

Not Fade Away Jim Dodge

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Drawing from some of California's best writers and thinkers, this anthology explores the relationship between animal and human in the Golden State.

Chapbooks, musings, poetry, and prose by a folklorist with a "wonderful imagination, eye for detail and command of language" (Publishers Weekly). While Jim Dodge is internationally known for his fiction, his first and abiding passion is poetry. After eighteen years of publishing anonymously and only reading to local crowds in the Pacific Northwest, he began to issue occasional limited-edition letterpress chapbooks, as well as occasional broadsides and, since 1987, a Winter Solstice poem or story, most given as gifts to friends. *Rain on the River* contains his work collected here for the first time, as well as three dozen previously unpublished poems. Dodge's verse and short prose offer the same pleasures as his fiction—a splendid ear for language, great emotional range and subtlety, a sharp eye for the illuminating detail, and a sensibility that encompasses outright hilarity, savage wit, and tender marvel, all made eminently accessible through writing of uncompromising clarity and grace. "Jim's words are his gift to the world. His life is his art; his words are merely tokens of appreciation. Reading the poems and short prose . . . makes me happy to be alive. . . . Mine's a happiness born from the revelation that 'money and food and poetry [are] ways to live, not reasons,'" as Jim puts it" (Sacramento News & Review).

In a lively discussion of books written as early as 1903 and as recently as 1994, Kris Lackey reveals the crucial roles the highway and automobile travel have played through generations of American writing.

THE NUMBER ONE NEW YORK TIMES BESTSELLER NOW A MAJOR FILM, STARRING STEVE CARELL AND BAFTA AND GOLDEN GLOBE NOMINATED TIMOTHEE CHALAMET 'What had happened to my beautiful boy? To our family? What did I do wrong?' Those are the wrenching questions that haunted every moment of David Sheff's journey through his son Nic's addiction to drugs and tentative steps toward recovery. Before Nic Sheff became addicted to crystal meth, he was a charming boy, joyous and funny, a varsity athlete and honor student adored by his two younger siblings. After meth, he was a trembling wraith who lied, stole, and lived on the streets. With haunting candour, David Sheff traces the first subtle warning signs: the denial, the 3am phone calls (is it Nic? the police? the hospital?), the attempts at rehab. His preoccupation with Nic became an addiction in itself, and the obsessive worry and stress took a tremendous toll. But as a journalist, he instinctively researched every avenue of treatment that might save his son and refused to give up on Nic. This story is a first: a teenager's addiction from the parent's point of view – a real-time chronicle of the shocking descent into substance abuse and the gradual emergence into hope. *Beautiful Boy* is a fiercely candid memoir that brings immediacy to the emotional rollercoaster of loving a child who seems beyond help. Read the other side of Nic Sheff's bestselling memoir, *Tweak*. Praise for *Beautiful Boy*:- 'A brilliant, harrowing, heartbreaking, fascinating story, full of beautiful moments and hard-won wisdom. This book will save a lot of lives and heal a lot of hearts'. Anne Lamott 'An important book... moving, timely and startlingly beautiful.' Richard Branson

"Just because this is a collection of essays about psychics, murderers, strange disappearances, and occult phenomena doesn't mean it isn't funny. With wit, wry curiosity, and redemptive irony John P. O'Grady peels back the surface of the seemingly normal to reveal the dubious, the inexplicable, the outlandish"--Back cover.

A NEW YORK TIMES NOTABLE BOOK OF 2020 NAMED A BEST BOOK OF THE YEAR BY * THE WASHINGTON POST * THE ECONOMIST * NEW SCIENTIST * PUBLISHERS WEEKLY * THE GUARDIAN From one of the most dynamic rising stars in astrophysics, an "engrossing, elegant" (The New York Times) look at five ways the universe could end, and the mind-blowing lessons each scenario reveals about the most important concepts in cosmology. We know the universe had a beginning. With the Big Bang, it expanded from a state of unimaginable density to an all-encompassing cosmic fireball to a simmering fluid of matter and energy, laying down the seeds for everything from black holes to one rocky planet orbiting a star near the edge of a spiral galaxy that happened to develop life as we know it. But what happens to the universe at the end of the story? And what does it mean for us now? Dr. Katie Mack has been contemplating these questions since she was a young student, when her astronomy professor informed her the universe could end at any moment, in an instant. This revelation set her on the path toward theoretical astrophysics. Now, with lively wit and humor, she takes us on a mind-bending tour through five of the cosmos's possible finales: the Big Crunch, Heat Death, the Big Rip, Vacuum Decay (the one that could happen at any moment!), and the Bounce. Guiding us through cutting-edge science and major concepts in quantum mechanics, cosmology, string theory, and much more, *The End of Everything* is a wildly fun, surprisingly upbeat ride to the farthest reaches of all that we know.

