This publication contains the following four parts: A model Competent Authority Agreement (CAA) for the automatic exchange of CRS information; the Common Reporting Standard; the Commentaries on the CAA and the CRS; and the CRS XML Schema User Guide. The Mental Capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.

Are there any constraints known that bear on the ability to perform Agile Management for Software Engineering work? How is the team addressing them? In a project to restructure Agile Management for Software Engineering outcomes, which stakeholders would you involve? How much are sponsors, customers, partners, stakeholders involved in Agile Management for Software Engineering? In other words, what are the risks, if Agile Management for Software Engineering does not deliver successfully? How does the organization define, manage, and improve its Agile Management for Software Engineering processes? What are the business goals Agile Management for Software Engineering is aiming to achieve? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role... In EVERY company, organization and department. Unless you are talking a one-time, single-use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different way to look at it?' For more than twenty years, The Art of Service's Self-Assessments empower people who can do just that - whether their title is marketer, entrepreneur, manager, salesperson, consultant, business process manager, executive assistant, IT Manager, CxO etc... - they are the people who rule the future. They are people who watch the process as it happens, and ask the right questions to make the process work better. This book is for managers, advisors, consultants, specialists, professionals and anyone interested in Agile Management for Software Engineering assessment. All the tools you need to an in-depth Agile Management for Software Engineering Self-Assessment. Featuring 616 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which Agile Management for Software Engineering improvements can be made. In using the questions you will be better able to: - diagnose Agile Management for Software Engineering projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices - implement evidence-based best practice strategies aligned with overall goals - integrate recent advances in Agile Management for Software Engineering and process design strategies into practice according to best practice guidelines Using a Self-Assessment tool known as the Agile Management for Software Engineering Scorecard, you will develop a clear picture of which Agile Management for Software Engineering areas need attention. Included with your purchase of the book is the Agile Management for Software Engineering Self-Assessment downloadable resource, which contains all questions and Self-Assessment areas of this book in a

ready to use Excel dashboard, including the self-assessment, graphic insights, and project planning automation - all with examples to get you started with the assessment right away. Access instructions can be found in the book. You are free to use the Self-Assessment contents in your presentations and materials for customers without asking us - we are here to help.

The Bribery Act 2010 is the most significant reform of UK bribery law in a century. This critical analysis offers an explanation of the Act, makes comparisons with similar legislation in other jurisdictions and provides a critical commentary, from both a UK and a US perspective, on the collapse of the distinction between public and private sector bribery. Drawing on their academic and practical experience, the contributors also analyse the prospects for enforcement and the difficulties facing lawyers seeking asset recovery following the laundering of the proceeds of bribery. International perspectives are provided via comparisons with the law in Spain, Hong Kong, the USA and Italy, together with broader analysis of the application of the law in relation to EU anti-corruption initiatives, international development and the arms trade.

"This publication contains the 'Guiding Principles on Business and Human Rights: Implementing the United Nations Protect, Respect and Remedy Framework', which were developed by the Special Representative of the Secretary-General on the issue of human rights and transnational corporations and other business enterprises. The Special Representative annexed the Guiding Principles to his final report to the Human Rights Council (A/HRC/17/31), which also includes an introduction to the Guiding Principles and an overview of the process that led to their development. The Human Rights Council endorsed the Guiding Principles in its resolution 17/4 of 16 June 2011."--P. iv.

Exam board: International Baccalaureate Level: IB Diploma Subject: Biology First teaching: September 2014 First exams: Summer 2016 Aim for the best Internal Assessment grade with this year-round companion, full of advice and guidance from an experienced IB Diploma Biology teacher. - Build your skills for the Individual Investigation with prescribed practicals supported by detailed examiner advice, expert tips and common mistakes to avoid. - Improve your confidence by analysing and practicing the practical skills required, with comprehension checks throughout. - Prepare for the Internal Assessment report through exemplars, worked answers and commentary. - Navigate the IB requirements with clear, concise explanations including advice on assessment objectives and rules on academic honesty. - Develop fully rounded and responsible learning with explicit reference to the IB learner profile and ATLs.

