NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In The Power of Habit, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, The Power of Habit contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp, provocative, and useful.”—Jim Collins “Few [books] become essential manuals for business and living. The Power of Habit is an exception. In today's complex work world, things no longer get done simply because someone issues an order and someone else follows it. Most of us work in socially intricate organizations where we need the help not only of subordinates but of colleagues, superiors, and outsiders to accomplish our goals. This often leaves us in a "power gap" because we must depend on people over whom we have little or no explicit control. This is a book about how to bridge that gap: how to exercise the power and influence you need to get things done through others when your responsibilities exceed your formal authority. Full of original ideas and expert insights about how organizations—and the people in them—function, Power and Influence goes further, demonstrating that lower-level personnel also need strong leadership skills and

interpersonal know-how to perform well. Kotter shows how you can develop sufficient resources of "unofficial" power and influence to achieve goals, steer clear of conflicts, foster creative team behavior, and gain the cooperation and support you need from subordinates, coworkers, superiors—even people outside your department or organization. He also shows how you can avoid the twin traps of naivete and cynicism when dealing with power relationships, and how to use your power without abusing it. Power and Influence is essential for top managers who need to overcome the infighting, foot-dragging, and politicking that can destroy both morale and profits; for middle managers who don't want their careers sidetracked by unproductive power struggles; for professionals hindered by bureaucratic obstacles and deadline delays; and for staff workers who have to "manage the boss." This is not a book for those who want to "grab" power for their own ends. But if you'd like to create smooth, responsive working relationships and increase your personal effectiveness on the job, Kotter can show you how—and make the dynamics of power work for you instead of against you.

Identity, relationships, sadness, life and success - these are arguably the most important things to think about on the road to finding happiness or even some meaning to what we call our lifetime. We are defined by ourselves, the people we surround ourselves with and our own experiences. Sometimes we don't realize the impact certain things have had on us until after they've happened or we're confronted by them directly. Asking the right questions is often the key. In this book, you will find many meaningful questions that could help you realize things about yourself or others that you didn't know before. These questions are your guide to amazing conversations, seeing things from a new perspective and perhaps giving yourself some good advice. This book can be a helping hand when making important decisions and will let you see your reality with a fresh point of view.

Do you find yourself writing a seemingly endless list of to-do's, only to become overwhelmed, not knowing where to start, and then end up pushing it aside for "later"? Do you often get distracted while working on a task, simply because your mind is on everything besides what you actually need to get done? Are simple, straightforward tasks, like dropping something off at the dry cleaner's or calling your Uncle Joe to check in on him, taking you days (if not weeks) to do? In today's fast-paced modern world, it's difficult--if not near impossible--to keep up with everything that needs to get done at home and at work while also staying on top of your kids' schedules, leaving your self-care activities with nothing but crumbs. That is, if you don't organize the things you need to do. With some guidance and a handful of time- and energy-saving tips, you will know exactly what to do and when to do it, helping you become the most productive version of yourself you've yet to see. In To-Do List Plan, here is just a fraction of what you will discover: ? Step-by-step guidance on how to put together your new and improved to-do list, allowing you to become a master at task management and finally take control of your day ? The 6 essential components you need to know in order to create a foolproof to-do list that will help you get those relentless tasks done with and out of your life once and for all ? How to gain an unfair advantage in getting closer to achieving your biggest dreams, all by starting with the most important part of the day ? The top 5 ways to format your to-do list, even if you have the artistic skills of a toddler ? How successful people utilize time management for maximum productivity, and how you can apply them to your routine today to reap the same benefits and boost yourself to their level ? The key to keeping your mind sharp and empty of unnecessary, preoccupying thoughts that do nothing but hinder you from progress ? Procrastination-busting tips and tricks you can use to hone your focus and stay motivated throughout the day, no matter how distracted you tend to get And much more. It doesn't matter if you've already fully accepted the label, "chronic procrastinator," as your second identity--it's never too late to learn new habits. Your lack of motivation isn't solely based on your disinterest in the actual task, but more so the way you're tackling that task. By knowing and implementing proven methods that work rather than shooting your shot in the dark, you will be able to see a difference in your time management abilities within just one day. If you continue to approach your list of to-do's the same way every day, yet you're never able to complete the important tasks by the time you go to bed, then that should be the blaring alarm telling you something needs to change. Trying the same methods over and over again and expecting new results is a never-ending cycle that will only lead to more frustration, and more failure. It's time to get your life organized and back on track, heading in one smooth direction rather than multiple intertwining routes.

"We are what we repeatedly do. Excellence, therefore, is not an act but a habit." - Aristotle This quote is indeed very true: Our habits define us and shape our lives. If we excel at what we do, live harmoniously, and are at peace, we can thank the healthy and positive habits we have built over the course of our life. If, however, we are unproductive, addicted to unhealthy practices, and surrounded by chaos, then for that too, we can thank our habits. What if... The all-star adviser to athletes like Kobe Bryant and Michael Jordan shares his revolutionary, mindfulness-based program for elevating your game “George helped me understand the art of mindfulness. To be neither distracted or focused, rigid or flexible, passive or aggressive. I learned just to be.” —Kobe Bryant Michael Jordan credits George Mumford with transforming his on-court leadership of the Bulls, helping Jordan lead the team to six NBA championships. Mumford also helped Kobe Bryant, Andrew Bynum, and Lamar Odom and countless other NBA players turn around their games. A widely respected public speaker and coach, Mumford is sharing his own story and the strategies that have

made these athletes into stars in *The Mindful Athlete: The Secret to Pure Performance*. His proven, gentle but groundbreaking mindfulness techniques can transform the performance of anyone with a goal, be they an Olympian, weekend warrior, executive, hacker, or artist. When Michael Jordan left the Chicago Bulls to play baseball in 1993, the team was in crisis. Coach Phil Jackson, a long-time mindfulness practitioner, contacted Dr. Kabat-Zinn to find someone who could teach mindfulness techniques to the struggling team—someone who would have credibility and could speak the language of his players. Kabat-Zinn led Jackson to Mumford and their partnership began. Mumford has worked with Jackson and each of the eleven teams he coached to become NBA champions. His roster of champion clients has since blossomed way beyond basketball to include corporate executives, Olympians, and athletes in many different sports. With a charismatic teaching style that combines techniques of engaged mindfulness with lessons from popular culture icons such as Yoda, Indiana Jones, and Bruce Lee, Mumford tells illuminating stories about his larger than life clients. His writing is down-to-earth and easy to understand and apply. *The Mindful Athlete* is an engrossing story and an invaluable resource for anyone looking to elevate their game, no matter what the pursuit, and includes a foreword by Phil Jackson. While ninety percent of the world's millionaires are men, only ten percent are women, making it difficult for women to wield the economic power that will create lasting equality. Rachel Rodgers, founder of Hello Seven, a company that coaches women in scaling their businesses and their lives to seven figures, says it's time for a change. Women deserve the economic power and equality that comes with wealth, and we all have it in us to be millionaires. *We Should All Be Millionaires* details a realistic, achievable, step-by-step path to become a millionaire within the next three years.
