Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's *The Great American Read*. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. *Atlas Shrugged*, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

Henry David Thoreau built a log cabin in the Concord Forest in Massachusetts in 1845. Thoreau lived there for two years to try out an alternative to the hectic and economically successful everyday life. The reason: He wanted to consciously feel life in harmony with nature again. The minimalist lifestyle should create space and time for the essentials. Thoreau kept a diary about his feelings and experiences during his time in the forest. This book arose from his notes. It deals with his everyday problems, with economic and philosophical considerations, with the feeling of loneliness, with the animals of the forest, with the seasons and with the reading of classical works.

"This superbly succinct and incisive book couldn't be more timely or urgent." —Michael Sorkin, author of *All Over the Map* Our cities are changing. Around the world, more and more money is being invested in buildings and land. Real estate is now a \$217 trillion dollar industry, worth thirty-six times the value of all the gold ever mined. It forms sixty percent of global assets, and one of the most powerful people in the world—the president of the United States—made his name as a landlord and developer. Samuel

Stein shows that this explosive transformation of urban life and politics has been driven not only by the tastes of wealthy newcomers, but by the state-driven process of urban planning. Planning agencies provide a unique window into the ways the state uses and is used by capital, and the means by which urban renovations are translated into rising real estate values and rising rents. Capital City explains the role of planners in the real estate state, as well as the remarkable power of planning to reclaim urban life.

Acts is the sequel to Luke's gospel and tells the story of Jesus's followers during the 30 years after his death. Paul was the most influential figure in the early Christian church. In this epistle, written to the founders of the church in Rome, he sets out some of his ideas on the importance of faith in overcoming mankind's innate sinfulness and in obtaining redemption. With an introduction by Ruth Rendell

Written in taut, poetic language, THE LONGEST MEMORY is set on a Virginian plantation in the 19th century, and tells the tragic story of a rebellious, fiercely intelligent young slave who breaks all the rules: in learning to read and write, in falling in love with a white girl, the daughter of his owner, and, finally, in trying to escape and join her in the free North. For his attempt to flee, he is whipped to death in front of his family, and this brutal event is the pivot around which the story evolves.

Examines the biblical record to provide facts about the lives of the twelve apostles, proving information about each apostle's family, character, personality, ministry, and the unique aspect of his service to God.

'A compulsive and propulsive debut' - Lily King 'A luminous and poetic novel . . .

[Hjörleifsdóttir] has created a whole new landscape for storytelling' - John Freeman

Twenty-year-old Lilja is in love. He is older and beautiful, a Derrida-quoting intellectual. He is also a serial cheater, gaslighter and narcissist. Lilja will do anything to hold on to him. And so she accepts his deceptions and endures his sexual desires. She rationalizes his toxic behaviour and permits him to cross all her boundaries. In her desperation to be the perfect lover, she finds herself unable to break free from the toxic cycle. And then an unexpected ultimatum: an all-consuming love, or the promise of a life reclaimed. Thora Hjörleifsdóttir explores the darkest corners of relationships, capturing an ugly, hidden nature of love. In an era of growing pornification, she deftly illustrates the failings of our culture in recognizing symptoms of cruelty. In visceral, poetic prose, translated from Icelandic by Meg Matich, Magma depicts the unspooling of a tender-hearted young woman aching to love and be loved.

Craig Harrison has what it takes and in November 2009 in Afghanistan, under intense pressure, he saved the lives of his comrades with the longest confirmed sniper kill – 2,475 metres, the length of 25 football pitches. In *The Longest Kill*, his unflinching autobiography, Craig catapults us into the heat of the action as he describes his active service in the Balkans, Iraq and Afghanistan, and gives heart-stopping accounts of his sniper ops as he fought for his life on the rooftops of Basra and the barren hills of Helmand province. Craig was blown up by an IED in Afghanistan and left battling severe PTSD. After his identity was revealed in the press he also had to cope with Al Qaeda threats against him and his family. For Craig, the price of heroism has been devastatingly high.