The book highlights the major risks that securities analysts (and other securities professionals) face. The various laws, rules and regulations that securities analysts are subject to are broadly split into three categories: research-specific rules and regulations; market-wide laws; and society-wide laws and customs. The risks that arise out of these various levels of rules and regulations, insofar as research analysts and other securities professionals are concerned, include conflicts of interest, fair distribution/front-running of research, insider trading, spreading of rumours, not highlighting investment risks (including corporate governance issues), as well as defamation and copyright issues. We see that if an analyst puts a company in play, a regulator would instantly assume that the analyst is trading on inside information (especially if the information turns out to be true) or is spreading a rumour (especially if it turns out to be false). However, we also see that there is a third option – that the analyst might just have come to his or her conclusion through some good research based on verifiable facts and reasonable assumptions. Definitions of research from around the world are examined. After all, research is generally defined by its content, not by the author's job description. As such, non-Research securities professionals such as brokers and marketers of research as well as investors, journalists and even bloggers and twitterers need to understand what constitutes “research” so that they don't fall into the regulators' purview. As regards the risks to investment views that analysts need to highlight to their investors, the book not only examines economic and financial risks but also examines corporate governance issues such as executive compensation, equal treatment of shareholders, related-

party transactions and risk management. To demonstrate the risks that analysts, securities professionals and investors face, the book draws on many cases and examples from around the world, including many from the global financial crisis of 2007-2009. From these cases we see how penalties for those involved in the securities markets have become more serious over the years. They range from fines to imprisonment, and even to execution in some markets. To give a light-hearted angle, many of these cases are accompanied by "Alex" cartoons.

"This interpretive guide is designed to support the process of the effective implementation of the United Nations Guiding Principles on Business and Human Rights for implementing the "Protect, Respect and Remedy" framework. The guide focuses on the Guiding Principles that address the corporate responsibility to respect human rights. It was developed in full collaboration with the former Special Representative of the Secretary-General on the issue of human rights and transnational corporations and other business enterprises."--Provided by publisher.

This exam preparation guide provides extra support for students studying for their Business Management for the IB Diploma examination, for first teaching in 2014. Case studies and structured questions provide opportunities to practise and assess progress, which helps to build students' confidence. In addition, a focus on numeracy skills gives extra support with this particular aspect of the course. The resource encourages students to think critically and strategically about organisational behaviour. Answers to the exam preparation guide questions are online.

This work examines the unique way in which Benedict de Spinoza (1632–77) combines two significant philosophical principles: that real existence requires causal power and that geometrical objects display exceptionally clearly how things have properties in virtue of their essences. Valtteri Viljanen argues that underlying Spinoza's psychology and ethics is a compelling metaphysical theory according to which each and every genuine thing is an entity of power endowed with an internal structure akin to that of geometrical objects. This allows Spinoza to offer a theory of existence and of action - human and non-human alike - as dynamic striving that takes place with the same kind of necessity and intelligibility that pertain to geometry. Viljanen's fresh and original study will interest a wide range of readers in Spinoza studies and early modern philosophy more generally.

IB Prepared resources are developed directly with the IB to provide the most up-to-date, authentic and authoritative guidance on DP assessment. IB Prepared: Business Management combines a concise review of course content with strategic guidance, past paper material and exam-style practice opportunities, allowing learners to consolidate the knowledge and skills that are essential to success.

Henry David Thoreau built a log cabin in the Concord Forest in Massachusetts in 1845. Thoreau lived there for two years to try out an alternative to the hectic and economically successful everyday life. The reason: He wanted to consciously feel life in harmony with nature again. The minimalist lifestyle should create space and time for the essentials. Thoreau

kept a diary about his feelings and experiences during his time in the forest. This book arose from his notes. It deals with his everyday problems, with economic and philosophical considerations, with the feeling of loneliness, with the animals of the forest, with the seasons and with the reading of classical works.

Rewritten and redesigned in full-colour, A4 format, this new York Notes for GCSE edition of *An Inspector Calls* will help your students achieve the best possible grade. Written by GCSE examiners to give all students an expert understanding of the text and the exam, it includes:

- * An invaluable exam skills section with essay plans, sample answers and expert guidance on understanding the question so students will know exactly what they need to do to succeed.
- * A wealth of useful content including key quotes, checklists, study tips and short activities that will help students revise efficiently and remember everything they need to write the best answers.
- * The widest coverage with in-depth analysis of character, themes, language, context and style, all helping students to succeed in the exam by demonstrating how well they understand the text.

