Learn how to take professional-quality photographs using the same tricks today's top photographers use (surprisingly, it's easier than you'd think)!

This is a completely, totally updated version of the #1 best-selling digital photography book of all time! It's the award winning, worldwide smash hit, written by Scott Kelby, that's been translated into dozens of different languages.

Here's how Scott describes this book's brilliant premise: "If you and I were out on a shoot, and you asked me, 'Hey, how do I get this flower to be in focus, with the background out of focus?,' I wouldn't stand there and give you a photography lecture. In real life, I'd just say, 'Put on your zoom lens, set your f-stop to f/2.8, focus on the flower, and fire away.' That's what this book is all about: you and I out shooting where I answer questions, give you advice, and share the secrets I've learned just like I would with a friend—without all the technical explanations and techie photo speak."

This isn't a book of theory—full of confusing jargon and detailed concepts. This is a book on which button to push, which setting to use, and when to use it. With over 200 of the most closely guarded photographic “tricks of the trade,” this book gets you shooting dramatically better-looking, sharper, more colorful, more professional-looking photos every time.

Each page covers a single concept that makes your photography better. Every time you turn the page, you'll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you're tired of taking shots that look “okay,” and if you're tired of looking in photography magazines and thinking, “Why don't my shots look like that?” then this is the book for you.

Stereotypical representations of the Mezzogiorno are a persistent feature of Italian culture at all levels. John Dickie analyzes these stereotypes in the post Unification period, when the Mezzogiorno was widely seen as barbaric, violent or irrational, an "Africa" on the European continent.

A coverage of the Transputer Development System (TDS), an integrated programming environment which facilitates the programming of transputer

networks in OCCAM. The book explains transputer architecture and the OCCAM programming model and incorporates a TDS user guide and reference manual. While providing many accounts of near-death experiences (NDEs) from men, women, and children of all ages and backgrounds, Lessons from the Light is much more than just an inspiring collection of NDEs. In Lessons near-death expert Kenneth Ring extracts the pure gold of the NDE and with a beautiful balance of sound research and human insight reveals the practical wisdom held within these experiences. As Stanley Krippner states, "In this remarkable book, Ring presents evidence that merely learning about the near-death experience has similar positive effects to those reported by people who actually have had near-death experiences. Kenneth Ring is one of the few authors whose gifts include the capacity to transform their readers' lives."

"Part I addresses the idea itself and considers its ramifications. Richard I. Cohen focuses on the nexus between notions of 'Jewish contribution' and those of

'Jewish superiority', David N. Myers shifts the focus from 'contribution' to 'civilization', arguing that the latter term often served the interests of Jewish intellectuals far better, and Moshe Rosman shows how the current emphasis on multiculturalism has given the idea of a 'Jewish contribution' new life. Part II turns to the relationship between Judaism and other monotheistic cultures. Elliott Horowitz's essay on the sabbath serves as an instructive test-case for the dynamic and complexity of the 'contribution' debate and a pointer to more general, theoretical issues.

Iris Au and Jack Parkinson of the University of Toronto, Scarborough have "Canadianized" the Macroeconomics section of Krugman/Wells, Economics, Third Edition, maintaining the structure and spirit of the U.S. version but adapting it to reflect Canadian macroeconomic policies and to appeal more directly to Canadian instructors and students. In almost every instance, U.S. data sets, cases, research, and policy discussions have been supplanted by Canadian material.
