In a small wooded lot a busy woman stumbles upon a strange doll the neighbors possibly left. She attempts to reveal who brought the toy to her home, but she uncovers no real leads. Then when a letter turns up asking her to give the doll away as soon as possible, she ends up on the edge of reason as the doll is in the midst of being reclaimed by someone. The doll although small and cuddly resembles a somewhat black entity similar to a doll she keeps in her home, but when a nearby psychic and fortune teller comes to her home asking her to give up the doll to keep her sanity, but she refuses. The stuffed animal then turns out to be more than she bargained for when the bear starts to grow a tail and red eyes. When she discovers those details, she desperately tries to send it away to a pawn shop owner, but the next day he ends up dead, and a new feeling that the stuffed bear may not be what she considered a stuffed cuddly toy anymore. The story focuses on the character of Mary, and the stuffed bear that she suddenly inherits when the doll is left on her doorstep. She finds that although the stuffed bear did have an owner, he ended up in a mental institution, and the bear was simply left behind, either by someone else or the bear itself. She doesn't want to come to the terms that it could have ended up on her doorstep, by itself, but when the tale that the previous owner claimed is finally revealed, she desperately searches for an answer to the horror of Truggle.

Don Newman's first volume of Savannah centric poetry reflects the close personal relationship between poet and subject often found in work dedicated to a particular place. Such intimate subjectivity may seem lofty at times. But this Savannah native has a way of bringing grandiose notions of his hometown down to earth. Here, the author's regional sensibilities-together with his stretch toward the universal-offer the reader a unique perspective and a tour of Savannah unattainable during a typical day of sightseeing. While by no means a comprehensive poetic look at the city, Newman's Little Poetry Book of Savannah will surely augment the traveler's backpack, give visitors a distinctive literary keepsake, and make the perfect gift for those back home who would like an authentic little piece of Savannah. Meditative, descriptive, fun, quirky, and enjoyably honest, Newman bares parts of his soul in this down-to-earth, head-in-the-clouds "poetry for everyone." \*This is the FULL COLOR version\* "This marvelous little devotional book teaches us about God's principles for our lives through the stories of the outdoors and God's creatures. It is amazing how Stan Lake has taken the lessons of life expressed in and through animals, insects, and nature to show with scripture the truth of God's creation. I met Stan when he was a student with us at the Vision for Evangelism for the Next Generation weekend at the Billy Graham Library. His heart is truly that others might know the One who created all. Stan uses

nature and the Creator 's words to share creative devotions to build His Kingdom." Tom Phillips Vice President, Billy Graham Evangelistic Association Billy Graham Library "It is with great pleasure I highly recommend STAN LAKE's wonderful book, WHISPERS in the WOODS! He found me through social media, gave a 'whisper' in the dark, and as fate would have it, through his persistence and my time availability, I was able to read it. I was thoroughly expecting a very worthy but 'holier than thou' approach- boy was I ever wrong! Stan has captured the most wonderful Essence of Nature and the Great Spirit in a way that connects us too our roots and Mother Earth, while touching our hearts and spirits with kind and wise words that refresh, nourish and tickle all at the same time. That is no small accomplishment. I am sure Stan would say, he had a guiding hand! If you need something to fill a dark space in your life, this enjoyable and easy read is like a cool drink of fresh water in the desert. This book brought me great joy!" Mykel Hawke TV Host & Producer, Author, Designer, Black Belt and Family Counselor, Retired Special Forces Officer, Military & Contractor Combat Veteran "Stan Lake, clearly loves God and His marvelous creation. This is evident from the many great examples from nature that Stan uses to illustrate Kingdom principles and encourage all to follow Christ. I highly recommend "Whispers' in the Woods". John R. Berry (Rev) Herpetologist, author & speaker. "Stan has a great heart for God and His creation so it's awesome to see him combine his passions to write this fun and inspiring book! Read it by yourself or with your children- it will be a great way to grow closer to God and appreciate what He made!" Joe Wrostek Apostolic ElderMetro Praise International Church Chicago, IL. "Stan Lake finds thoughts and messages from the creation he catches and releases those truths to his audience. the nature around us all." Mike Rakes Lead Pastor, winstonsalemfirstWinston Salem, NC  
"Nature is always a great teacher when you stop and study it. Stan Lake has shared his revelations from nature and God's word combining them to be truly thought provoking. Stan is a voice crying from and for the wilderness to help us make our ways straight with the Lord's help." Richard Norris DVM MBA Founder of Leading Men Only Perth, Scotland "Stan takes the everyday ignored aspects of creation and applies them to sound biblical teaching that we can all use to develop our walk with God. As someone who prefers to worship God in his creation I can draw a lot of parallels from Stan's teaching and appreciate the truth he reveals through the masters work. Whispers In The Woods will encourage you to pause, value and thank God for all he has done." Clinton Kirkpatrick. Believers Bushcraft County Antrim, Northern Ireland.

