"Every day," writes Rabbi Meir Kahane, "the Arabs of Israel move closer to becoming a majority. Are we [Israel] committed to national suicide? Should we allow demography, geography, and democracy to push Israel closer to the abyss? According to Rabbi Kahane, Israel can only be sustained by a permanent Jewish majority and a small, insignificant, and placid Arab minority. But the Arab population continues to grown quantitatively and qualitatively. They feel no ties for a state that breathes Jewishness. They mockingly accept moneys from the National Insurance Institute for medical services, tuition, and social welfre; yet they pay little or no tax. Even worse, they openly vow to destroy the Jewish state - not with bullets or bombs, but with the democratic vote. Is there a solution? Rabbi Kahane insists, "Yes." In this explosive manifesto Rabbi Kahane sets forth the only plan to save Israel. Israeli Arabs would be given the options of accepting noncitizenship, leaving willingly with compensation, or being forcibly expelled without compensation. Controversial? Yes. Could the Arabs be convinced to leave? "We will not come to the Arabs to request, argue, or convince," says Kahane. "For Jews and Arabs in Israel there is only one answer - separation. Jews in their land, Arabs in theirs. Separation. Only separation." They Must Go was written in 1980 while Rabbi Meir Kahane was jailed in Ramle Prison by the Israeli government under an unprecedented administrative detention order that imprisoned him without a trial, without his being informed of any specific charge, and without opportunity to know or to question any alleged evidence or witness. His crime: his philosophy concerning the danger that exists to the state of Israel by the very presence of its large and growing Arab population. Rabbi

Kahane's ideas were suppressed, twisted, defamed, and subjected to emotional and hysterical diatribes by people who were too frightened to consider them intelligently or to debate them intellectually. Is there a time bomb ticking away relentlessly in the Holy Land? Can Arabs and Jews ultimately coexist in a Jewish-Zionist state? Rabbi Kahane's only answer: "They Must Go."

Strategy Demystified brings clarity to strategy management. Determining the firm's current position is the first step. Then, figuring out where the leader wants to take the business, based on current and future capabilities and external environmental factors, is the next. Finally, the CEO must prepare the business to implement or execute the plan including having a supportive culture. This last point is overlooked by most organizational leaders; however, it is the prime reason why 70% of change initiatives fail. Most approaches to strategic management take a myopic mechanical view of the process. What is left out is aligning the culture and the people to the goals. Measuring mechanisms like the Balanced Scorecard and Management by Objectives support the alignment of the people and organizational functions. The leader must be involved in the strategic management process. Pieces can be delegated; one person can't be everywhere. But, with delegation there must be accountability. Organizational residents take their cue from the top; so, the leader must demonstrate the importance of strategic management and aligning leadership and culture with the intended destination. Follow the steps in Strategy Demystified and you will arrive at your destination. This book, entitled "How to Fly like an Eagle," is a motivational book written by the author in French, Spanish, and English to help people learn the techniques and to get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to

overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will. When this power and desire combine correctly, they form an irresistible combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort. The four steps are as follows: 1- A target set backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. These four steps are essential for success in all areas of life. These are the steps with which you can control your economic destiny. These are the steps that lead to freedom and independence of thought, that convert dreams into reality. These are the steps that lead to the domination of fear, discouragement and indifference. I do not know the situation you are facing currently, maybe you are in a wheelchair, or in a hospital bed and without any hope of survival, maybe you're on the verge of divorce, or you are unable to complete your schooling or university, or find a job. You can now be crawling like a snake or you have broken wings preventing you from being able to fly like an eagle, but one thing is certain, regardless of your economic, family, health situation you can have a better life, develop your potential and fly as high as the eagle above any obstacles or constraints you are facing right now. Of course, this will be possible if you apply the principles to be taught in this book. I testify to you with all my heart that this book has the power to transform the lives of people from nothing to excellence, from the dust of the ground to the top of success.

I promise you if you read it, and put the principles into practice, your life will be completely blessed!

