in a corner, yet can travel all around the world? How is it possible to lift an elephant with just one finger? Looking for a productive yet enjoyable way for your child to spend their free time? Because of how rapidly children develop mental skills between the ages of 5 and 8, this is an ideal time to get your kid into the habit of reading. At around age 5, children begin to build on their reading and language skills. They will already be able to use descriptive words and string together sentences with more than 6 words. As they grow, they continue to expand their knowledge, absorbing facts like a sponge and learning new skills with eagerness along the way. By the time they reach the age of 7 or 8, they start to solve problems using logic rather than trial and error, and are better able to articulate their thoughts and feelings. As a parent, it is essential that you support their development and foster their minds during this critical stage. However, you also don't want to pressure them to the point where they lose interest. Riddles are a fun way to engage children around this age, while also getting them to learn about different topics and encourage their imagination. With riddles, not only will they improve their reading comprehension, phonetics, and pronunciation, they'll also gain confidence to read and answer aloud, without the fear of being wrong. What's even better is that you don't have to go far to find suitable riddles for your kids. In *Awesome Riddles for Kids*, you will discover: ? 200+ age-appropriate riddles that have just the right level of complexity to make it challenging, yet still simple enough for 5 to 8-year-olds ? Thought-provoking questions that encourage imaginative and out-of-the-box thinking to get the right answer ? Jumbled letters for your child to reshuffle and rearrange to sensible phrases, helping to expand their vocabulary and train their puzzle-solving skills ? How to develop your child's critical and creative thinking through these baffling situations they will be faced with to solve ? Quirky original illustrations your child can color in, which also teach them how to visualize detailed descriptions ? Tricky guessing games that boost your child's spelling skills while exercising their ability to analyze ? Fun facts about random topics that will spur your child's curiosity and open the door to new and interesting conversations And much more. Whether you just have 5 minutes to spare on the way to school, or the whole weekend stuck indoors, you and your family can spend some quality time working out your brains together while having a laugh at the same time. Be creative and utilize it to its full potential! **GAME RULES AND MODES** This book provides children with several modes to play. The modes are described below: 1. Play vs. Time: This mode allows parents to choose a specific time period and ask the children to solve riddles in that time. This way, children can even try to break their own records by striving to solve as many riddles as they can in a particular time. To keep the kids motivated and interested, we should not choose very long periods of time. One hundred twenty seconds seem to be the best time to keep things entertaining. 2. Play as long as the player doesn't fail an answer: This mode can keep the kids engaged, and their self-confidence can increase by every riddle they solve. We can even choose what kind of riddles to play for this mode from easy to hard. 3. Play a set of 10 questions/riddles and then compare the scores: This mode can keep all of our children involved at the same time. We can set them up individually in a competition or even as teams. Being in a competition can motivate them to do better. This mode can help children learn teamwork and bonds, not just between siblings but also the family can become stronger. In the end, we can compare who got the highest points and maybe even decide prizes for making this activity more interactive. 4. Just play having fun: This mode frees us of any rules. We can play any way we want. The aim is just to have fun. We can mix up the easy to hard riddles and just enjoy solving them without any competition or setting time limits.
