Finally...a fun, easy-to-use guide to potty training any child in just ONE DAY Just think, from the time babies are born until they are toilet trained, they use an average of 4,000 diapers! Potty Train Your Child in Just One Day is the helpful guide you've been waiting for to get your child out of diapers and turn the potentially terrifying

process of toilet training into an effective and enjoyable bonding experience with your child. Teri guides parents to the successful one-day potty training of their child by teaching them how to:

- Look for the signs that your child is ready to be potty trained
- Make the potty connection by using a potty-training doll
- Create incentive through consistent positive reinforcement
- Use charts, quizzes, and checklists to help with every step of potty training
- Know when it's time to bring in a potty pinch hitter

Complete your potty training -- no more accidents Once Teri teaches you her techniques, she shares her secret -- potty parties! She has carefully designed twelve imaginative themes for parties, such as a seriously silly circus, a cartoon character carnival, or a magic carpet express, and supplies parents with everything they will need. Teri has proven that a potty party day engages a child in potty training in a way that no other method has before -- by speaking a toddler's language. A party may translate to fun, games, cake, candy, presents, and prizes to a child, but with Teri's expertise, parents can use it as a tool to motivate their child to want to go to the bathroom -- and to keep on going. That's why it works in just one day!

Fresh, fun ideas for children's storytime fill this book. The author, a long-time storytime facilitator, has put together 52 weekly themes plus additional plans for holidays, all with detailed instructions for talking about the theme and choosing the books, crafts, songs, poems, games and snacks. Each storytime idea is illustrated with photographs of a suggested craft and snack for easy reference. Libraries, bookstores,

preschools and parents alike can use this book to offer themed storytimes that include discussion, literature, art, music, movement and food. Options are provided for each storytime, so the ideas can be used year after year. Bang up to date with the new EYFS this exciting series of books helps practitioners working with 3-5 year olds integrate the newly proposed 7 areas of learning and 19 aspects into their planning and day to day activity. Owing to the fun, practical nature of the activities it is suitable for a wide range of setting, including schools, pre-schools, childminders and nurseries. Through the topic-based approach children will be involved in playing and exploring, active learning and creating and thinking critically. Each book contains six weeks of highly detailed planning with an activity for each specific area of learning. A unique feature of the series is the differentiation - activities are pitched at expected, emerging and exceeding levels so the practitioner can meet the needs of all the children in her setting. Presents craft projects that young readers can complete on their own or with adults, including robots, flying saucers, pet rocks, and flowers.

What if you could listen to your pet's thoughts — and truly understand? What if your cat could reveal his mischievous secrets or your dog could tell you about her day? What if you could assure him you'd be back soon or comfort her about visiting the vet? You can, and animal communicator Amelia Kinkade will show you how. In *Straight from the Horse's Mouth*, she shares her practical program that has helped hundreds of clients break through to communicate with their pets. Using guided meditations and other exercises designed to increase intuition, you can learn to share memories, make

In 1915, journalist Emily Post set out from New York to investigate whether it was possible to drive comfortably across the country to San Francisco in an automobile. This is a reprint of Post's only travel book, originally published by Collier's Weekly seven years before she became famous for her book on etiquette. It describes her travels with her cousin Alice and her Harvard undergraduate son as they played the American tourists from Niagara Falls to cave dwellings near Santa Fe. A first-hand account of elite automotive travel before the process was democratized after World War I, it also shows the history of the southwest, particularly in the myths that made towns such as Santa Fe "authentic" tourist destinations, and provides contemporary comments on class and ethnicity. A new introduction includes a biographical sketch of Post and explains the context of her journey in the heroic age of motoring. Accompanying the text are many original photographs, sketch maps showing the route, and Post's meticulous daily lists of expenditure, a valuable historical document showing the price of everything from car repairs to tips. New to this addition are explanatory footnotes and an appendix giving the miles Post traveled each day, noting the cities of departure and destination and the hotel for each night.