This is not your standard book on leadership! The interpersonal aspects of leadership require crucial competencies for project professionals. People Skills 3.0: Next Generation Leadership Skills for Project Success presents a very unique view of leadership-

the interpersonal dynamics that impact performance. Remember: In today's world, we all are "leaders" in our respective enterprise efforts, regardless of whether or not we hold that title. People Skills 3.0 is your practical companion for facing and conquering the interpersonal leadership demands of our global economy. Author Steven Flannes, Ph.D., brings a unique background to the topic of leadership: clinical psychologist, operations leader, and project professional. (Dr. Flannes authored related interpersonal skills books, such as People Skills for Project Managers, translated into Russian, and Essential People Skills for Project Managers, translated into Japanese). People Skills 3.0: Five Core Beliefs: 1. As leader, you can easily learn to grasp the technical challenges. 2. The people issues, however, are more complicated. This book offers you innovative, tangible skills you can apply to master these challenges. 3. You do not need to be a natural "people person" to still be a good leader. 4. Small improvements in your interpersonal leadership skills will bring disproportionately big dividends in performance. 5. Learn to "thrive," and not just "survive," in your work and personal life (less stress, more enjoyment). People Skills 3.0 describes leadership complexities, and provides you with developmental paths you can follow to sharpen the skills needed to meet these challenges. The book presents: *

* Next-generation leadership challenges,

and what you as leader will see in our multicultural world (Chapter 1).* The importance of "knowing yourself." Self-knowledge is the foundation for developing interpersonal skills, the key competencies of next-generation leaders (Chapter 2).* How to make the personal changes you need in order to stay effective as a leader. Leaders who continually re-define themselves will flourish (Chapter 3).* What are the skills you need, and how you can create your developmental plan towards achieving and expanding these skills? (Chapter 4).* What distinct leadership competencies you will need in a world of economic, cultural, and technological complexity? (Chapter 5).* What unique approaches can you follow to achieve high levels of performance? And how can you return to those high levels after you or your team experience an intense, negative event or crisis? (Chapter 6).* What can you do as leader to create the best team culture, one noted for creativity, effective interpersonal functioning, and achievement?(Chapter 7).* What specific approaches can you apply to manage the inevitable conflicts, keeping the team task focused? (Chapter 8).* Learn to apply tangible approaches from neuroscience and mindfulness to function at your best while maintaining balance in life (Mike Mombrea, MA, MFT).* Discover leadership lessons from a leader who has worked in many settings. Learn what 43 other successful leaders said are key

leadership attributes they have noticed over their careers. (Larry Butler, MA. MFT).^{*} How can positive psychology help leaders develop? A member of the next generation of professionals shares his observations about how positive psychology behaviors can assist leaders increase their effectiveness with teams (Jonathan Flannes, B.S.).^{*} What future global challenges will you face? What creative approaches can you take to prepare yourself to be "the evolving people-centric leader?" (Chapter 12). The authors use personal self-disclosure to illustrate key points, creating an intimate and engaging reader experience. People Skills 3.0 is formatted in a visually appealing manner through the use of charts, images, checklists, text boxes, and ideas presented with bullet-point clarity. Market Leader uses authoritative authentic content from the Financial Times to build the professional language and skills needed to communicate in the modern world of business. The verbal section of the GRE is essentially a vocabulary test. With a few exceptions, if you know the word, you will probably be able to answer the question correctly. Thus, it is crucial that you improve your vocabulary. Even if you have a strong vocabulary, you will still encounter unfamiliar words on the GRE. Many students write off questions,

which contain words, they don't recognize. This is a mistake. This book introduces numerous techniques that decode unfamiliar words and prod your memory of words you only half-remember. With these techniques, you will often be able to squeeze out enough meaning from an unfamiliar word to answer a question correctly. Nevertheless, don't rely on just these techniques--you must study word lists.

Obviously, you cannot attempt to memorize the dictionary, and you don't need to. The GRE tests a surprisingly limited number of words, and this book has 4000 prime candidates. Granted, memorizing a list of words is rather dry, but it is probably the most effective way of improving your performance on the verbal section. All the words you need for success on the GRE! Features: * 4000 Words Defined * Word Analysis section * 200 Prefixes, Roots, and Suffixes * Concise, practical definitions