A road trip novel from the author of *Fup* that "reads like Kerouac's *On the Road* as it might have been written by Hunter S. Thompson" (The

Plain Dealer). George Gastin is a Bay Area tow-truck operator who wrecks cars as part of an insurance scam. One of the cars he is hired to demolish is a snow-white Cadillac that was supposed to be a present for the Big Bopper, who died in the Iowa plane crash that killed Buddy Holly and Ritchie Valens. Gastin has a change of heart and takes off in the car, heading for Texas where the Bopper is buried. Armed with a thousand hits of Benzedrine and chased by adversaries real and imagined, Gastin navigates a road trip that covers many miles and states of mind. Traveling in time from the Beat era to the dawn of the sixties, from the coffeehouses of North Beach to the open plains of America, Gastin picks up some extraordinary hitchhikers: the self-proclaimed "world's greatest salesman," the Reverend Double-Gone Johnson, and a battered housewife with a box of old 45s. As the miles and sleepless hours roll by, Gastin's trip becomes a blur of fantasy and reality fueled by a soundtrack of classic rock 'n' roll. "His surreal voyage into the chaos of night carries him into the heart of America's darkest psychological landscapes. Not Fade Away shakes, rattles, and rolls." —San Francisco Chronicle

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

TIKTOK SENSATION "Riveting, heart-wrenching, and full of Old Hollywood glamour" BuzzFeed "This wildly addictive journey of a reclusive Hollywood starlet and her tumultuous Tinseltown journey comes with unexpected twists and the most satisfying of drama." PopSugar From the author of *Daisy Jones & The Six* in which a legendary film actress reflects on her relentless rise to the top and the risks she took, the loves she lost, and the long-held secrets the public could never imagine. Aging and reclusive Hollywood movie icon Evelyn Hugo is finally ready to tell the truth about her glamorous and scandalous life. But when she chooses unknown magazine reporter Monique Grant for the job, no one is more astounded than Monique herself. Why her? Why now? Monique is not exactly on top of the world. Her husband has left her, and her professional life is going nowhere. Regardless of why Evelyn has selected her to write her biography, Monique is determined to use this opportunity to jumpstart her career. Summoned to Evelyn's luxurious apartment, Monique listens in fascination as the actress tells her story. From making her way to Los Angeles in the 1950s to her decision to leave show business in the '80s, and, of course, the seven husbands along the way, Evelyn unspools a tale of ruthless ambition, unexpected friendship, and a great forbidden love. Monique begins to feel a very real connection to the legendary star, but as Evelyn's story near its conclusion, it becomes clear that her life intersects with Monique's own in tragic and irreversible ways. *The Seven Husbands of Evelyn Hugo* is a mesmerizing journey through the splendour of old Hollywood into the harsh realities of the present day as two women struggle with what it means and what it costs to face the truth.

Fup is a tale of two humans, one duck and several vats of home-brewed whisky. There's Granddaddy Jake Santee, 99 years old, an unreformed gambler, cranky reprobate and fierce opponent of the work ethic. Thanks to his home-distilled hooch, Ol' Death Whisper, he reckons he's in with good shot at immortality. And then there's Tiny, adopted at the age of four by Granddaddy Jake, a giant young man as gentle as Jake is belligerent. And then there's Fup, an uncompromising twenty-pound mallard, partial to a drink herself, whose unique presence transforms the Santee household. Hilarious, heartwarming and magical, *Fup* is a contemporary fable that inspires an almost evangelical fervour in all who read it. It is a work of enormous originality with a giant heart.

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose "what if" questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

In this, the sensational follow-up to *The Book With No Name*, those who miraculously survived the blood-soaked conclusion to the first novel are back in town for another massacre to remember. Young lovers Dante and Kacy, hapless bartender Sanchez, Peto the Hubal monk and the mysterious Jessica - each will be drawn into the violent vortex surrounding the Bourbon Kid, the supernatural killer who is himself now being hunted. Hot on his heels are several vampire gangs, the US Secret Service, a couple of werewolves, some corrupt cops, and the Dark Lord himself, and none will rest until he is dead. But the Kid has vengeance of his own to wreak . . . Even more gripping, creepy, exciting and funny than its predecessor, *The Eye of the Moon* is a relentless page-turner guaranteed to leave you on the edge of your seat. And, as the body count climbs on the dusty streets of Santa Mondegga, who will be the last one standing?

This book aims to provide a new, linguistically grounded typology of speech and thought representation in English on the basis of the systematic study of deictic, syntactic and semantic properties of authentic examples drawn from literary as well as non-literary sources. In the area beyond direct and indirect speech or thought, 'free indirect discourse' has often been implicitly treated as a residual category that can accommodate anything that is neither one nor the other. This book takes a fresh look at the evidence in the area of deixis, particularly through a close study of pronoun and proper name use, and proposes to distinguish the more character-oriented free indirect type from a narrator-oriented 'distancing' indirect type, which is grammatically wholly structured from the narrator's deictic standpoint. Unlike free indirect representations, which coherently represent the character's viewpoint, the distancing indirect type sees narrators appropriating character discourse for their own purposes, which may for instance be ironic. The distinctions thus drawn shed new light on the much debated 'dual voice' approach to free indirect discourse. Included in the scope of this book are subjectified uses of clauses such as *I think*, which no longer primarily construe a cognition process, but rather come to function as hedges. Such speaker-encoding uses are argued to involve an interpersonal type of structure, not based on complementation, whereas the non-subjectified cases receive an interclausal complementation analysis which does not have recourse to the problematic notion of 'reporting verb'. This monograph is mainly of interest to researchers and graduate students interested in the syntax, semantics, and pragmatics of reported speech viewed from a constructional perspective.

