Booked for Christmas, a novella from debut author Lily Menon, is sure to get readers in the holiday spirit! Novelist Sophia Hart (real name: Sophie Bartholomew-Kaur-Hughes, but try fitting that on a book cover) absolutely hates her loudest critic—Evan Wolfe, evil mastermind behind the Lone Wolfe book review column. They've never met, but Wolfe's favorite pastime seems to be dumping on Sophie's unapologetically happy, magical romances. Sophie, not one to be left behind, gets her revenge in her own ways (never annoy a writer in search of a villain). When Sophie decides to throw a holiday party at her cabin, Wolfe is the last person on her mind. But the universe has a twisted sense of

humor. Not only does Wolfe show up as someone's plus one, but a massive snowstorm blows in, stranding them both alone together in Sophie's cabin. Over the next few days, Sophie begins to realize that Wolfe isn't as odiously cynical a man as she'd originally thought. In fact, he's kind of...sweet. And impossibly hot. But still, Sophie's been hurt before and she has so much to lose. What she needs is one sure sign that she and Wolfe are meant to be together. Will Sophie and Wolfe get their Christmas miracle?

### The Reluctant Nerd

"The rise and fall of kings and nations!"--Cover.

Peter 'Ginger' Baker is a legend. A pioneering drummer who transcends genre, he's done much to popularise world music with his fierce passion for the rhythms of Africa. He is that rare thing - both critically acclaimed and globally successful. He has also lived a life more rock'n'roll than most. Ginger tells his story for the first time. It's often harrowing but outrageously honest as he journey's from war-torn south London to his adopted home in South Africa's beautiful Western Cape - where he has his own polo club. Along the way he tells of his life-long love of jazz, how he discovered the drums, life on the road and reveals the heroin use that should have killed him. He talks candidly of his three marriages, his induction into the Rock and Roll Hall of Fame with Cream in 1993, their 2005 reunion and his own plans for the future.

It's not every day that a 16 year old writes a book. In fact, girls and boys of that age are supposed to spend their time studying what other people write. It is pre-sumed that at that age they do not themselves have anything significant or interesting to say. And the education system guarantees just that. The best rewards go to those who can parrot set answers to set questions in examination halls. Those who try to use their imagination or reply differently are often punished with low grades.

Editors of such historical and literary documents as correspondence, journals, diaries, financial records, professional papers, and unpublished manuscripts will find this book an indispensable companion.

**WHY DO BAD GUYS LIVE IN GOOD HOUSES?** From Atlantis in *The Spy Who Loved Me* to Nathan Bateman's ultra-modern abode in *Ex Machina*, big-screen villains often live in architectural splendor. From a design standpoint, the villain's lair, as popularized in many of our favorite movies, is a stunning, sophisticated, envy-inducing expression of the warped drives and desires of its occupant. *Lair: Radical Homes and Hideouts of Movie Villains*, celebrates and considers several iconic villains' lairs from recent film history. From futuristic fantasies to deathtrap-laden hives, from dwellings in space to those under the sea, pop culture and architecture join forces in these outlandish, primarily modern homes and in *Lair*, which features buildings from fifteen films, including: *Dr. Strangelove Or: How I Learned to Stop Worrying and Love the Bomb* *Star Wars* *The Incredibles* *Blade Runner 2049* *You Only Live Twice* *The Ghost Writer* *Body Double* *North by Northwest* Edited by acclaimed architect Chad Oppenheim with Andrea Gollin, *Lair* includes interviews with production designers and other industry professionals such as Ralph Eggleston, Richard Donner, Roger Christian, David Scheunemann, Gregg Henry, and Mark Digby. Contributors include director Michael Mann, cultural critic Christopher Frayling, museum director Joseph Rosa, and architect Amy Murphy. Architectural illustrations and renderings by Carlos Fueyo provide multiple in-depth views of these spaces.

Raised with limited peer interaction, Ernestine St Bennett has difficulty interpreting social cues. Sympathizing with his social dysfunction, Ernie decides to help poor Simon increase his self-esteem and thus enhance his social standing. Using principles learned in her fish studies, she'll simply turn Simon from meek to macho. What Ernestine doesn't know (but Waldo suspects) is that Simon Prime is really ex-cop, private investigator Sam Pierce in disguise. A man who definitely doesn't need his masculinity enhanced!

The Essence of Managing Henry Mintzberg appreciates that managers are busy people. So he has taken his classic book *Managing*, done some updating, and distilled its essence into a lean 176 pages of text. The essence of the book remains the same: what Mintzberg learned from observing twenty-nine managers in settings ranging from a refugee camp to a symphony orchestra. Simply *Managing* considers the intense dynamics of this job as well as its inescapable conundrums, for example: • How is anyone supposed to think, let alone think ahead, in this frenetic job? • Are leaders really more important than managers? • Where has all the judgment gone? • Is email destroying management practice? • How can managers connect when their job disconnects them from what they are managing? If you read only one book about managing, this should be it!

FROM NOTATION TO MUSIC tells the story of one composer's search for meaning in the musical notations of the late 20th Century. Radical departures from the traditional composer-performer relationship contributed to a re-evaluation of traditional notation. Ralph Blauvelt recounts his confrontation with these issues and the development of his own philosophy in the music he composed between 1964 and 1981. He traces the evolution of his ideas through more than eighty compositions. After working to master the notation of traditional music and the highly determinate notations of serial music, he

describes the influence of Karlheinz Stockhausen on his first compositions with indeterminate notations. Studies with Lejaren Hiller and experiments with computer and electronic music inspired new compositions. With over 190 photographs and illustrations Ralph Blauvelt describes his journey and the ideas that led to his text pieces and graphic 'visual' scores.