From ancient ages, the commercial transactions were taking place under the customs regulating the subject and the obligations of parties etc.. These customs culminated into the Law of contracts, when the same was codified. The Law of Contracts in India defines Contract as an agreement enforceable by law, which offers personal rights, and imposes personal obligations, which the law protects and enforces against the parties to the agreement. The general law of contract is based on the conception, which the parties have, by an agreement, created

legal rights and obligations, which are purely personal in their nature and are only enforceable by action against the party in default. In India, the Law of Contracts is contained in the Contracts Act, 1872, which was enacted to define the law relating to contracts. Over the period of nearly 100 years, the law of contract has developed and is fairly enriched with the judicial precedents and pronouncements, though it is cumbersome to grasp from the thick volumes on the Contract Act. In order to make this law simple and easily understandable, an effort is made under the "INB Lectures series" a maiden introduction of India Netbooks. The authors feel that the law of contracts so simplified shall make it 'easy to understand' for the readers and the persons to the profession of law. Case laws, important to the understanding of the code, are incorporated at appropriate places, though restraint has been kept so that the book is not unnecessarily bulky. The authors feel that the readers shall find the book useful and look forward to receive with pleasure any comments and suggestion from the readers towards improving this book further. The eye of the camera lens is a window to our world. Through it, we see beauty, tragedy, and the passing of our lives. Sometimes, if we are especially fortunate, we are privileged to view fleeting moments in history. "Eye Remember" is a personal glimpse at the people, places, and events that shaped a

generation of post World War II "baby-boomers." This volume contains photos, all from the author's personal collection, and profiles of celebrities, activists, and political leaders from those times. They colored the lives of us all.

Public funding for community colleges has been steadily declining since the peak of funding in the 1970s. Surviving the constant threats of budgetary cuts has been a key motivating factor for community colleges to embrace academic entrepreneurialism. I examined the academic entrepreneurial pursuits of one California Community College (CCC) to understand those factors that encourage community college faculty to pursue academic entrepreneurial solutions. The purpose of this qualitative study is to examine factors that encourage academic entrepreneurialism among community college faculty. Specifically, I investigated three categories of factors that influence academic entrepreneurialism: individual, institutional, and environmental. Individual factors include demographic and background characteristics, including age, race, gender, academic training, and previous professional careers. Institutional factors include program offerings available for students, institutional reputation and history, institutional policies and practices, and academic and administrative leadership. Environmental factors relate to the peer influences of a campus that encourages academic

entrepreneurial behavior of faculty. The significance of this study lies in the identification of factors that encourage academic entrepreneurialism among community college faculty, ultimately supporting institutional efforts to augment funding. I investigated individual, institutional, and environmental factors that encourage academic entrepreneurialism among community college faculty. Accordingly, the research questions identify key factors that encourage academic entrepreneurialism among community college faculty and explain how they facilitate faculty to engage in academic entrepreneurialism. The research questions that I evaluated in this study are: What individual, institutional, and environmental factors influence community college faculty to engage in academic entrepreneurialism? What is the relationship between faculty background, institutional, and environmental characteristics and the frequency and quality of academic entrepreneurialism among community college faculty? I found that all three factors are essential elements of academic entrepreneurialism among community college faculty. Individual, institutional, and environmental factors consist of people who are all pursuing their self-interest. This follows the tenets of rational choice theory as the study finds that self-interest influences faculty academic entrepreneurialism. The study argues that changes to institutional policies are the key determining factor

to encourage academic entrepreneurialism among community college faculty. Institutional policies determine how a college functions and understands the interrelationship between individual, institutional, and environmental factors. Encouraging academic entrepreneurialism among community college faculty requires institutional policies that focus on the fundamental issue: recruiting, retaining, and evaluating community college faculty. The study offers suggestions for how to influence institutional policies that in turn encourage faculty academic entrepreneurialism by addressing the following areas: faculty job descriptions, faculty job announcements, evaluating faculty levels of academic entrepreneurialism, and offering entrepreneurial faculty financial incentives.