An environmental journalist traces the historical war against rust, revealing how rust-related damage costs more than all other natural disasters combined and how it is combated by industrial workers, the government, universities and everyday people. A National Book Award-winning satire about the unchecked power of American capitalism, written more than three decades before the 2008 financial crisis. At the center of J R is J R Vansant, a very average sixth grader from Long Island with torn sneakers, a runny nose, and a juvenile fascination with junk-mail get-rich-quick offers. Responding to one, he sees a small return; soon, he is running a paper empire out of a phone booth in the school hallway. Everyone from the school staff to the municipal government to the squabbling heirs of a player-piano company to the titans of Wall Street and the politicians in Washington will be caught up in the endlessly ballooning bubble of the J R Family of Companies. First published in 1975 and winner of the National Book Award in 1976, J R is an appallingly funny and all-too-prophetic depiction of America's romance with finance. It is also a book about suburban development and urban decay, divorce proceedings and disputed wills, the crumbling facade of Western civilization and the impossible demands of love and art, with characters ranging from the earnest young composer Edward Bast to the berserk publicist Davidoff. Told almost entirely through dialogue, William Gaddis's novel is both a literary tour de force and an unsurpassed reckoning with the way we live now.

What one word comes to your mind when you think of Psalm 119? Probably the word Longest, right. That is because Psalm 119 is the Longest chapter in the bible. Well Longest is the title of this book, not because this book is the longest

book, but because it is a devotional book with Psalm 119 included within its pages. This is actually a very short book, wrote by a teenager. I hope you enjoy and learn a lot from it.

Winner of the 2011 George Orwell Award. One of The Atlantic's top psychology books of 2011. As human beings, we've always told stories: stories about who we are, where we come from, and where we're going. Now imagine that one of those stories is taking over the others, narrowing our diversity and creating a monoculture. Because of the rise of the economic story, six areas of your world - your work, your relationships with others and the environment, your community, your physical and spiritual health, your education, and your creativity - are changing, or have already changed, in subtle and not-so-subtle ways. And because how you think shapes how you act, the monoculture isn't just changing your mind - it's changing your life. In *Monoculture*, F.S. Michaels draws on extensive research and makes surprising connections among disciplines to take a big-picture look at how one story is changing everything. Her research and writing have been supported by the Social Sciences and Humanities Research Council of Canada, the Killam Trusts, and regional and municipal arts councils. Michaels has an MBA, and lives and writes in British Columbia.

*The Boy at the Back of the Class* is a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of my class, but now a new boy called Ahmet is sitting in it. He's nine years old (just like me), but he's very strange. He never talks and never smiles and doesn't like sweets - not even lemon sherbets, which are my favourite! But then I learned the truth: Ahmet really isn't very strange at all. He's a refugee who's run away from a War. A real one. With bombs and fires and bullies that hurt people. And the more I find out about him, the more I want to help. That's where my best friends Josie, Michael and Tom come in. Because you see, together we've come up with a plan. . . With beautiful illustrations by Pippa Curnick

A love triangle ... King Joseph (KJ), Jasmine, and Riot ... .. The year is 1966; it is the time when it is a sort of fashion that people study things for years at a stretch and become proficient in them. Moreover, he is the Ph.D (Psychology) scholar King Joseph, the mastermind genius KJ of the Oxford University. What next is to happen in this novel is quite obvious. KJ has worked hard 'night and day' and has become proficient in his topic of thesis, that is, to study the effect of perfumes on human mind so well that has become capable to alter and hence control the emotions of people he wants by exposing them to fragrances; even of the mentors of his esteemed institution named Oxford. But of no use! Alas! He cannot alter the mind of Jasmine whom he has recently fallen in love with. The reason is that she is so fond of jasmine perfume that already remains surrounded by its fragrance all the time. For some time, the story tells us that how he tries to deal with the situation. But further, Riot, his old and estranged friend comes in the scene to make the matters worst for him. Of course, in the Oxford where numerous subjects are studied and taught, occult sciences have never been in the prohibited list. Riot had finished doing his Ph.D in them quite a long time ago. In fact, Riot is an occultist who has spent his entire academic life studying Indian sciences like yoga, transcendental meditation, astral projections, remote viewing, telepathy, psychokinesis, and a lot many others including some such ones too which come under the category of black magic. Even KJ sees that with his slight wish, he can lift people in the air and make them fly. This story was originally written scene by scene to claim the Oscar Award one day for original screenplay but landed here in front of you, just by chance. The name 'A Book Without Chapters' has its meaning explained in the last pages when even despite being bloodthirsty in the rivalry of a love triangle situation, Joseph (KJ) realizes that he, Riot, Jasmine, everyone, just everyone, even the person reading this novel's introduction right now, is just like a book. The main difference however lies in the fact that some books in this world are with chapters and some are without chapters. The concept of simulation of a person as a book is so simple and so strong that the writer expects that the reader shall also begin to see one's own life as a book, just as the actors of this novel begin to do by the end. LET US SEE NOW, WHAT KIND OF BOOK YOU DISCOVER YOURSELF AS ! !!

These stories from the pen of American award-winning novelist John Cheever show the power and range of one of the finest short story writers of the century.
