It's time we all stopped whining and learned a thing or two from The Toughest Cyclists Ever. Including: Stephen Roche, whose cure for exhaustion was to go up a gear and fight harder, all the way to the ambulance. Eddy Merckx, who hurt himself so badly in breaking the Hour record that, he estimated, he shortened his career by a year. Beryl Burton, who crushed her (male) rival's morale with the offer of a piece of liquorice, before speeding past to victory. Nicole Cooke and Edwig Van Hooydonck, who rejected dope and became legends. The Hardmen tells the stories - the good bits, anyway - of the 40 most heroic Cyclists ever. Their bravery, their panache and their Perfect Amount of Dumb. It reminds us that suffering on a bike liberates us from our daily lives, and that, in the words of Lance Armstrong "pain is temporary, quitting lasts forever"; proof that even assholes can be insightful.

For months, Cass has heard her best friend, Julia, whisper about a secret project. When Julia dies in a car accident, her drama friends decide to bring the project? a musical called Totally Sweet Ninja Death Squad? to fruition. But Cass isn't a drama person. She can't take a summer of painting sets, and she won't spend long hours with Heather, the girl who made her miserable all through middle school and has somehow landed the leading role. So Cass takes off. In alternating chapters, she spends the first part of summer on a cross-country bike trip and the rest swallowing her pride, making props, and? of all things? falling for Heather. This is a story of the breadth of love. Of the depth of friendship. And of the most hilarious musical one quiet suburb has ever seen.

An accessible explanation of climate change summarizes its science while sharing insights into its implications for the future, answering key questions from the role of fossil fuels to the economic costs of reducing carbon emissions.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books

at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

Every person has a story, a personal narrative that informs their life, their decisions, and their way of thinking. But did you know that it also affects the wiring of your brain? Renowned psychiatrist and professor at Harvard Medical School John Sharp, M.D., offers an eight-step process to discovering your unconscious narrative and using your new insight to eradicate the "false truth" that has been at the core of your self-sabotage. His unique approach integrates four core domains of applied psychology—control mastery theory, attachment theory, narrative therapy, and positive psychology—with his own research and professional experience to construct an insightful and soul-searching path to insight. Throughout his step-by-step process, Dr. Sharp provides: - The "Sharp Focus" to distill and emphasize important concepts - Quizzes to help you analyze your internal and external tendencies - "First Impressions" case studies from his professional practice - Awareness, insight, change, and narrative tools to facilitate your transformation - "Gut Checks" to help you figure out if you are ready to move on to the next step in the process Dr. Sharp's approach is simple and accessible, with the power to wield profound results. Through exercises, quizzes, thorough exploration of case studies, and clear guidance, you will be able to find your false truth, rewrite your story, and transform your life. Once you have flipped the switch of insight, nothing can hold back the light that shines from within.

These days, more and more children are going through that rite of passage known as getting braces. Now they can chronicle the experience in this very hip, very cool, and very original journal. Created by bestselling author Dan Price, this beautifully designed guide is entirely hand-

lettered and drawn, and captures every moment, from the first appointment to that blessed day when the orthodontist says “All done!” and finally removes the braces. It has space for before and after photographs, room to track orthodontist visits, “Fun Facts” pages, suggested “Books to Read,” the dreaded “Forbidden Foods” list, and fun illustrations on “Troubleshooting” common problems with your braces. This is an all-around great gift!