A cyanide capsule and a bullet to the head. This is how Adolf Hitler is about to kill himself. The date is the 30th of April, the year is 1945. Hitler and his wife of less than two days, Eva Braun, are together in the Fuhrerbunker, an underground complex near the Reich Chancellery in Berlin. Berlin itself is not yet under siege, but it is apparent to all that it soon will be. For the Allies have defeated the Wehrmacht in the Belgian Ardennes and have already crossed the Rhine into Germany. While at the same time, the Red Army are advancing westwards towards the German capital, unstoppable since their decisive victory at Stalingrad. As a result, SS generals are now refusing to obey Hitler's orders. Stuck down in his bunker and feeling powerless, Hitler has begun to suffer a mental breakdown. The war is lost and he knows it now. Germany surrendered, unconditionally, a week after Hitler's death, on the 7th of May, 1945. The following day was declared Victory in Europe Day. The Second World War on the European continent was formally confirmed over. The war would continue in Asia

for another three months, eventually ending on the 15th of August, 1945 - just over a week after the dropping of the Little Boy and Fat Man atomic bombs on the Japanese cities of Hiroshima and Nagasaki. Germany was in utter ruins and occupied by the armies of the Soviet Union, France, America, and Britain and her Commonwealth. Meanwhile the world had witnessed the utterly destructive power of atomic weapons. This was how the Second World War ended; it was also how the Cold War began. The Cold War would last nearly half a century, with flashpoints occurring in locations all across the globe; from Afghanistan to Vietnam, Korea to Cuba. The real Cold War battlefield, though, was in Germany. It was here where the militaries of the Soviet Union and the Warsaw Pact countries faced off against the militaries of America and her European NATO allies. It was here where the bulk of the nuclear missiles were located, where the troops were based. Germany - then Germanies - was the true frontier of the Cold War. Following the collapse of the Berlin Wall in 1989, and the dissolution of the Soviet Union shortly after in 1991, the militaries that had based themselves in Germany for the past 50 years started to slowly return to their respective home countries. The military bases, and all the infrastructure that went along with sustaining them, were stripped bare and left behind. The purpose of this book is to document these Cold War sites as they are today, in 2016. They will not be around for much longer; most face imminent demolition, and the ones that don't are decaying and succumbing to nature. The hope is that by documenting how these bases currently are, as well as

providing a short history on each of the sites, an audience unable to visit them themselves will learn something new about the Cold War. It was a military stand-off on a scale of which the world has never seen before. We have history books that communicate that scale; that communicate the dangers faced; the close calls and near misses; the fallibility of all those involved. Perhaps this book, and the pictures it contains, can help to communicate some of these things too, but in a different way.

Technological advances and organizational changes affecting agrifood systems in recent years have been radical and rapid; the repercussions, however, will be felt for a long time to come and the consequences may be

irreversible. Whether these changes be as specific as individual food production techniques or as broad as the effects of globalization, they have refocused attention on age-old human values and fundamental human rights, including the right to adequate - and safe - food. The resulting controversies have brought to the fore a number of basic ethical concerns that are central to the global goals of world food security and sustainable rural development: the need for equitable participation, for example, that reconciles the interests of wealthy and less advantaged countries today while guaranteeing viable options for future generations; and the need to ensure broad-based involvement in decisions concerning technology development, particularly genetic engineering. The resolution of these issues demands careful reflection and constructive dialogue - the purpose of this new series on ethics in food and agriculture is to give impetus to that dialogue.

New York City was being systematically crippled by crimes committed in a very organized fashion. Communities and neighborhoods were paralyzed with fear. Just when all hope seemed lost, the tide turned. Rumors spread about a group of renegade crime fighters with extraordinary powers. They called themselves, The Unbeatables. Henry Fleming (Strongman) was their leader. They were superhero pioneers. No flashy names. No dazzling uniforms. As a result of their heroic efforts, The Unbeatables introduced Genvars (Genetic Variations) to a skeptical world that up to that point considered the occasional grainy video footage of someone

displaying abnormal powers to be nothing more than a hoax. Soon, more Genvars came out of hiding. But their assimilation into society was met with resistance and trepidation. Civil unrest was threatening the very foundation of the country. The government held controversial hearings to deal with the fear and unrest that was crippling the country. Genvars desperately needed a leader to unite and represent them. They wanted Strongman. Through his own chronological narrative, Henry Fleming gives us an unabashed accounting of his extraordinary life. Whether it's the searing pain of a broken heart, the unapologetic dispensing of justice, or his lifelong search for the answer to the same question we each ask ourselves. Why Am I here? Sometimes it's not who we think we are that matters as much as who other people believe we are.
