which is what she has discovered emerges from the core of one's being after clearing away the detritus accumulated in youth. Just as the Pathwork Guide said it would. That's the deeper message she is now passionate about sharing, and which shines through in this warm telling of the story of her life.

*A Century of Orange and Blue* is just that an in-depth look at the history of one of the Big Ten's premiere basketball programs. The University of Illinois' basketball roots date back to 1901, when the idea of men's basketball was introduced to UI director of athletics George Huff during a scrimmage at the Men's Old Gym. By 1906 a varsity basketball team was in place under the direction of Leo Hana and coach Elwood Brown. That team defeated Champaign High School, 71-4, on Jan. 6, 1906, before losing to more formidable college teams in Purdue and Indiana. Some 100 years later, the Fighting Illini have hoisted 15 Big Ten championship banners and sent four teams to the Final Four in search of a NCAA championship. From the Whiz Kids of '42 to the Flyin' Illini of '89 to the Big Ten champs of '04, *A Century of Orange and Blue* is full of fond memories of fantastic teams, recounted by authors Loren Tate and Jared Gelfond and the amazing players and coaches that put Illini basketball on the national map.
