Substance Abuse Assessment and Diagnosis includes practical nuts and bolts direction on how to facilitate a thorough, multi-tiered substance abuse assessment.

While there is a growing body of research on the children of battered women, there remains little practical information on the subject of intervention with these at-risk children. This book remedies the situation; providing insight to this varied and complex area, it overviews current practices and strategies and highlights recent innovations in the field. The topics examined by the contributors include: shelters; domestic counselling; child protection services; the criminal justice system; and violence prevention and education in schools and communities.

Transgender people have unique needs and vulnerabilities in the family law context. Any family law attorney engaged in representing transgender clients must know the ins and outs of this rapidly developing area of law. *Transgender Family Law: A Guide to Effective Advocacy* is the first book to comprehensively address legal issues facing transgender people in the family law context and provide practitioners the tools to effectively represent transgender clients. The chapters address a broad range of topics, including: Culturally Competent Representation, Recognition of Name and Sex, Relationship Recognition and Protections, Protecting Parental Rights, Relationship Dissolution, Parental Rights after Relationship Dissolution, Custody Disputes Involving Transgender Children, Protections for Transgender Youth, Intimate Partner Violence, Estate Planning and Elder Law. Written by attorneys with expertise in both family law and advocacy for transgender clients, including: Kylar W. Broadus, Patience Crozier, Benjamin L. Jerner, Michelle B. LaPointe, Jennifer L. Levi, Morgan Lynn, Shannon Price Minter, Elizabeth E. Monnin-Browder, Zack M. Paakkonen, Terra Slavin, Wayne A. Thomas Jr., Deborah H. Wald, and Janson Wu, *Transgender Family Law* is a must-have, practical guide for attorneys interested in becoming effective advocates for their clients. It is also a valuable resource to consult for any transgender person who is forming, expanding, or dissolving a family relationship. This text gives instructors and students a structured format for teaching and learning ethics and standards of practice for massage therapy. Discussion topics include core industry standards of practice, laws, morals, rules, and regulations. It is an ideal textbook for ethics courses in massage therapy programs and prepares students for the ethics questions on the National Certification Exam. The book guides students through the process of putting ethical standards into practice, and explains what is expected of them in a professional setting. Role-playing exercises and example scenarios prepare students for situations and dilemmas that arise in practice.

This volume focuses on breaking ground with family coaching, presenting theory, research and practical guidelines for researchers, educators and practitioners. Readers will discover a theoretical overview of coaching psychology and family science, accessibly presented research and models of family coaching and family life education. The insight this book provides into family systems and practical information on coaching families will be valuable to youth coaches, parent coaches, life coaches and counsellors, amongst others. The book explores specific strategies for coaching parents, couples, and families on relationships, parenting special needs, and much more. Each chapter offers a theoretical base as well as applied guidance including case studies, powerful questions, and tips from experienced family coaches. Whether you are a family therapist, a coaching psychologist, or a family life professional that serves children and families, this book is ideal for gaining a better understanding of how to coach families toward positive family functioning. Dr. Kim Allen delivers an engaging and reflective book offering a comprehensive guide for those interested in becoming a family coach.

Christiane Brems, in collaboration with new coauthor Christina Rasmussen, introduces prospective and practicing clinicians to theories and principles of applied clinical work with children ages three to twelve years. The authors take an integrated approach to understanding children and their families, using a biopsychosociocultural model for conceptualization and treatment planning. Their methods are practical and compassionate, as well as contextually grounded and individually tailored. Chapters follow the logical development of clinicians, mirroring the natural flow of work with children. Coverage ranges from the importance of a beginning practitioner's introspection and of ethical and legal issues to a variety of intervention techniques and strategies and, finally, termination. Case studies showcase individualized and mindful treatment for each child with whom a clinician works. Outstanding Features of the Fourth Edition Essential attention to how clinicians' self-awareness can lead to positive therapeutic relationships with children and their families. . Thorough discussions of the biopsychosociocultural model for conceptualization and treatment planning. . Emphasis on intensive assessment prior to treatment planning to address the needs of each child and family. . A compelling, practical exploration of mindfulness intervention with children. The authors' methodology addresses the profound effects of the larger environment and culture on children. By adopting the authors' integrated approach, clinicians are better able to understand important and complicated aspects of a child's and family's life. From there, compassionate, thoughtful, and relevant intervention ensues.

Foundations of Counseling and Psychotherapy provides an overview of the most prevalent theories of counseling within the context of a scientific model that is both practical and up-to-date. A comprehensive guide to the alternative sociology originating in the work of Dorothy E. Smith, this Handbook not only explores the basic, founding principles of institutional ethnography (IE), but also captures current developments, approaches, and debates. Now widely known as a "sociology for people," IE offers the tools to uncover the social relations shaping the everyday world in which we live and is utilized by scholars and social activists in sociology and beyond, including such fields as education, nursing, social work, linguistics, health and medical care, environmental studies, and other social-service related fields. Covering the theoretical and methodological underpinnings of IE, recent developments, and current areas of research and application that have yet to appear in the literature, The Palgrave Handbook of Institutional Ethnography is suitable for both experienced practitioners of institutional ethnography and those who are exploring this approach for the first time.

Involving parents in a child's play therapy results in therapy that is more productive for the child and more fulfilling and effective for the parents and therapist. Yet, encouraging parental involvement can be riddled with practical and theoretical concerns for beginning therapists and seasoned practitioners alike. Linking Parents to Play Therapy is a practical guide containing information for play therapists, including coverage of legal and medical issues, pragmatic assignments for parents, guidelines for working with angry or resistant parents, a listing of state protective and advocacy agencies, and tips for working with managed care. Numerous case examples, professional forms, and a parenting guide facilitate application of the concepts.

Now available in paper for the first time, this volume brings together leading contributors to provide a comprehensive review of theory, research, and practice in child and adolescent personality assessment. Organized for easy reference, the book is divided into four parts. Part I summarizes basic theories, issues, and concepts, setting forth a framework for assessment as a hypothesis-generating, problem-solving process. Part II describes and evaluates a wide range of relevant approaches, tests, and techniques, marshaling the available data and reviewing administration procedures, scoring, and interpretation. In Part III, the process by which personality assessment is translated into effective intervention strategies and programs for children is examined in depth. A summary of major perspectives and recommended practices is presented in Part IV, which also considers future needs and directions for the field.

Written for students who are just beginning to study human services, this practical, easy-to-read guide provides a nuts-and-bolts overview of the field as well as a glimpse of what students can expect as they continue their education and begin working in their profession.
