Kayaking looks so simple, until you are ready to get started. How do I shop for a recreational kayak? What do I look for in a boat? What gear is essential? What knowledge is needed? What skills are required? Am I expected to wear a floppy hat and a \$50.00 fishing shirt? Salesmen in kayak shops will offer their opinions on these matters. But some are simply selling boats and will say anything soothing in order to ice the deal. Others will shower you with torrents of their expertise, until the technical trivia washes over you like a curling wave. Leave the shop and you find that all that information has seeped through the scuppers (holes that let water flow out the bottom of a sit-on-kayak). Too embarrassed to ask these questions at a retail shop, seminar or workshop, where you may feel that Patagonia-wearing pros tend to look down on ignorant landlubbers, the beginner turns instead to *A Beginner's Guide to Recreational Kayaking*. Stephen R. Crowell provides the expertise on the essentials, in a comfortable, informal manner.

There has been an explosion of interest in paddling right across the world – in 2020, British Canoeing reported a 40% rise in members, with 19,000 signing up in a 3-month period. Much of this interest has been in inflatable kayaks, with the author's own website (inflatablekayaksandpackrafts.com) averaging 1,000 visits a day. The comparatively low cost, the convenience of inflatable kayaks, and the fact that you can just get in and go, all add up to their appeal. And with thousands of miles of waterways in the UK, most are within reach of a river or canal where you can paddle your kayak and enjoy being in the fresh air, gently travelling through the natural world. You see the country from a different perspective and in an eco-friendly way. But, as with everything, a little bit of knowledge and technique makes the experience so much more enjoyable! That is where this book comes in. It provides a perfect introduction to the sport. It takes you through the different types of inflatable kayaks, so you buy the one that is right for you. It shows you the basic on-the-water skills that you will need, including getting in and out, how to paddle straight and turn. It outlines the gear you will need