Originally termed "Industrial-Organizational Psychology (I/O)," practitioners of this specialty emanate from varying backgrounds in business-psychology related fields. Although it was one of the "original four" specialties of the American Board of Professional Psychology established in 1947, the domain of contemporary I/O professional practice can best be thought of as a "hybrid" across multiple traditions. For this volume in the series, Jay Thomas describes this particular hybrid model. The original board reflecting the specialty of I/O psychology (i.e., the American Board of Industrial and Organizational Psychology) within the greater organization of the American Board of Professional Psychology (which at the time of this writing encompasses 13 differing specialty boards in professional psychology), reconstituted itself in 2005 to be the "American Board of Organizational and Business Consulting (OBC) Psychology." This name change was made in order to best capture the notion that specialists in this area can be educated and trained (and practice) in related, but somewhat differing traditions. Readers interested in this specialty area within psychology will find this text invaluable as the most current description of the competencies thought important to help define the OBC psychologist. Series in Specialty Competencies in Professional Psychology Series Editors Arthur M. Nezu and Christine Maguth Nezu As the field of psychology continues to grow and new specialty areas emerge and achieve recognition, it has become increasingly important to define the standards of professional specialty practice. Developed and conceived in response to this need for practical guidelines, this series presents methods, strategies, and techniques for conducting day-to-day practice in any given psychology specialty. The topical volumes address best practices across the functional and foundational competencies that characterize the various psychology specialties, including clinical psychology, cognitive and behavioral psychology, school psychology, geropsychology, forensic psychology, clinical neuropsychology, couples

and family psychology, and more. Functional competencies include common practice activities like assessment and intervention, while foundational competencies represent core knowledge areas such as ethical and legal issues, cultural diversity, and professional identification. In addition to describing these competencies, each volume provides a definition, description, and development timeline of a particular specialty, including its essential and characteristic pattern of activities, as well as its distinctive and unique features. Written by recognized experts in their respective fields, volumes are comprehensive, up-to-date, and accessible. These volumes offer invaluable guidance to not only practicing mental health professionals, but those training for specialty practice as well.

An ideal reference guide to introducing the IB Diploma in your school.

A comprehensive second edition of Business Management for the IB Diploma, revised for first teaching in 2014. Designed for class use and independent study, this Coursebook is tailored to the thematic requirements and assessment objectives of the IB syllabus. It includes learning objectives and summaries; integrated Theory of Knowledge material; text in clear sections, following the IB syllabus structure and content specifications; clear, accessible English for students whose first language is not English; exam-style practice questions and a chapter on assessment and exam techniques. Written by two practising Business and Management teachers, Peter Stimpson and Alex Smith, it features the following topics: Business organisation and environment; Human resource management; Finance and accounts; Marketing; Operations management.

A theory of business enterprise and rivalry is developed from the assumption that decisions to undertake new ventures and readiness to take risks are related to fears of being hierarchically outranked.

A do-it-yourself guide to investing like the renowned Harvard and Yale endowments. The Ivy Portfolio shows step-by-step how to track and mimic the investment strategies of the highly successful Harvard and Yale endowments. Using the endowment Policy Portfolios as a guide, the authors illustrate how an investor can develop a strategic asset allocation using an ETF-based investment approach. The Ivy Portfolio also reveals a novel method for investors to reduce their risk through a tactical asset allocation strategy to protect them from bear markets. The book will also showcase a method to follow the smart money and piggyback the top hedge funds and their stock-picking abilities. With readable, straightforward advice, The Ivy Portfolio will show investors exactly how this can be accomplished—and allow them to achieve an unparalleled level of investment success in the process. With all of the uncertainty in the markets today, The Ivy Portfolio helps the reader answer the most often asked question in investing today - "What do I do"?

Business Management for the IB Diploma Coursebook Cambridge University Press

THE #1 SUNDAY TIMES BESTSELLER NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Times / Guardian / Telegraph / i News / The New York Times / Washington Post / NPR / Marie Claire A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy 'Gorgeously written, humorous, compelling,

life affirming' Justin Webb, Mail on Sunday In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of "hope and change," and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day. 'What is unexpected in *A Promised Land* is the former president's candour' David Olusoga, Observer

Although sustainability efforts in business are still a work in progress, it is increasingly clear that key elements of a new generation of enterprises will be radically different from those of our contemporary modern industrial economy. The core distinctions between what currently exists and what is being created are communicated in this book through the compelling metaphor of Ants, Galileo, and Gandhi. This collection, developed from The Natural Step's conference on Sustainability and Innovation in 2002, provides radical ideas for generating a new perspective on the dynamics of business systems. "Ants" symbolise the lessons to be learned from nature and the dependence of individual beings on broader, complex systems. "Galileo" embodies brilliance in perceiving and proving that the current paradigm is flawed. 'Gandhi' exemplifies exceptional compassion in fighting for fundamental change. All of these attributes are increasingly relevant in a world where, globally, we are experiencing both a steady decline in life-supporting resources and rising demands. Recognition of these challenges is sparking innovation within the private sector where the first glimmers of systemic change can be seen. The book examines the emergence of 21st-century enterprises that recognise their

reliance on broad social and ecological systems ("ants"), incorporate sparks of genius rooted in rigorous analyses ("Galileo"), and acknowledge the importance of compassion and determination within any endeavour ("Gandhi"). With contributions from Ray Anderson, Gretchen Daily, Karl-Henrik Rob