but information has traveled between the stars. Now a starship, *The Child of Ambition*, is changing that. Her first mission: to explore the dark worlds, the ones that failed. Kali Hakoian, pilot-astronaut and war hero, thought landing on the super-Earth of Keto would be routine. The emptiest seed world—its global ocean matted with algae and crawling with hurricanes—hides the oldest human ruins. Her crew of scientists: a dreamer, a believer, and a retired assassin. Their hypothesis—self-termination of the seed base. But when an act of sabotage strands her in the path of a superstorm, she's forced to escape with the man she trusts the least. They may never find out what happened to the settlers—unless it happens to them. Can she trust her crew enough to find a way out of the darkness?

Even in 1960s Detroit, race isn't everything. Tom Daniels and "Cookie" Marsh will be the first to tell you that race isn't everything. But it did shape the way they experienced the world growing up in Detroit in the 1950s and 60s. Tom "Cookie" Marsh grew up in a black neighborhood on Detroit's west side. Tom Daniels grew up in a mixed, working-class neighborhood on Detroit's east side. Both men grew up in strict households where they "always got what we needed, and sometimes what we wanted" and both saw their city, their country, and their world transform around them through the Civil Rights movement, riots, and the Viet Nam War. But sometimes parallel lines intersect. As each man tells his story, it is apparent that race isn't just "black and white" but it is part of what makes their friendship extraordinary. Their experiences will show you that race made for huge differences in their experiences, while, in spite of race, there are also touching similarities that made it possible for two men, in their older years, to overcome decades of racial turbulence of their upbringing to become lifelong friends. Follow Tom and Cookie. Hear about their lives, their upbringing, their successes and regrets growing up in black and white Detroit - and how when it boils down to it, the things that

This book provides the first detailed account of the formative decades of BBC televised sport when it launched its flagship programmes Sportsview, Grandstand and Match of the Day. Based on extensive archival research in the BBC's written archives and interviews with leading producers, editors and commentators of the period, it provides a 'behind-the-scenes' narrative history of this major institution of British cultural life. In 2016 the BBC celebrated the fiftieth anniversary of its television coverage of England's World Cup victory. Their coverage produced one of the most oft-played moments in the history of television, Kenneth Wolstenholme's famous line: 'Some people are on the pitch, they think it's all over ... it is now!' as Geoff Hurst scored England's fourth goal, securing England's 4-2 victory. It was a

Congratulations!" -Leo Skogstroem Pyttis, Finland "I learned more about photoshop in the three days I spent studying your book than I did in the 5 years playing around with it on my own. Your coverage of Color Management solved many issues I'd been having in trying to get the printed image to look like what I was seeing on my monitor. What I learned from you is that I was doing just about everything wrong with regards to capture and destructive editing. I have now completely changed both my pre- and post production work flow habits with amazing results. As a writer and small-publisher, I give you many kudos on creating a book that is by all accounts a real home run." -Rick Miller "I just wanted to write and say this is one of the best books I have ever read! I got it today and have spent all night reading it (it's about 1 am now) and I'm almost half way through it. Everything makes so much more sense now. I just wanted to tell you great job! It has gotten me more excited about photography in six hours than otherwise in the last six years! I really like your style and would like to "relearn" photography with your way of explaining. Again, congratulations on an excellent book!" -Jeff Peters "I am enjoying your new book "Black and White". It is rare to find so many wonderful images in a 'How To' book." -Robert Sachs "I wish that I can tell you how I appreciate your contribution to making the digital darkroom something that I have fell in love with. Up to now I have used various books and sources: bits here and bits there. I have actually build up quite a library. No one particular reference book addressed the B+W worker with some basic understanding of Photoshop. You have produced something that fills this gap, and which is written and illustrated in a remarkable manner. I hail from the chemical darkroom, and as such have never really enjoyed correcting images on the computer. Photoshop, which is my program of choice, is quite intimidating, and the haphazard way in which I learned my skills from various sources, reflected in the inconsistent results that I was producing. Well, now all have changed. At least - something good is happening. I hope that you make a killing with your book - you deserve to! Keep abreast of the distant 'also-runners' by releasing updates as the technology changes." -Andre du Plessis (South African, living in London) "Black And White In Photoshop CS3 And Lightroom explains in clear and easy to understand steps what it takes to generate quality black and white images using Photoshop and/or Lightroom.