For nearly thirty years, Greil Marcus has written a remarkable column called "Real Life Rock Top Ten." It has been a laboratory where he has fearlessly explored and wittily dissected an enormous variety of cultural artifacts, from songs to books to movies to advertisements. Taken together, his musings, reflections, and sallies amount to a subtle and implicit theory of how cultural objects fall through time and circumstance and often deliver unintended consequences, both in the present and in the future. Real Life Rock reveals the critic in full: direct, erudite, funny, fierce, vivid, uninhibited, and possessing an unerring instinct for art and fraud. The result is an indispensable volume packed with startling arguments and casual brilliance.

George Gastin, dépanneur amphétaminé mouillé dans des arnaques à l'assurance, doit se débarrasser d'une Cadillac Eldorado flambant neuve. Quand il apprend que la voiture était à l'origine une déclaration d'amour au Big Bopper, mort avec Buddy Holly et Ritchie Valens en 1959, il décide de livrer le cadeau à son destinataire décédé. C'est le début d'une épopée hallucinée en plein virage 60's, un pèlerinage romantique, comique et cauchemardesque, sous le double patronage des drogues et de la musique. Des nuits effervescentes de San Francisco au calme plat des plaines du Midwest, dans sa quête de l'esprit ultime du rock and roll, George va croiser ta route de personnages tous plus azimutés les uns que les autres.

Starting with his mother's 'roundhouse' right to a nun's jaw, Stone Junction is a modern odyssey of one man's quest for knowledge and understanding in a world where revenge, betrayal, revolution, mind-bending chemicals, magic and murder are the norm. With jaw-dropping scope, a stiletto-sharp wit and an array of utterly bizarre characters, Jim Dodge has woven a mesmerising and age-defining tale. Like a river constantly changing direction, Stone Junction is both stomach-clutching hilarious and heart-rendingly sad - but always utterly compelling. Authors Lewis J. Poteet and Aaron C. Poteet, father and son, also wrote Hockey talk, a dictionary of Hockey slang. This book was born out of the son's lifelong fascination with Police, crime and justice and his father's love of language. Lewis has written or co-authored numerous slang word and phrase books including Plane Talk, Car Talk and The South Shore Phrase Book. Lewis taught English for 32 years at Concordia University in Montreal and in winter 2000, was adjunct instructor in English at Austin (TX) Community College. Aaron holds a bachelor's degree in criminal justice from Northeastern University in Boston. As a sometime wayward youth, he walked the city streets at night as neighborhood patrol, Guardian Angel, even vigilante. His near obsession with the street led to work in the most thankless profession known to man—law enforcement (and he loved almost every minute of it!) working for the better part of a decade as a Special Police Officer in Boston and then briefly with the Austin Police Department. He now works for a large corporation in field collections. Gathered from live conversation and printed sources, this book presents the lively language of car and motorcycle fans, with entries also from car parts men, mechanics, car salesmen and ordinary drivers. Drawn from California, Canada, Texas, Boston, England, Belize, and other places it evokes the terror, the joy, the pride, the troubles that come from these Rube Goldbergish unholy alliances of fire and water, gasoline, steel, and rubber, designed to drag our bodies down the highway at unlawful speeds and get us caught in horrendous traffic jams, or travel freely in the land of the free and the home of the brave.

"Mr. Harrison's perceptions are jagged and cutting . . . a remarkably well-plotted story."—Christopher Lehmann-Haupt, The New York Times The New York Times bestselling author of thirty-nine books of fiction, non-fiction, and poetry—including Legends of the Fall, Dalva, and Returning to Earth—Jim Harrison was one of our most beloved and acclaimed writers, adored by both readers and critics. His novel A Good Day to Die centers on an unlikely trio: a poet with a tendency to lapse into beatific reveries of superb fishing in cold, fast streams; a Vietnam vet consumed by uppers, downers, and violence; and a girl who loved only one of them—at first. With plans conceived during the madness of one long drunken night, the three of them leave Florida, driving west to buy a case of dynamite, determined to save the Grand Canyon from a dam they believe is about to be built. A Good Day to Die is an unrelenting tour de force, and a dark exploration of what it means to live beyond the pale in contemporary America.

Chronicles the life of the founder of Liberty Media, from his protests against the Vietnam War and his jam sessions with Sha Na Na through his work as a political consultant and businessman and his battle against cancer.