Support students through the Internal Assessment with advice and guidance including how to choose a topic, approach the investigation and analyse and evaluate results. - Build investigative and analytical skills through a range of strategies and detailed examiner advice and expert tips - Ensure understanding of all IB requirements with clear, concise explanations on the assessment objectives and rules on academic honesty, as well as explicit reference to the IB Learner Profile and ATLS throughout - Encourage students to achieve the best grade with advice and tips, including common mistakes to avoid, exemplars, worked answers and commentary, helping students to see the application of facts, principles and concepts - Reinforce comprehension of the skills with activity questions - Support visual learners with infographics at the start of every chapter

'A real-life thriller, a page-turner, a deeply shocking dissection of avarice and calculated callousness. We knew some of this story; it turns out we didn't know the half of it. Exhaustively researched and written with grace and gravity, Empire of Pain unpeels a most terrible American scandal. You feel almost guilty for enjoying it so much.' Melanie Reid, The Times The gripping and shocking story of three generations of the Sackler family and their roles in the stories of Valium and Oxycontin, by the prize-winning, bestselling author of Say Nothing. The Sackler name adorns the walls of many storied institutions – Harvard; the Metropolitan Museum of Art; Oxford; the Louvre. They are one of the richest families in the world, known for their lavish donations in the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing Oxycontin, a blockbuster painkiller that was a catalyst for the opioid crisis-an international epidemic of drug addiction which has killed nearly half a million people. In this masterpiece of narrative reporting and writing, Patrick Radden Keefe exhaustively documents the jaw-dropping and ferociously compelling reality. Empire of Pain is the story of a dynasty: a parable of 21st century greed.

What does it mean to be yourself at work? As a leader, how do you strike the right balance between vulnerability and authority? This book explains the role of authenticity in emotionally intelligent leadership. You'll learn how to discover your authentic self,

when emotional responses are appropriate, how conforming to specific standards can hurt you, and when you need to feel like a fake. This volume includes the work of: Bill George Herminia Ibarra Rob Goffee Gareth Jones This collection of articles includes: "Discovering Your Authentic Leadership" by Bill George, Peter Sims, Andrew N. McLean, and Diana Mayer; "The Authenticity Paradox" by Herminia Ibarra; "What Bosses Gain by Being Vulnerable" by Emma Seppala; "Practice Tough Empathy" by Rob Goffee and Gareth Jones; "Cracking the Code That Stalls People of Color" by Sylvia Ann Hewitt; "For a Corporate Apology to Work, the CEO Should Look Sad" by Sarah Green Carmichael; and "Are Leaders Getting Too Emotional?" an interview with Gautam Mukunda and Gianpiero Petriglieri by Adi Ignatius and Sarah Green Carmichael. How to be human at work. The HBR Emotional Intelligence Series features smart, essential reading on the human side of professional life from the pages of Harvard Business Review. Each book in the series offers proven research showing how our emotions impact our work lives, practical advice for managing difficult people and situations, and inspiring essays on what it means to tend to our emotional well-being at work. Uplifting and practical, these books describe the social skills that are critical for ambitious professionals to master.

For the students and teachers of Business Management in IB Diploma, Guide To 7 Points would simplify the nuances of the highly dynamic task of Internal Assessment. Much of the intricacies that the Research Report and the Commentary involve will now be handy through a step-by-step approach, through the chapters. The students would get a head start for self-guided planning. The external intervention required in the research process will be reduced. The teachers would find it befitting to guide the students. When you've read this book, you will understand: ? How and where to start the Research Project/Commentary from ? The demands of the key Assessment Criteria ? How to ace every criterion-the easy way ? The Do's and Don'ts that matter to reach the highest mark bands ? The major recommendations from the IB IA moderators to follow

Aim for the best Internal Assessment grade with this year-round companion, full of advice and guidance from an experienced IB Diploma Chemistry teacher. - Build your skills for the Individual Investigation with prescribed practicals supported by detailed examiner advice, expert tips and common mistakes to avoid. - Improve your confidence by analysing and practicing the practical skills required, with comprehension checks throughout. - Prepare for the Internal Assessment report through exemplars, worked answers and commentary. - Navigate the IB requirements with clear, concise explanations including advice on assessment objectives and rules on academic honesty. - Develop fully rounded and responsible learning with explicit reference to the IB learner profile and ATLs.

