Highly beneficial animals, bats are critical to global ecological, economic, and public health. *Do Bats Drink Blood?* illuminates the role bats play in the ecosystem, their complex social behavior, and how they glide through the night sky using their acute hearing and echolocation skills that have helped in the development of navigational aids for the blind. Featuring rare color and black-and-white photographs, including some by renowned biologist, photographer, and author Merlin Tuttle, *Do Bats Drink Blood?* provides a comprehensive resource for general readers, students, teachers, zoo and museum enthusiasts, farmers and orchardists, or anyone who may encounter or be fascinated by these extraordinary animals.

David Hufford's work exploring the experiential basis for belief in the supernatural, focusing here on the so-called Old Hag experience, a psychologically disturbing event in which a victim claims to have encountered some form of malign entity while dreaming (or awake). Sufferers report feeling suffocated, held down by some "force," paralyzed, and extremely afraid. The experience is surprisingly common: the author estimates that approximately 15 percent of people undergo this event at some point in their lives. Various cultures have their own name for the phenomenon and have constructed their own mythology around it; the supernatural tenor of many Old Hag stories is unavoidable. Hufford, as a folklorist, is well-placed to investigate this puzzling occurrence.

This is the first comprehensive book-length study of gender politics in Ngugi wa Thiong'o's fiction. Brendon Nicholls argues that mechanisms of gender subordination are strategically crucial to Ngugi's ideological project from his first novel to his most recent one. Nicholls describes the historical pressures that lead Ngugi to represent women as he does, and shows that the novels themselves are symptomatic of the cultural conditions that they address. Reading Ngugi's fiction in terms of its Gikuyu allusions and references, a gendered narrative of history emerges that creates transgressive spaces for women. Nicholls bases his discussion on moments during the Mau Mau rebellion when women's contributions to the anticolonial struggle could not be reduced to a patriarchal narrative of Kenyan history, and this interpretive maneuver permits a reading of Ngugi's fiction that accommodates female political and sexual agency. Nicholls contributes to postcolonial theory by proposing a methodology for reading cultural difference. This methodology critiques cultural practices like clitoridectomy in an ethical manner that seeks to avoid both cultural imperialism and cultural relativism. His strategy of 'performative reading,' that is, making the conditions of one text (such as folklore, history, or translation) active in another (for example, fiction, literary narrative, or nationalism), makes possible an ethical reading of gender and of the conditions of reading in translation.

God Is Busy Fixing Things How do I know this? I've been one of his co-workers for more than fifty years. I've been one with Him in building His church. I've been one with Him in making disciples. I've been one with Him in building homes. I've been one with Him in uniting brothers and sisters in Christ. I've been one with Him in restoring sinning brothers, and rebuilding shattered relationships.

Summing everything together, I have been and still am one with Him fixing that which got broke in Genesis three. Namely, His crowning creation; (mankind, you and me) Only He can fix us. He fixes us one at a time. He always does His fixing in a vital way, through His Living Word by His Spirit. As one of His co-workers my part is to prayerfully use His tools (His Word, His Cross, His Gifts) in total

dependence upon His Spirit to fix people on the inside. When He does and continues to do His work of fixing (regenerating and sanctifying) broken people, I get my reward in seeing transformed lives and homes like you will read about in this book. As He imparts life to the dead and they continue to grow: The proud become humble. The covetous become generous. The angry become meek. The bitter become sweet. The divided become united. The Self-centered become God-centered. Pastor Jim Walter is a graduate of Practical Bible Training School, now Davis College, Binghamton, NY where he continues to serve on the school's Trustee Board. He has pastored four churches. His last twenty seven years before retiring were at South Apalachin Baptist Church, Apalachin, NY, the church that ordained him in 1954. He is still actively speaking and teaching God's Word, and also writing.

Abraham Joshua Heschel said that, "We are closer to God when we are asking questions than when we have the answers." He believed that to be a Christian is not to be a person who knows all the answers but one who "lives in the part of the self where the question is constantly being born." Most of us don't think very much about our questions. In our culture, we are accustomed to being able to find out answers to nearly any question just by typing it into Google search or asking Siri. But behind any answer, there is always a question. Sometimes, the question isn't clear to us; sometimes, it is not very well articulated, even to ourselves. But it is always there. In over thirty years as a psychotherapist and spiritual director, Peter C. Wilcox has seen how the questions people ask themselves have shaped their lives in some very important ways. This book is an invitation to see how important it is to learn how to ask the right questions about our lives. This is because our choice of questions leads us on a path of discovery towards answers that help us to grow spiritually and psychologically. Our questions orient our lives and give direction to us. We will see that they enable us to make fifteen choices that have a tremendous impact on the kind of person we become.

?It is now universally accepted that we are experiencing a profound mental health epidemic, and too often Christians have struggled to know how to respond. The need for the church to take mental health issues more seriously is urgent, and this is perhaps especially true when it comes to understanding depression.

Offering a theological and biblical account of depression, this book considers how depression has been understood and interpreted by Christians and how plausible and pastorally helpful these understandings are. It offers an important and well-informed resource for those with, or preparing for, positions of pastoral responsibility within the Christian Church With a foreword by John Swinton.

As the fifties ended, we were about to embark on a journey that would take our American society in a completely new direction. By reviewing history, we can identify how the tumultuous sixties chose our path while each decade, beginning in 1950 and continuing through 2000, determined our course at that time. On this journey, many values and lifestyles experienced by the Baby Boomers were left behind, not passed on to their children, Gen X and Gen Y. The resulting new outlook profoundly influenced attitudes held by these emerging generations. The fascinating field of handwriting analysis serves as our GPS which enables us to identify these attitudes, trace where we've been and understand where society is today. Handwriting is an expression of self and attitudes resulting from personal experiences, social interactions and events that made a significant impact.

Reliving the journey with insight is made possible by studying handwriting samples obtained from high school yearbooks covering those five decades. Numerous historical and societal changes profoundly influenced attitudes of today. These attitudes mirror our culture. Handwriting analysis will not reveal precise societal changes; however, it will reveal how these changes impact attitudes.
