Even the most well designed boats will suffer from wear and tear due to normal use on the water. Whilst accidents are less common, they too can result in damage which needs to be repaired on the spot. Highly illustrated, with step by step instructions, this book equips the reader with the vital 'first aid' skills he needs to make temporary repairs until he can get back to harbour. The Boat Repair Bible helps anyone who owns a boat to develop essential repair skills in the areas where problems most commonly arise. The section on hull and deck repairs covers fibreglass, wood, steel and ferro-cement hulls, and shows the reader how to deal with everything from leaks to impact damage, and much, much more. This section also covers domestic repairs, such as repairing upholstery, and troubleshooting problems with the heads. Amongst the many other techniques described, the section on general mechanics includes instructions on how to fix problems with a split fuel/water tank and leaking hydraulics, whilst the section on electrical repairs explains how to trace loose connections, replace damaged wiring and fix navigation instruments. The myriad of issues that can arise with the engine are covered in great detail, from how to deal with water in the fuel system to replacing the propeller and its shaft. From basic skills in safety, surveying and the use of tools, to advanced instructions on how to replace an engine, The Boat Repair Bible is as comprehensive as it is invaluable. With repairs specific to powerboats, sailboats, dinghies and outboards, it is a book no boat owner can afford not to own.

Ribbon of Love is a beautiful romantic story of colonial America woven within the framework of history. Because so much

of the story is based on actual people and events from the Eastern Shore of Virginia, it is like the print version of a docudrama. "Faced with possible torture for their religious beliefs, Henry and Mary Pattenden flee 17th century England, experience a perilous trip across the Atlantic only to arrive on the barbaric shores of pre-Revolutionary War America where they endure further hardships in the colonial and primitive days of America with Indian massacres, illness, death, loneliness, love and greed to practice their Christian faith in this historical novel."

The Darwin Elasmobranch Biodiversity Conservation and Management project in Sabah held a three-day international seminar that included a one-day workshop in order to highlight freshwater and coastal elasmobranch conservation issues in the region and worldwide, to disseminate the result of the project to other Malaysian states and countries, and to raise awareness of the importance of considering aspects of elasmobranch biodiversity in the context of nature conservation, commercial fisheries management, and for subsistence fishing communities. These proceedings contain numerous peer-reviewed papers originally presented at the seminar, which cover a wide range of topics, with particular reference to species from freshwater and estuarine habitats. The workshop served to develop recommendations concerning the future prospects of elasmobranch fisheries, biodiversity, conservation and management. This paper records those conclusions, which highlight the importance of elasmobranchs as top marine predators and keystone species, noting that permanent damage to shark and ray populations are likely to have serious and unexpected negative consequences for commercial and subsistence yields of other important fish stocks.

The second is connected to the Internet through an encrypted connection...and no-one knows who's on the other end. Special Agent Allison McNeil is asked by beleaguered FBI Director Clarence Mason to run an off-the-record investigation of the murder because of the murder's similarity to a case she worked a year earlier. Allison knows the most direct path to apprehending the killer is to find the videos, but the rumors that the victim's client list may have included Mason's political enemies has her worried about the director's motives. As she starts her investigation, she quickly discovers that she's not the only one pursuing the videos. In fact, the most aggressive person racing against her might be the murderer himself.
