Deliverance of the blood.

What is the nature of the modern state? How did it come into being and what are the characteristics of this distinctive field of power that has come to play such a central role in the shaping of all spheres of social, political and economic life? In this major work the great sociologist Pierre Bourdieu addresses these fundamental questions. Modifying Max Weber's famous definition, Bourdieu defines the state in terms of the monopoly of legitimate physical and symbolic violence, where the monopoly of symbolic violence is the condition for the possession and exercise of physical violence. The state can be reduced neither to an apparatus of power in the service of dominant groups nor to a neutral site where conflicting interests are played out: rather, it constitutes the form of collective belief that structures the whole of social life. The 'collective fiction' of the state is a fiction with very real effects - is at the same time the product of all struggles between different interests, what is at stake in these struggles, and their very foundation. While the question of the state runs through the whole of Bourdieu's work, it was never the subject of a book designed to offer a unified theory. The lecture course presented here, to which Bourdieu devoted three years of his teaching at the Collège de France, fills this gap and provides the key that brings together the whole of his research in this field. This text also shows 'another Bourdieu', both more concrete and more pedagogic in that he presents his thinking in the process of its development. While revealing the illusions of 'state thought' designed to maintain belief in government being oriented in principle to the common good, he shows himself equally critical of an 'anti-institutional mood' that is all too ready to reduce the construction of the bureaucratic apparatus to the function of maintaining social order. At a time when financial crisis is facilitating the hasty dismantling of public services, with little regard for any notion of popular sovereignty, this book offers the critical instruments needed for a more lucid understanding of the wellsprings of domination.

'Excellent book.' Nigella Lawson 'Charming, inspiring, uplifting... pure lovely.' Marian Keyes 'Read Rhapsody in Green. A novelist's beautiful, useful essays about her tiny garden.' India Knight 'Glorious...for anyone who loves fruit, vegetables, herbs and language. It makes you see them with new eyes.' Diana Henry 'A witty account of 'extreme allotmenting' for all obsessive gardeners' Mail on Sunday 'An extremely entertaining and inspiring story of one woman's passionate transformation of a small, irregular shaped urban garden into a bountiful source of food.' Woman & Home 'A gardening book like no other, this is the author's 'love letter' to her garden. She relays warm and witty stories about the trials and tribulations throughout her gardening year.' Garden News '...this inspirational, funny book, written by someone who hankers after a homesteader's lifestyle, will make you look at even your window box in a new, more productive light.' The Simple Things 'Gardening is not a hobby but a passion: a mess of excitement and compulsion and urgency and desire. Those who practise it are botanists, evangelists, freedom fighters, midwives and saboteurs; we kill; we bleed. No, I can't drop everything to come in for dinner; it's a matter of life and death out here.' Novelist Charlotte Mendelson has a secret life. Despite owning only six square metres of urban soil and a few pots, she is an extreme gardener; the creator of a tiny but bountiful edible jungle. And like all enthusiasts, she will not rest until you share her obsession. This is the story of an amateur gardener's journey to addiction: her attempts to buy lion dung from London Zoo and to build her own cold frame; her disinhibited composting and creative approach to design; her prejudices (roses, purple flowers, people with orchards); and her passions: quinces, salad-leaves, herbs, Japanese greens and ancient British apples. It is a story of where fantasy meets reality, of the slow onset of a consuming love and, most of all, of how gardening, however peculiar, can save your life.

The Flaming Cow offers a rare insight into the brilliant but often fraught collaboration between Pink Floyd and composer Ron Geesin, the result of which became known as Atom Heart Mother – the Floyd's first UK number one album. From the time drummer Nick Mason visited Geesin's damp basement flat in Notting Hill, to the last game of golf between bassist Roger Waters and Geesin, this book is an unflinching account about how one of Pink Floyd's most celebrated compositions came to life. Alongside unpublished photographs from the Abbey Road recording sessions (the only ones taken) and the subsequent performances in London and Paris, Geesin goes on to describe how the title was chosen, why he was not credited on the record, how he left Hyde Park in tears, and why the group did not much like the work. The Flaming Cow rose again, firstly in France, then in London in 2008. After 40 years Atom Heart Mother remains a much-loved record, and The Flaming Cow explores its new-found cult status that has led to it being studied for the French Baccalauréat.

The arrival of a letter delayed by 33 years sparks off a quest that leads both on a nostalgic journey back to the 1980s and right to the heart of France today. Middle-aged doctor Alain Massoulier has received a life-changing letter – thirty-three years too late. Lost in the Paris postal system for decades, the letter from Polydor, dated 1983, offers a recording contract to The Holograms, in which Alain played lead guitar. Overcome by nostalgia, Alain is tempted to track down the members of the group. But in a world where everything and everyone has changed...where could his quest possibly take him?

Today's antisemitism is difficult to recognize because it does not come dressed in a Nazi uniform and it does not openly proclaim its hatred or fear of Jews. This book looks at the kind of antisemitism which is tolerated or which goes unacknowledged in apparently democratic spaces: trade unions, churches, left-wing and liberal politics, social gatherings of the chattering classes and the seminars and journals of radical intellectuals. It analyses how criticism of Israel can mushroom into antisemitism and it looks at struggles over how antisemitism is defined. It focuses on ways in which those who raise the issue of antisemitism are often accused of doing so in bad faith in an attempt to silence or smear. Hostility to Israel has become a signifier of identity, connected to opposition to imperialism, neo-liberalism and global capitalism; the 'community of the good' takes on toxic ways of imagining most living Jewish people. Weaving together theoretical discussion with case study narrative in an engaging and interesting way, this book is a global study which is essential reading for scholars working in sociology, politics, Middle East studies, Israel studies, Jewish studies, philosophy, anthropology, journalism and history, as well as anyone interested in current affairs and politics.