HRM is central to management teaching and research, and has emerged in the last decade as a significant field from its earlier roots in Personnel Management, Industrial Relations, and Industrial Psychology. People Management and High Performance teams have become key functions and goals for manager at all levels in organizations. The Oxford Handbook brings together leading scholars from around the world - and from a range of disciplines - to provide an authoritative account of current trends and developments. The Handbook is divided into four parts: * Foundations and Frameworks, * Core Processes and Functions, * Patterns and Dynamics, * Measurement and Outcomes. Overall it will provide an essential resource for anybody who wants to get to grips with current thinking, research, and development on HRM.

Is this the year you are finally going to share your message with the world? Don't let the idea of having to write a book hold you back. It's easier than you think, and you don't even have to actually write the book yourself... Never thought about writing a book? Maybe you should consider it! Publishing a book will give you expert status, help spread your message and increase sales of your other products and services. It may even kick-start or boost your public speaking career. Writing, publishing and promoting a book has never been easier. You can do it in a week. This guide will teach you: The best kept secrets to a quick start for writing, promotion and sales Smart writing process hacks Alternatives to writing the book yourself Self-publishing The keys to launching a successful book, superfast "I just published my book. What I haven't been able to achieve in the past three years I did in just 7 days!" Chris About the authors Esther Jacobs (The Netherlands, 1970) is an international (TEDx) speaker and author. Esther has given over 1000 keynotes and is (co)author of 21 books. Her workshops have helped over 400 entrepreneurs to write their book. The NO EXCUSES LADY helps leaders and entrepreneurs to transform their challenges into opportunities. Marie Stern (Germany, 1982) is an "Amazon Self-Publishing Ninja." She authored 7 bestselling Amazon books, even though she wasn't even good at writing in school. However, she spent many hours browsing and reading in bookstores, discovering the secret behind successful books. As a former data mining analyst, she knows how important research is and how to find structure in any

process. Marie helped many non-writers have their book written and likes to share her best knowledge on how to self-publishing and sell books. Esther and Marie met at a conference, where they were giving a book writing workshop. They decided to write this book in just one day, using their own tested method. And now they're inviting you to try it, too!

As an instructor, you have seen business continuity and risk management grow exponentially, offering an exciting array of career possibilities to your students. They need the tools needed to begin their careers -- and to be ready for industry changes and new career paths. You cannot afford to use limited and inflexible teaching materials that might close doors or limit their options. Written with your classroom in mind, *Business Continuity and Risk Management: Essentials of Organizational Resilience* is the flexible, modular textbook you have been seeking -- combining business continuity and risk management. Full educator-designed teaching materials available for download. From years of experience teaching and consulting in Business Continuity and Risk, Kurt J. Engemann and Douglas M. Henderson explain everything clearly without extra words or extraneous philosophy. Your students will grasp and apply the main ideas quickly. They will feel that the authors wrote this textbook with them specifically in mind -- as if their questions are answered even before they ask them. Covering both Business Continuity and Risk Management and how these two bodies of knowledge and practice interface, *Business Continuity and Risk Management: Essentials of Organizational Resilience* is a state-of-the-art textbook designed to be easy for the student to understand -- and for you, as instructor, to present. Flexible, modular design allows you to customize a study plan with chapters covering: Business Continuity and Risk principles and practices. Information Technology and Information Security. Emergency Response and Crisis Management. Risk Modeling – in-depth instructions for students needing the statistical underpinnings in Risk Management. Global Standards and Best Practices Two real-world case studies are integrated throughout the text to give future managers experience in applying chapter principles to a service company and a manufacturer. Chapter objectives, discussion topics, review questions, numerous charts and graphs. Glossary and Index. Full bibliography at the end of each chapter. Extensive, downloadable classroom-tested Instructor Resources are available for college courses and professional development training, including slides, syllabi, test bank, discussion questions, and case studies. Endorsed by The Business Continuity Institute (BCI) and The Institute of Risk Management (IRM). QUOTES "It's difficult to write a book that serves both academia and practitioners, but this text provides a firm foundation for novices and a valuable reference for experienced professionals."--Security Management Magazine "The authors...bring the subject to life with rich teaching and learning features, making it an essential read for students and practitioners alike." – Phil AUTHOR BIOS Kurt J. Engemann, PhD, CBCP, is the Director of the Center for Business Continuity and Risk Management and Professor of Information Systems in the Hagan School of Business at Iona College. He is the editor-in-chief of the International

Journal of Business Continuity and Risk Management Douglas M. Henderson, FSA, CBCP, is President of Disaster Management, Inc., and has 20+ years of consulting experience in all areas of Business Continuity and Emergency Response Management. He is the author of *Is Your Business Ready for the Next Disaster?* and a number of templates.
